The Invention of Martial Arts Paul Bowman, 2020-12-31 Through popular movies starring Bruce Lee and songs like the disco hit Kung Fu Fighting martial arts have found a central place in the Western cultural imagination But what would martial arts be without the explosion of media texts and images that brought it to a wide audience in the late 1960s and early 1970s In this examination of the media history

of what we now call martial arts author Paul Bowman makes the bold case that the phenomenon of martial arts is chiefly an invention of media representations Rather than passively taking up a preexisting history of martial arts practices some of which of course predated the martial arts boom in popular culture media images and narratives actively constructed martial arts Grounded in a historical survey of the British media history of martial arts such as Bartitsu jujutsu judo karate tai chi and MMA across a range of media this book thoroughly recasts our understanding of the history of martial arts By interweaving theories of key thinkers on historiography such as Foucault and Hobsbawm and Said s ideas on Orientalism with analyses of both mainstream and marginal media texts Bowman arrives at the surprising insight that media representations created martial arts rather than the other way around In this way he not only deepens our understanding of martial arts but also demonstrates the productive power of media discourses

Deconstructing Martial Arts Paul Bowman,2019-06-24 What is the essence of martial arts What is their place in or relationship with culture and society Deconstructing Martial Arts analyses familiar issues and debates that arise in scholarly practitioner and popular cultural discussions and treatments of martial arts and argues that martial arts are dynamic and variable constructs whose meanings and values regularly shift mutate and transform depending on the context It argues that deconstructing martial arts is an invaluable approach to both the scholarly study of martial arts in culture and society and also to wider understandings of what and why martial arts are Placing martial arts in relation to core questions and concerns of media and cultural studies around identity value orientalism and embodiment Deconstructing Martial Arts introduces and elaborates deconstruction as a rewarding method of cultural studies

A Brief History of the Martial Arts Jonathan Clements,2016-10-13 If I had to pick a single general martial arts history book in English I would recommend A Brief History of the Martial Arts by Dr Jonathan Clements RICHARD BEITLICH Martial History Team blog From Shaolin warrior monks to the movies of Bruce Lee a new history of the evolution of East Asian styles of unarmed combat from Kung Fu to Ninjutsu Folk tales of the Shaolin Temple depict warrior monks with superhuman abilities Today dozens of East Asian fighting styles trace their roots back to the Buddhist brawlers of Shaolin although any quest for the true story soon wanders into a labyrinth of forgeries secret texts and modern retellings This new study approaches the martial arts from their origins in military exercises and callisthenics It examines a rich folklore from old wuxia tales of crime fighting heroes to modern kung fu movies Centre stage is given to the stories that martial artists tell themselves about themselves with accounts both factual and fictional of famous practitioners including China s Yim Wing chun Wong Fei hong and Ip Man as well as Japanese counterparts such as Kano Jigoro Itosu Anko and So Doshin The history of martial arts encompasses secret societies and religious rebels with intimate glimpses of the histories of China Korea and Japan their conflicts and transformations The book also charts the migration of martial arts to the United States and beyond Special attention is paid to the turmoil of the twentieth century the cross cultural influence of Japanese colonies in Asia and the post war rise of martial arts in sport and entertainment including the legacy of Bruce Lee
