The Holocaust's Jewish Calendars Alan Rosen, 2019-02-28 The most comprehensive to date treatment of these precious artifacts of the Holocaust's Jewish efforts to maintain religious observations and identity Choice Calendars map time shaping and delineating our experience of it While the challenges to tracking Jewish conceptions of time during the Holocaust were substantial Alan Rosen reveals that many took great risks to mark time within that vast upheaval Rosen inventories and organizes Jewish calendars according to the wartime settings in which they were produced from Jewish communities to ghettos and concentration camps The calendars he considers reorient views of Jewish circumstances during the war and show how Jews were committed to fashioning traditional guides to daily life even in the most extreme conditions In a separate chapter moreover he elucidates how Holocaust era diaries sometimes served as surrogate Jewish calendars All in all Rosen presents a revised idea of time continuity the sacred and the mundane the ordinary and the extraordinary even when death and destruction were the order of the day Rosen's focus on the Jewish calendar the ultimate symbol of continuity as weekday follows weekday and Sabbath follows Sabbath sheds new light on how Jews maintained connections to their way of conceiving time even within the cauldron of the Holocaust Rosen demonstrates the relationship between time and meaning between meaning and holiness between holy days and the divine presence all of which came under assault in the Nazis effort to kill Jewish souls before destroying Jewish bodies David Patterson author of *Along the Edge of Annihilation The Collapse and Recovery of Life in the Holocaust Diary*

Time and the Technosphere José Argüelles, 2002-08-03 A groundbreaking study that distinguishes the natural time of the cosmos from artificial mechanistic time Reveals September 11 as the signal of the end of artificial time according to the Law of Time Long awaited sequel to the author's bestselling book *The Mayan Factor Explains the Great Calendar Change of 2004* and its enormous potential for the future of humanity In *Time and the*

Technosphere Jos Arg elles presents a groundbreaking study that distinguishes the natural time of the cosmos from the artificial mechanistic time under which we currently live Arg elles defines the actual nature of time as the frequency of synchronization Applying this Law of Time to an understanding of the entire system of life on Earth he shows that in order to not destroy Earth s ability to sustain life we must change our definition of time and adopt a natural harmonic calendar based on the 13 moon 28 day cycle Until the creation of the Gregorian calendar and the 60 minute hour most of humanity lived by the 28 day cycle of natural time The adoption of artificial time has subjected us to a 12 60 time frequency that governs the entire global industrialized civilization the technosphere With the collapse of the Twin Towers on September 11 a fissure was created in this artificial technosphere opening up the noosphere Earth s mental envelope Humanity has a golden opportunity to leave the strife of the past and enter a time of peace by adopting a harmonious natural calendar that will repair the damages caused by the irregular tempo of technospheric time Our last best chance to adopt this natural time and step into the bright new future promised by the galactic shift of 2012 is the Great Calendar Change of 2004 a new discovery based on the author s mathematical research into the Mayan calendar first begun in his landmark work The Mayan Factor In Time and the Technosphere Arg elles reveals the clear distinction between third dimensional astronomical time and the fourth dimensional synchronic order of the Law of Time which holds enormous potential for the future of humanity
