Spirituality Its A Lifestyle:

Religion, Spirituality and Everyday Practice Giuseppe Giordan, William H. Swatos, Jr., 2011-08-14 The current generation of young adults at least in the Western world has shown a marked tendency toward a preference for describing themselves as spiritual as contrasted to religious This book seeks to examine the possible meanings and consequences associated with this contrast in terms of the similarities and differences that affect those who use these terms with respect to the everyday practices that they themselves employ or believe should follow from being self defined as religious or spiritual or not The several chapters in this volume take up the religious spiritual contrast specifically through investigations into practice In what ways do people who claim to be religious or spiritual define these self images as manifest in their own lives How on a daily basis does a person who considers himself or herself religious or spiritual live out that self image in specific ways that she or he can describe to others even if not share with others Are there ways that being spiritual can involve religion or ways that being religious can involve spirituality and if so how do these differ from concepts in prior eras e g Ignatian spirituality Orthodox spirituality Anglican spirituality etc We also explore if there are institutions of spiritual practice to which those who term themselves spiritual turn or if the difference implied by these terms may instead be between institutionalized and de institutionalized expressions of practice including but not limited to self spiritualities

The Eastern Church in the Spiritual Marketplace Amy Slagle, 2011-09-01 Like many Americans the Eastern Orthodox converts in this study are participants in what scholars today refer to as the spiritual marketplace or quest culture of expanding religious diversity and individual choice making that marks the post World War II American religious landscape In this highly readable ethnographic study Slagle explores the ways in which converts clerics and lifelong church members use marketplace metaphors in describing and enacting their religious lives Slagle conducted participant observation and formal semi structured interviews in Orthodox churches in Pittsburgh Pennsylvania and Jackson Mississippi Known among Orthodox Christians as the Holy Land of North American Orthodoxy Pittsburgh offers an important context for exploring the interplay of Orthodox Christianity with the mainstreams of American religious life Slagle s second round of research in Jackson sheds light on the American Bible Belt where over the past thirty years the Orthodox Church in America has marshaled significant resources to build mission parishes Relatively few ethnographic studies have examined Eastern Orthodox Christianity in the United States and Slagle s book fills a significant gap This lucidly written book is an ideal selection for courses in the sociology and anthropology of religion contemporary Christianity and religious change Scholars of Orthodox Christianity as well as clerical and lay people interested in Eastern Orthodoxy will find this book to be of great appeal *Spirituality and its Evolution* Harendra N Bora, 2023-02-27 The early Homo Sapiens the ancestors of modern man had resorted to ceremonial burials around 30 40 thousand years ago for the welfare of the souls in the afterlife hinting that they believed in some form of elementary spirituality Such belief of the Homo sapiens had later led to growing beliefs of animism and shamanism The

turning point in the lifestyle of the Homo sapiens came since around 11700 years ago with the coming of the warmer climate of the Holocene period facilitating the growth of cereals crops and the rearing of animals while living a life of sedentary agricultural farmers Security of food and shelter has caused a cognitive revolution in humans to innovate faiths and religions Yoga and asceticism had been innovated in the Indus Valley Civilization igniting the light of spirituality for the entire world Neuroscientists have of late undertaken a number of researches on the meditational impact on the brain based on the findings neuroscientists suggest that feeling of religiosity godliness or spirituality is generated due to the impact of meditational practices and that such feelings can be regenerated artificially by manipulating specific region of the brain The book thus goes to discuss briefly all the related issues on spirituality

The Spiritual Roots of the Tarot Russell A. Sturgess,2020-09-22 Learn the path to enlightenment and inner peace encoded by the Cathar in the Major Arcana of the Marseille Tarot Reveals how the secret wisdom teachings of the heretical Cathar sect were hidden in plain sight in the imagery of the Major Arcana of the Marseille Tarot deck Decodes each of the cards in detail and shows how they offer clear instructions for recalibrating human consciousness and achieving enlightenment Shares the author s self development program based on the wisdom of the cards for creating a lifestyle filled with peace joy good health and meaning The Holy Grail has been discovered Not a cup or chalice as myth leads us to believe the Holy Grail is sacred knowledge of the path to enlightenment and inner peace While author Russell Sturgess was conducting research on the Marseille Tarot he found evidence that this tarot deck while

masquerading as a simple card game held the teachings of an ancient heretical religious group from southern France the Cathar believed to be the keepers of the Holy Grail To avoid persecution by the papacy this sect used portable art like illuminations to convey their Gnostic Christian teachings in the same way the stained glass windows of churches spoke to their congregations This portable Cathar art then inspired the creation of the Tarot After his breakthrough discovery of a hidden key on the Magician and Strength cards Sturgess examined the Major Arcana cards further and used the key to unlock their symbolism discovering clear instructions for recalibrating human consciousness and achieving enlightenment with specific cards representing pivotal points in making the journey from ignorance to awareness Decoding the cards in detail the author shows how they reveal a journey of transformed consciousness that can result in finding what the Cathar called the kingdom of heaven Calling this sacred knowledge the Cathar Code Sturgess reveals his personal development program based on the Code that opens access to a meaningful lifestyle filled with peace and joy and that naturally fosters health and well being He shows how these teachings offer a clear path that transforms a life burdened by fear of failure rejection and scarcity into one with clarity of purpose self honoring kindness and the abundance that comes with making a fulfilling difference in the world

The End(s) of Religion Eric Bain-Selbo, 2022-01-13 Eric Bain Selbo argues that the study of religion from philosophers to psychologists and historians of religion to sociologists has separated out the ends or goals of religion and thus created the conditions by which institutional religion is increasingly irrelevant in contemporary Western culture There is ample evidence that institutional religion is in trouble and little evidence that it will strengthen in the future giving some reason to believe that we are in the process of seeing the end of religion At the same time various cultural practices have met in the past and continue to meet today certain fundamental human needs needs that we might identify as religious that now are being fulfilled through what Bain Selbo calls the religion of culture *The End s of Religion* traces the way that the very study of religion has led to institutional religion being viewed as just one human institution that can address our particular religious needs rather than the sole institution to do so In turn ultimately we can begin to see how other institutions or forms of culture can function to serve these same needs or ends

Lifestyle in Siberia and the Russian North Joachim Otto Habeck , 2019-11-25 *Lifestyle in Siberia and the Russian North* breaks new ground by exploring the concept of lifestyle from a distinctly anthropological perspective Showcasing the collective work of ten experienced scholars in the field the book goes beyond concepts of tradition that have often been the focus of previous research to explain how political economic and technological changes in Russia have created a wide range of new possibilities and constraints in the pursuit of different ways of life Each contribution is drawn from meticulous first-hand field research and the authors engage with theoretical questions such as whether and how the concept of lifestyle can be extended beyond its conventionally urban Euro

American context and employed in a markedly different setting Lifestyle in Siberia and the Russian North builds on the contributors clear commitment to diversifying the field and providing a novel and intimate insight into this vast and dynamic region This book provides inspiring reading for students and teachers of Anthropology Sociology and Cultural Studies and for anyone interested in Russia and its regions By providing ethnographic case studies it is also a useful basis for teaching anthropological methods and concepts both at graduate and undergraduate level Rigorous and innovative it marks an important contribution to the study of Siberia and the Russian North

Poverty in the Theology of John Calvin Bonnie L. Pattison, 2006-11-01 It is the thesis of this study that in Calvin s theology poverty and affliction not splendor and glory mark and manifest the kingdom of God on earth Poverty makes the kingdom visible to the eyes and therefore recognizable as divine Poverty acts to reveal or disclose that which is spiritual or that which is of God in the Christian faith This does not mean that Calvin sees the condition of physical poverty as revelatory in and of itself Rather poverty and affliction function as agents of divine revelation They are a condition or a chosen instrument God uses to disclose to humanity the nature of true spirituality godliness and poverty of spirit How this is demonstrated in Calvin s thought depends upon the specific doctrine under examination This study explores three particular areas in Calvin s theology where his theological understanding of spiritual poverty and physical poverty or affliction intersect his Christology his doctrine of the Christian life and his ecclesiology
