Choral Arrangements of the African-American Spirituals Patricia J. Trice, 1998-02-12 Although the choral arrangements of the African American spirituals constitute the largest group of folk song arrangements in western literature they have received little scholarly attention This book provides the needed historical and stylistic information about the spirituals and the arrangements It traces the history and cultural roots of the genre through its inception and delineates the African and European characteristics common to the original folk songs and arrangements Ensembles that have perpetuated the growth of the spiritual arrangements from Fisk Jubilee Singers of the 1870s through those currently active are chronicled as well Musicians choral directors and scholars will welcome this first complete text on the African American spiritual genre Annotated listings of titles provide information choral directors need to make ensemble appropriate performance choices Arrangements indexed by title arranger and subject complement the accompanying biographies and repertoire information Well organized and thoroughly researched this text is a valuable addition to music choral multicultural and African American libraries

So You Want to Sing Spirituals Randye Jones, 2019-10-14 With their rich and complicated history spirituals hold a special place in the American musical tradition This soul stirring musical form is irresistible to singers seeking to diversify their performance repertoire but it is also riddled with controversy especially for singers of non African descent Singer and historian Randye Jones welcomes singers of all backgrounds into the style while she explores its folk song roots and transformation into choral and solo vocal concert repertoire Profiling key composers and pioneers of the genre Jones also discusses the use of dialect and other controversial performance considerations Contributed chapters address elements of collaborative piano studio teaching choral arrangement voice science and vocal health as they apply to the performance of spirituals The So You Want to Sing series is produced in partnership with the National Association of Teachers of Singing Like all books in the series So You Want to Sing Spirituals features online supplemental material on the NATS website

Choral Music by African American Composers, 1996 Lists and describes both published and unpublished choral works by some 100 Afro American composers and arrangers encompassing works representing all styles from four part settings to avant garde pieces The bulk of the book is an annotated list of compositions in tabular form organized alphabetically by

composer's name listing publication dates and number of pages vocal ranges type of accompaniment publishers and catalog number Includes a listing of collections biographical sketches a discography and addresses of publishers and composers Useful for conductors and researchers Annotation copyright by Book News Inc Portland OR Hallelujah! Spirituals for Choirs, 1982 **From Spirituals to Symphonies** Helen Walker-Hill, 2007 Exploding the assumption that black women's only important musical contributions have been in folk jazz and pop Helen Walker Hill's unique study provides a carefully researched examination of the history and scope of musical composition by African American women composers from the nineteenth and twentieth centuries Focusing on the effect of race gender and class *From Spirituals to Symphonies* notes the important role played by individual personalities and circumstances in shaping this underappreciated category of American art The study also provides in depth exploration of the backgrounds experiences and musical compositions of eight African American women including Margaret Bonds Undine Smith Moore and Julia Perry who combined the techniques of Western art music with their own cultural traditions and individual gifts Despite having gained national and international recognition during their lifetimes the contributions of many of these women are today forgotten A History of Western Choral Music, Volume 2 Chester L. Alwes, 2016-08-03 *A History of Western Choral Music* explores the various genres key composers and influential works essential to the development of the western choral tradition Author Chester L Alwes divides this exploration into two volumes which move from Medieval music and the Renaissance era up to the 21st century Volume II begins at the transition from the Classical era to the Romantic with an examination of the major genres common to both periods Exploring the oratorio part song and dramatic music it also offers a thorough discussion of the choral symphony from Beethoven to Mahler through to the present day It then delves into the choral music of the twentieth century through discussions of the major compositional approaches and philosophies that proliferated over the course of the century from impressionism to serialism neo classicism to modernism minimalism and the avant garde It also considers the emerging tendency towards nationalistic composition amongst composers such as Bartók and Stravinsky and discusses in great detail the contemporary music of the United States and Great Britain Framing discussion within the political religious cultural philosophical aesthetic and technological contexts of each era *A History of Western Choral Music* offers readers specialized insight into major composers and works while providing a cohesive understanding of choral music's place in Western history *Spirituals* Cynthia Hickman, 2002 **The OneWord Worship Model** Lisa M. Allen, 2023-09-26 *The OneWord Worship Model A New Paradigm for Church Worship Planning* offers a clear concise and collaborative approach to planning congregational worship using the biblical text as its foundation The model engages laity and clergy in the true definition of liturgy the work or action of the people This text serves as both invitation and instruction for pastors worship leaders and congregations to plan powerful fruitful and transformative corporate encounters with the triune God *American Organist* Thomas Scott Buhrman, 1919 Singing in My Soul Jerma A. Jackson, 2005-12-15 Black gospel music grew from obscure nineteenth

century beginnings to become the leading style of sacred music in black American communities after World War II Jerma A Jackson traces the music s unique history profiling the careers of several singers particularly Sister Rosetta Tharpe and demonstrating the important role women played in popularizing gospel Female gospel singers initially developed their musical abilities in churches where gospel prevailed as a mode of worship Few however stayed exclusively in the religious realm As recordings and sheet music pushed gospel into the commercial arena gospel began to develop a life beyond the church spreading first among a broad spectrum of African Americans and then to white middle class audiences Retail outlets recording companies and booking agencies turned gospel into big business and local church singers emerged as national and international celebrities Amid these changes the music acquired increasing significance as a source of black identity These successes however generated fierce controversy As gospel gained public visibility and broad commercial appeal debates broke out over the meaning of the music and its message raising questions about the virtues of commercialism and material values the contours of racial identity and the nature of the sacred Jackson engages these debates to explore how race faith and identity became central questions in twentieth century African American life
