The Wiley Blackwell Handbook of Humanism Andrew Copson, A. C. Grayling, 2015-06-02 The Wiley Blackwell Handbook of Humanism presents an edited collection of essays that explore the nature of Humanism as an approach to life and a philosophical analysis of the key humanist propositions from naturalism and science to morality and meaning Represents the first book of its kind to look at Humanism not just in terms of its theoretical underpinnings but also its consequences and its diverse manifestations Features contributions from international and emerging scholars plus renowned figures such as Stephen Law Charles Freeman and Jeaneane Fowler Presents Humanism as a positive alternative to theism Brings together the world's leading Humanist academics in one reference work *International Handbook of the Religious, Moral and Spiritual Dimensions in Education* Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it is today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world **Christian Responses to Spiritual Incursions into the 21st Century Church and Society** Nikolaos Asproulis, Stuart Devenish, 2020-10-30 This volume provides an account of the surprising in breaking of spiritual life that persists in our culture despite the best efforts of atheist spokespersons and secular theorists Spirituality in its varying forms is irrepressible resisting our attempts to exclude it by continuing to seep through the cracks and leak through the gaps When it is allowed to manifest itself through the Christian faith tradition it has the power to surprise transform and renew everything it touches This volume contains a series of case studies each of which describes the inner functionings and out workings of the spiritual life as a transformative point of contact between God world society and self Each chapter contains high level inquiry drawing on best practice scholarship that is deeply aware of the needs and opportunities that confront 21st century society *Everyday Spirituality* S.

Post-Secular Society Gustaaf Geeraerts, 2017-07-28. Post-Secular Society argues for several characteristics of the secular: the experience of living in a secular age and the experience of living without religion as a normal condition. Religion in the West is often seen as marked by both innovation and disarray. In spite of differing approaches and perspectives of secularization, rational choice and de secularization, many scholars agree that the West is experiencing a general resurgence of religion across most Western societies. Post-Secular Society discusses the changes in religion related to globalization and New Age forms of popular religion. The contributors review religion that is rooted in the globalized political economy and the relationship of post secularism to popular consumer culture. Also reviewed is innovative discourse as a religious belief system, theories of the post secular religious and spiritual well-being and healing practices in Finland and environmentalism. This paperback edition includes a new preface by Peter Nynas.

Human Behavior and the Social Environment, Macro Level Katherine S. Van Wormer, Fred H. Besthorn, 2017. Unique to Human Behavior and the Social Environment, Macro Level is the focus on the natural as well as physical environment in the study of human behavior and use of a trauma-informed model in the study of social service organizations. This is the only social work text to include a chapter on findings from social psychology relevant to human behavior.

Religion, Spirituality and the Social Sciences Basia Spalek, Alia Imtoul, 2008-09-03. This edited collection addresses important theoretical and methodological issues to explore ways of engaging with religion and spirituality when carrying out social science research. Divided into three sections, the book examines the notion of secularism in relation to contemporary Western society, including a focus upon secularisation, explores how the values underpinning social scientific enquiry might serve to marginalise religion and spirituality and reflects on social science research methodologies when researching religion and spirituality.
