## **Splendors Of Chinas Forbidden City The Glorious Reign Of Emperor Qianlong:**

Splendors of China's Forbidden City Chuimei Ho, Bennet Bronson, Field Museum of Natural History, 2004 Offering an unprecedented insight into one of the most glittering courts in history this sumptuous book brings together some China's priceless national treasures housed in Beijing's royal palace complex the Forbidden City and collected by Emperor Qianlong during his sixty year reign from 1736 to 1795

**Emperor Qianlong's Hidden Treasures** Nicole T. C. Chiang, 2019-08-15 In this stunning reassessment Nicole T C Chiang argues that the famous Qianlong art collection is really the collection of the imperial household in the Qianlong reign The distinction is significant because it strips away the modern Eurocentric preconceptions that have led scholars to misconstrue the size of the collection the role of nationalism in its formation the distinction between art and artifact and the actual involvement of the emperor in assembling the collection No one interested in Chinese art will be able to ignore the ramifications of this important study Emperor Qianlong's Hidden Treasures

Reconsidering the Collection of the Qing Imperial Household argues that the size of the collection was actually smaller than previously stated Moreover the idea that the collection put the whole of the empire on display and thereby promoted political unity does not square with the reality that most of the collection was hidden away Instead the collection was primarily for the emperor's gaze alone Chiang further explains that the collection was largely the product of work done by many specialists working at the Qianlong court noting that the emperor often assumed a more supervisory role Preliminary drawings patterns models and prototypes of the items made in the imperial workshops also formed an important part of the collection as they served to establish standardized models used to run the imperial household The collection was thus both broader and narrower than previously stated Chiang has identified many misguided assumptions about the Qing imperial collection In their place she proposes a new definition of an imperial collection that does not give primacy to art objects This bold revisionist thesis may be controversial but it is important and deserves to be read widely for this exact reason Dorothy Ko Barnard College Columbia University Chiang makes a new argument which will contribute to the literature on Qing imperial art She shows that a distinction should be made between the Qianlong emperor's activities in commissioning objects from the palace workshop and his activities in accumulating assessing and cataloguing objects that went into what she calls the imperial household collection This work will attract wide attention from scholars in art history Evelyn S Rawski University of Pittsburgh

**The High Road to China** Kate Teltscher, 2013-07-11 In 1774 British traders longed to open relations with China so they sent a young Scotsman George Bogle as an envoy to Tibet Bogle became smitten by what he saw there and struck up a remarkable friendship with the Panchen Lama This gripping book tells the story of their two extraordinary journeys across some of the harshest and highest terrain in the world Bogle's mission and the Panchen Lama's state visit to China on which British hopes were hung Piecing together extracts from Bogle's private papers Tibetan biographies of the Panchen Lama the account of a wandering Hindu

monk and the writings of the Emperor himself Kate Teltscher deftly reconstructs the momentous meeting of these very different worlds

**China and East Africa** Chapurukha M. Kusimba,Tiequan Zhu,Purity Wakabari Kiura,2019-12-02 China and East Africa Ancient Ties and Contemporary Flows marks the culmination of a new round of archaeological and historical research on the relations between China and Africa from the origins to the present Africa and Asia have always been in constant contact through land and seas The contributors to this volume debate and present the

results of their research on the very complex and intricate networks of connections that crisscrossed the Indian Ocean and surrounding lands linking Africa to East Asia. A growing number of speakers of Austronesian languages returned to Africa reaching Madagascar in the early centuries of the Common Era. The diffusion of domesticated plants like bananas from New Guinea to South Asia and Africa where phytoliths are dated to the mid fourth millennium in Uganda and mid first millennium BCE in southern Cameroon provide additional evidence on early interactions between Africa and Asia. Africa and Asia have always been in constant contact through land and seas. Edited by Chapurukha Kusimba, Tiequan Zhu and Purity Wakabari Kiura, this collection explores different facets of the interaction between China and Africa from their earliest manifestations to the present and with an eye to the future.

Facets of Qing Daoism Monica Esposito, 2016-03-11. As China is rapidly reemerging as the world's dominant economic powerhouse that it had been until the mid eighteenth century, interest in its religions and philosophies is on the rise. Just as the history and culture of Western civilizations can hardly be grasped without a measure of knowledge about Christianity, an understanding of Chinese civilization and its history seems impossible without some comprehension of Daoism. Though it has long been clear that modern Daoism has its roots in Daoist movements of the Qing dynasty (1644-1911), research on premodern Daoism had been largely neglected. Published in six languages (Italian, French, English, German, Chinese, and Japanese), the pioneering studies by Monica Esposito (1962-2011) on Qing Daoism have been instrumental in kindling keen scholarly interest both in the West and in China and Japan. This book presents corrected and augmented versions of three of Dr. Esposito's seminal articles that had originally been published in English: *Daoism in the Qing: The Longmen School and its Controversial History* and *Longmen Daoism in Qing China: Doctrinal Ideal and Local Reality* along with English versions of two articles that had hitherto only been available in Japanese and Chinese: *Beheading the Red Dragon: The Heart of Feminine Alchemy* and *An Example of Daoist and Tantric Interaction during the Qing Dynasty: The Longmen xinzong*. In addition, this volume contains a bibliography of all her publications and a detailed index.

*Food and Philosophy* Spencer Wertz, 2017-02-08. These essays on food and philosophy were written over several decades. Not only philosophers and historians but individuals who have an ongoing interest in food should relish them. The essays cover wide ranging topics that include genetically modified organisms, chocolate and its world, food as art, the pornography of food, and the five flavors of Chinese cuisine. In addition, there are several chapters that deal with the refinement of erudite professional cuisine from popular regional cuisine in the seventeenth and eighteenth centuries in Europe. One chapter stands alone as an analysis of the Native American cultural foundations of maize. The book opens with an essay on the philosophy of food history that addresses three fundamental problems: the duplication of sensations and taste, the understanding of recipes from other historical periods, and the sorts of judgments that are included or excluded in a historical narrative. The book ends with an exposition of R. G. Collingwood's anthropology of eating and dining, which completes the discussion with an analysis of the magical symbolism of those cultural activities.
