The Elementary School Library Collection, Phases 1-2-3 ,2000 Albanian Identities Stephanie
Schwandner-Sievers, Bernd Jürgen Fischer, 2002 The contributors to this study critically deconstruct Albanian myths and
offer insights into Albanian history and politics They conclude with contemporary Albanian critiques of the origins and
functions of Albanian politics and ideologies Performing Nostalgia: Migration Culture and Creativity in South Albania
Eckehard Pistrick, 2017-07-05 Migration studies is an area of increasing significance in musicology as in other disciplines
How do migrants express and imagine themselves through musical practice How does music help them to construct social
imaginaries and to cope with longings and belongings In this study of migration music in postsocialist Albania Eckehard
Pistrick identifies links between sound space emotionality and mobility in performance provides new insights into the
controversial relationship between sound and migration and sheds light on the cultural effects of migration processes Central
to Pistrick's approach is the essential role of emotionality for musical creativity which is highlighted throughout the volume
pain and longing are discussed not as a traumatising end point but as a driving force for human action and as a source for
cultural creativity In addition the study provides a fascinating overview about the current state of a rarely documented vocal
tradition in Europe that is a part of the mosaic of Mediterranean singing traditions It refers to the challenges imposed onto
this practice by heritage politics the dynamics of retraditionalisation and musical globalisation In this sense the book
constitutes an important study to the dynamics of postsocialism as seen from a musicological perspective **Words on**
Cassette, 1999 Bowker Editorial Staff, Staff Bowker R R, Bowker, 1999-02 Music and Gender Tullia Magrini, 2003-06-15
Although scholars have long been aware of the crucial roles that gender plays in music and vice versa the contributors to this
volume are among the first to systematically examine the interactions between the two This book is also the first to explore
the diverse yet often strikingly similar musics of the areas bordering the Mediterranean from comparative anthropological
perspectives From Spanish flamenco to Algerian ra Greek rebetika to Turkish pop music Sephardi and Berber songs to
Egyptian belly dancers the contributors cover an exceedingly wide range of geographic and musical territories Individual
essays examine musical behavior as representation assertion and sometimes transgression of gender identities compare men
s and women s roles in specific musical practices and their historical evolution and explore how music and gender relate to
such issues as ethnicity nationality and religion Anyone studying the musics or cultures of the Mediterranean or more
generally the relations between gender and the arts will welcome this book Contributors Caroline Bithell Joaquina Labajo
