With plates.] , 1863 **The Regulation of Religion and the Making of Hinduism in Colonial Trinidad** Alexander Rocklin, 2019-02-07 How can religious freedom be granted to people who do not have a religion While Indian indentured workers in colonial Trinidad practiced cherished rituals Hinduism was not a widespread category in India at the time On this Caribbean island people of South Asian descent and African descent came together under the watchful eyes of the British rulers to walk on hot coals for fierce goddesses summon spirits of the dead or honor Muslim martyrs practices that challenged colonial norms for religion and race Drawing deeply on colonial archives Alexander Rocklin examines the role of the category of religion in the regulation of the lives of Indian laborers struggling for autonomy Gradually Indians learned to narrate the origins similarities and differences among their fellows cosmological views and to define Hindus Muslims and Christians as distinct groups Their goal in doing this work of subaltern comparative religion as Rocklin puts it was to avoid criminalization and to have their rituals authorized as legitimate religion they wanted nothing less than to gain access to the British promise of religious freedom With the indenture system s end the culmination of this politics of recognition was the gradual transformation of Hindus rituals and the reorganization of their lives they fabricated a world religion called Hinduism The Religion of Modern Spiritualism and Its Phenomena Dr. William Cleveland, 1896 The Truths of Spiritualism Ebenezer V. Wilson, 1876 **Madame Blavatsky against Spiritualism** Helena Petrovna Blavatsky, 2020-06-12 There are Spirits and Spirits High Planetary Spirits who have been human beings millions of ages since and upon other besides our own planet there are the illusionary appearances of these projected upon the intra psychic screen of our mediumistic hence confused perceptions and there are seers and mediums as there are great men of science willing and sincere but ignorant tyros Spiritualism has spawned almost as many

books as a herring does eggs There can be no spiritual intercourse either with the souls of the living or the dead unless it is preceded by self spiritualization the conquest of selfishness and the unfoldment of the nobler powers within us Spiritualism and Theosophy are mere opinions and beliefs and nothing more They can no more claim to be regarded as facts than any other emotional belief for the facts of one will be delusion in the eyes of the other Spiritualists and Theosophists fully agree that there are higher and pure spirits outside the realm of our physical senses But they entirely disagree as to the nature and causal agency of communicating intelligences The disembodied spirits instead of having become the wiser for being rid of the physiological impediments and the restraints of their gross material senses would seem to have become far more stupid far less perspicacious and in every respect worse than they were during their earthly life As nations became restricted by their own tongue the once universal Mystery Language is being gradually denied to subsequent generations While the disciples of Eastern Occultism are trying to purify matter Western Spiritualists are striving to degrade spirit Spiritualists and Theosophists travel along a parallel if not quite identical path Yet to those bereft of a metaphysico spiritual vocabulary Eastern Occultism will remain impassable to the babel tower of modern thought caused by ignorance of the true meaning of words and their synonyms a skin deep learning leading to mistaken notions and the tendency of elevating misconceptions to the dignity of dogmas If people would stop speculating and would simply stick to substantiated fact truth would be more readily attained in each and every case Truth stands higher than any earthly consideration ever will Let each of us show our facts and give our explanations and let those who are neither Occultists Spiritualists nor sceptics adjudicate between the contestant parties The world must learn at last under the penalty of falling back to superstitious beliefs in the biblical devil why such phenomena do so happen and to what cause or causes they are to be attributed New Dispensation is the latest folly of dogmatic Christianity We are not acquainted with a god who thinks plots rewards punishes and repents The only god whom we serve is humanity and our only cult is love of our fellow man This our religion and dogma Men have done their best to replace the solar rays with the false glare of error and fiction none more so than the bigoted narrow minded theologians and priests of every faith the sophists and perverters of the Spirit of Truth Parsifal is the theatrical representation of good and evil in a supreme struggle It is our universe saved through atonement it is sin redeemed through grace and the triumph of faith and charity Thus far Pilate s What is truth has never been sufficiently answered to the satisfaction of narrow minded sectarians The Theosophical Society upholds and advocates only corroborated facts and Truth and nothing but the Truth whencesoever and from whomsoever it may come Our views have to stand or fall upon their own merit since we claim neither divine revelation nor infallibility We will not serve Truth and Falsehood at the same time Our policy is war to death to every unproved dogma superstition bigotry and intolerance The Higher Spiritualism John Calvert Leonard,1927

Spiritualism Versus Christianity Carlyle Boynton Haynes,1918 The growth of modern Spiritualism with its mysterious working demands a thoughtful investigation from the standpoint of the Bible In this book Christianity is asked to vindicate

itself in the face of the evidences which Spiritualistic powers have produced **Fits, Trances, and Visions** Ann Taves, 2020-03-31 Fits trances visions speaking in tongues clairvoyance out of body experiences possession Believers have long viewed these and similar involuntary experiences as religious as manifestations of God the spirits or the Christ within Skeptics on the other hand have understood them as symptoms of physical disease mental disorder group dynamics or other natural causes In this sweeping work of religious and psychological history Ann Taves explores the myriad ways in which believers and detractors interpreted these complex experiences in Anglo American culture between the mid eighteenth and early twentieth centuries Taves divides the book into three sections In the first ranging from 1740 to 1820 she examines the debate over trances visions and other involuntary experiences against the politically charged backdrop of Anglo American evangelicalism established churches Enlightenment thought and a legacy of religious warfare In the second part covering 1820 to 1890 she highlights the interplay between popular psychology particularly the ideas of animal magnetism and mesmerism and movements in popular religion the disestablishment of churches the decline of Calvinist orthodoxy the expansion of Methodism and the birth of new religious movements In the third section Taves traces the emergence of professional psychology between 1890 and 1910 and explores the implications of new ideas about the subconscious mind hypnosis hysteria and dissociation for the understanding of religious experience Throughout Taves follows evolving debates about whether fits trances and visions are natural and therefore not religious or supernatural and therefore religious She pays particular attention to a third interpretation proposed by such mediators as William James according to which these experiences are natural and religious Taves shows that ordinary people as well as educated elites debated the meaning of these experiences and reveals the importance of interactions between popular and elite culture in accounting for how people experienced religion and explained experience Combining rich detail with clear and rigorous argument this is a major contribution to our understanding of Protestant revivalism and the historical interplay between religion and psychology

The Spiritualist Newspaper ,1875 **The Appropriation of Religion in Southeast Asia and Beyond** Michel Picard, 2017-08-11 This volume investigates various processes by which world religions become localized as well as how local traditions in Southeast Asia and Melanesia become universalized In the name of modernity and progress the contemporary Southeast Asian states tend to press their populations to have a religion claiming that their local indigenous practices and traditions do not constitute religion Authors analyze this religionization addressing how local people appropriate religion as a category to define some of their practices as differentiated from others whether they want to have a religion or are constrained to demonstrate that they profess one Thus religion is what is regarded as such by these local actors which might not correspond to what counts as religion for the observer Furthermore local actors do not always concur regarding what their religion is about as religion is a contested issue In consequence each of the case studies in this volume purposes to elucidate what gets identified and legitimized as religion by whom for what purpose and under what political conditions
