The Magic Key A Story For Mothers And Children:

The Magic Key Else Fleissner, 1999 *The Magic Key* Ruth Enid Zambrana, Sylvia Hurtado, 2015-10-15 Mexican Americans comprise the largest subgroup of Latinas and their path to education can be a difficult one. Yet just as this group is often marginalized so are their stories and relatively few studies have chronicled the educational trajectory of Mexican American men and women. In this interdisciplinary collection editors Zambrana and Hurtado have brought together research studies that reveal new ways to understand how and why members of this subgroup have succeeded and how the facilitators of success in higher education have changed or remained the same. The Magic Key's four sections explain the context of Mexican American higher education issues, provide conceptual understandings, explore contemporary college experiences and offer implications for educational policy and future practices. Using historical and contemporary data as well as new conceptual apparatuses the authors in this collection create a comparative nuanced approach that brings Mexican Americans' lived experiences into the dominant discourse of social science and education. This diverse set of studies presents both quantitative and qualitative data by gender to examine trends of generations of Mexican American college students, provides information on perceptions of welcoming university climates and proffers insights on emergent issues in the field of higher education for this population. Professors and students across disciplines will find this volume indispensable for its insights on the Mexican American educational experience both past and present. **Bugglepuffs And The Magic Key** CL

Bennett, 2014-04. Jungle bedrooms, pirate treasure maps, a chocolate bath, little people with flying boots, a crazy parrot and a Magic Key can all be found in the first of a series of books about the Bugglepuff family. Captain Bugglepuff, his mad wife Delirious and their four rascally children Anenome, Compass, Rocky and Seasea live a haphazard day to day family life in the little English fishing port of Brixham, Devon, until the arrival of a mysterious, crisp white letter in the post. Nothing in the Bugglepuff's lives after this letter will ever be the same again. It takes the Bugglepuff family to a new home by an enchanted creek that leads to a fantastical adventure in a world of magic where dreams can come true. But the family has to be careful. Temptations lead the Bugglepuff children and their extraordinary animals on a series of dangerous quests for which the price of failure will break the family apart and the world as we know it. Come on the adventure with the Bugglepuff's and let your imagination explode. *The child's own book of poetry* Child, 1880 **Using Story Telling as a Therapeutic Tool with**

Children Margot Sunderland, 2017-07-05. This practical handbook begins with the philosophy and psychology underpinning the therapeutic value of story telling. It shows how to use story telling as a therapeutic tool with children and how to make an effective response when a child tells a story to you. It is an essential accompaniment to the *Helping Children with Feelings* series and covers issues such as: Why story telling is such a good way of helping children with their feelings; What resources you may need in a story telling session; How to construct your own therapeutic story for a child; What to do when children tell stories to you; Things to do and say when working with a child's story. *The Greatest Children's Books* - E. Narratives of Love and Loss Margaret Rustin, Michael Rustin, 2020-05-05 Why do some stories written for children have so powerful an emotional resonance for both child and adult readers This is the question addressed by Margaret and Michael Rustin in a book which offers a detailed critical reading of some of the best known modern British and American stories for children by writers such as E B White Philippa Pearce and C S Lewis The authors make use of psychoanalytical and sociological ideas in their approach interpreting the stories both as metaphors of states of feeling often experienced by children and as images of the wider society in which they are written A particular theme of their discussion is personal and imaginative growth in childhood and the ways this can be affected both for better and worse by separation and loss In their detailed consideration of the narratives of the stories the authors avoid theoretical jargon and concentrate on works which have interest and meaning for adult readers as well as children **Narratives of Love and Loss** is an important and accessible book which will be of special interest to parents and teachers concerned with children's reading and imaginative play and to those working in the fields of psychoanalysis English literature and popular culture
