**Footbinding and Women's Labor in**

**Sichuan** Hill Gates, 2014-12-05 When Chinese women bound their daughters' feet many consequences ensued some beyond the imagination of the binders and the bound The most obvious of these consequences was to impress upon a small child's body and mind that girls differed from boys thus reproducing gender hierarchy What is not obvious is why Chinese society should have evolved such a radical method of gender marking Gendering is not simply preparation for reproduction rather its primary significance lies in preparing children for their places in the division of labor of a particular political economy Drawing on extensive fieldwork and interviews with almost 5 000 women this book examines footbinding as Sichuan women remember it from the final years of the empire and the troubled times before the 1949 revolution It focuses on two key questions what motivated parents to maintain this custom and how significant was girls' work in China's final pre industrial century In answering these questions Hill Gates shows how footbinding was a form of labor discipline in the first half of the twentieth century in China when it was a key institution in a now much altered political economy Countering the widely held views surrounding the sexual attractiveness of bound feet to Chinese men footbinding as an ethnic boundary marker its role in female hypergamy and its connection to state imperatives this book instead presents a compelling argument that footbinding was in fact a crucial means of disciplining of little girls to lives of early and unremitting labor This vivid and fascinating study will be of huge interest to students and scholars working across a wide range of fields including Chinese history oral history anthropology and gender studies

at the ways in which India China and Africa can be said to have underwritten American culture how literature has been marketed globally and how novelists have answered back to power with resistant fictions Judie Newman examines a wide range of fiction from the mid nineteenth to the twenty first century including the transnational adoption narrative short story historical novel slave narrative international bestseller and Western to illustrate her argument Looking closely at authors such as Bharati Mukherjee John Updike Emily Prager Hannah Crafts Zora Neale Hurston David Bradley Peter Heg and Cormac McCarthy Fictions of America provides a bold response to the crucial questions raised by globalisation
