BOOK JACKET Conscious Evolution Barbara Marx Hubbard, 2010-10-14 Outlining the new worldview of conscious evolution futurist Barbara Marx Hubbard has written a call to action for our current generation to fulfill its creative potential She defines conscious evolution as the awareness that humans have gained the power to affect our own evolution and she asserts that we must quickly become capable of wise and ethical guidance of evolution itself if life on earth is to survive Only in the last fifty years have we gained the scientific and technological power to destroy or enhance the planet s life support system Our generation has the ability to abuse or conserve these powers to act in a way as co creator Conscious Evolution reveals the path of the co creator born out of these powers and society s new spirituality and discusses the tools and opportunities that each of us has to fully participate in this exciting stage in history

Sex and the Goddess Karin E Weiss Ph.D., PhD, 2019-11-25 It has been over twenty years since the full manuscript of my book was edited for publication in 1998 I had begun writing it in the previous decade the 1980 s a period of flourishing women s liberation movements against the patriarchal status quo Books about women s sexuality and spirituality were flooding the bookstores and many writers were producing profound studies of the untold heroism of women throughout history I was a pioneer in the burgeoning field of Sex therapy and education at the University of Minnesota Medical School s Program in Human Sexuality In addition I conducted women s self enrichment groups and workshops in my private practice Woman s Discovery Institute where I also gave professional Astrology readings and classes This rich mix of psychology philosophy spirituality and a knowledge of the cyclic

patterns of life shown by astrology created within me an avid interest in researching women's unsung heroism throughout history. It brewed in me a heady fascination to stitch it all together in a circle montage that connects all women and all aspects of our multi-layered lives. I based my theory on the lunar cycle which is eternally linked to women's menstrual, emotional, and psychic cycles. With a friend, I created a series of workshops for women to celebrate their many faceted selves and gain confidence to pursue their goals. Yet for various reasons, my book manuscript remained in my own bookshelf, never getting published. Until now, the times again call for women to claim their autonomy and gain equality in an overly male-dominated and viciously callous world. I am blessed to find in Xlibris a publisher ready to take on the project with me. I am thrilled to finally see my *Life's Masterwork* in print. You will find many divergent ideas in these two volumes. No single woman encompasses all that are described, but as you read and recognize these characters in yourselves and your friends, I hope it will help you gain a full appreciation of your own awesome erotic spirit and sacred sexual powers.

A Journey in Search of Wholeness and Meaning Rupert Clive Collister, 2010. This book explores the concept that the reality which is created by the consciousness inherent in the Western worldview is exceptionally limiting and probably unsustainable. After describing the contexts within which the book was written, the author documents his personal journey in search of wholeness and meaning. From his experience of this journey, he suggests that the wisdom, insight, and praxis contained within what he describes as the meta-narratives of Holism, Indigenous cultures, and Eastern traditions are manifestations of a holistic consciousness. The author explores the concept that a shift to such a holistic consciousness is required in order to redress the imbalance that is evident in all humanity's relationships, and he suggests that enabling such a shift in consciousness would have deep implications for the concepts and contexts of community, adult learning, meaningful work, and sustainability.

American Angels Peter Gardella, 2007. Explores the rich history of angels in America from Spanish colonialism and Puritan culture to modern incarnations found on TV, in movies, in comic books, and on bumper stickers. Finds that Americans have constructed the useful angel as a servant of man rather than an agent of God.

Principles of Abundance for the Cosmic Citizen Dorothy I. Riddle, 2010. *Principles of Abundance for the Cosmic Citizen* translates the principles of quantum physics into practical tools that we can use to transform ourselves and our communities. Dr. Riddle brings together insights from physics, cosmology, biology, economics, psychology, and metaphysics to confirm our cosmic interconnectedness and our basic motivation to cooperate rather than to compete. She weaves a compelling portrayal of ourselves as part of an ever-evolving and abundant though not unlimited universe.

The Third Temple: Merging Agendas Jonathan Malone, 2023-08-17. Of the supporters of the modern nation of Israel, Christian Zionism seems to have contributed little more than moral support. Perhaps some financial support. However, there were supporters of the national effort unknown to the general public who wielded significant power, often flying under the cover of Christian Zionism. Who were they? What was their interest? In order to identify them, we view modern history through the lens of Biblical prophecy: Mystery Babylon, a global false religious

system of the end times seems to be a form of Gnosticism In this book we begin to develop the idea that the nation was founded with religious designs and not particularly Jewish designs although there is a correspondence between the Gnosticism of Freemasonry and Judaic Gnosticism
