Spiritualism Rationalism:

Religion and the Limits of Modern Rationalism John-Michael Kuczynski, Religion is shown to be distinct from both rationalism and spiritualism but to combine elements of both It is further shown that modern rationalism much like an unregulated economy collapses into its own antithesis it being one of the purposes of religion to prevent this collapse

Rationality, Humility, and Spirituality in Christian Life Dennis Hiebert, 2020-02-27 As Euro American culture turns resolutely away from religiosity toward spirituality and becomes increasingly post Christian the ordinary everyday practice of Christian life is ever more questioned and in need of scrutiny In this interdisciplinary analysis Christians are first called to comprehend the excessive rationality that modernity has built into both the cognitive and organizational structure of contemporary Christian life They are then summoned to personify an authentic attitude of humility and in particular the virtue of intellectual humility that is most challenged and tested by religious convictions Going forward Christians are subsequently invited to live their faith more as an internally differentiated and open spirituality rather than an externally determined and regulated religiosity When we exhaust our rationality and are confronted with its limitations we are humbled by our finitude and animated by our spirituality New Age Religion and Western Culture Wouter J. Hanegraaff, 2018-09-24

Recent years have seen a spectacular rise of the New Age movement and an ever increasing interest in its beliefs and manifestations This fascinating work presents the first ever comprehensive analysis of New Age Religion and its historical backgrounds thus providing the reader with a means of orientation in the bewildering variety of the movement Making extensive use of primary sources the author thematically analyses New Age beliefs from the perspective of the study of religions While looking at the historical backgrounds of the movement he convincingly argues that its foundations were laid by so called western esoteric traditions during the Renaissance Hanegraaff finally shows how the modern New Age movement emerged from the increasing secularization of those esoteric traditions during the 19th century This ground breaking publication is compulsive reading for all those involved or interested in the New Age movement *Prophecy and Reason* Andrew Cooper Fix, 2014-07-14 During the second half of the seventeenth century the entire intellectual framework of educated Europe underwent a radical transformation A secularized view of humanity and nature was replacing faith in the direct operation of God's will in the temporal world while a growing confidence in human reason and the Scientific Revolution turned back the epistemological skepticism spawned by the Reformation By focusing on the Dutch Collegiants a radical Protestant group that flourished in Holland from 1620 to 1690 Andrew Fix explicates the mechanisms at work in this crucial intellectual transition from traditional to modern European worldview Starting from Rijnsburg near Leiden the Collegiants spread over the course of the century to every major Dutch city At the same time their thinking evolved from a millenarian spiritualism influenced heavily by the sixteenth century Radical Reformation to a philosophical rationalism similar to the ideas of Spinoza Fix has taken on an important topic in the history of ideas the circumstances under which

natural reason came to be accepted as an autonomous source of truth for the individual conscience He also has fresh and concrete things to say about the relationship between religion and science in early modern European history Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Spiritualism's Place** Averill Earls, Sarah

Handley-Cousins, Marissa C. Rhodes, Elizabeth Garner Masarik, 2024-10-15 In *Spiritualism's Place* four friends and scholars who produce the acclaimed Dig A History Podcast share their curiosity and enthusiasm for uncovering stories from the past as they explore the history of Lily Dale Located in western New York State the world's largest center for Spiritualism was founded in 1879 Lily Dale has been a home for Spiritualists attempting to make contact with the dead as well as a gathering place for reformers a refuge for seekers looking for alternatives to established paths of knowledge and a target for skeptics This intimate history of Lily Dale reveals the role that this fascinating place has played within the history of Spiritualism as well as within the development of the women's suffrage and temperance movements and the world of New Age religion As an intentional community devoted to Spiritualist beliefs and practices Lily Dale brings together multiple strands in the social and religious history of New York and the United States over the past 150 years feminism social reform utopianism new religious movements and cultural appropriation Podcasters and historians alike Averill Earls Sarah Handley Cousins Elizabeth Garner Masarik and Marissa C Rhodes each identify one site in Lily Dale and one theme that its history illuminates They use those sites and themes to approach Lily Dale not as debunkers but as inquisitive researchers and storytellers At the same time they also reflect on their own relationships contending that it's never quite possible to separate grief hope faith and friendship from understandings of the past *Spiritualism's Place* breaks myths unveils unexpected stories and finds new ways to contemplate Spiritualism's role in American history **The Story of My Mind; Or, How I Became a Rationalist**

Mangasar Mugurditch Mangasarian, 1909 New Approaches to the Study of Religion: Regional, critical, and historical approaches Peter Antes, Armin W. Geertz, Randi Ruth Warne, 2004 Internationally recognized scholars from many parts of the world provide a critical survey of recent developments and achievements in the global field of religious studies The work follows in the footsteps of two former publications *Classical Approaches to the Study of Religion* edited by Jacques Waardenburg 1973 and *Contemporary Approaches to the Study of Religion* edited by Frank Whaling 1984-85 *New Approaches to the Study of Religion* completes the survey of the comparative study of religion in the twentieth century by focussing on the past two decades Many of the chapters however are also pathbreaking and point the way to future approaches **The Universalist Movement in America, 1770-1880** Ann Lee Bressler, 2001 This text offers a cultural
