The Manipulators America In The Media Age:

The Manipulators Robert Sobel,1976 **American Media and Mass Culture** Donald Lazere,1987-12-07 On subjects from Superman to rock n roll from Donald Duck to the TV news from soap operas and romance novels to the use of double speak in advertising these lively essays offer students of contemporary media a comprehensive counterstatement to the conservatism that has been ascendant since the seventies in American politics and cultural criticism Donald Lazere brings together selections from nearly forty of the most prominent Marxist feminist and other leftist critics of American mass culture from a dozen academic disciplines and fields of media activism The collection will appeal to a wide range of students scholars and general readers *Art in the Age of Mass Media* John A. Walker,2001-08-20 Can fine art survive in an age of mass media If so in what forms and to what purpose And can radical art still play a critical role in today s divided world These are the questions addressed in the *Art in the Age of Mass Media* as John Walker examines the fascinating relationship between art and mass media and the myriad interactions between high and low culture in a postmodern culturally pluralistic world Using a range of historic and contemporary works of art Walker explores the variety of ways in which artists have responded to the arrival of new mass media He ranges from the socialist paintings of Courbet to the anti Nazi photomontages of Heartfield from community murals and Keith Haring s use of graffiti to the kitsch self promotion associated with Jeff Koons The new edition describes what happened during the 1990s including Toscani s adverts for Benetton the simulations of Leeds 13 art and cinema Damien Hirst and the cyberart currently being produced for the internet **American Studies** Jack Salzman,American Studies Association,1986-08-29 A major three volume bibliography including an additional supplement of an annotated listing of American Studies monographs published between 1900 and 1988 **Genders 22** Ellen E. Berry,1995-07-01 The epidemic of mass rape in the former Yugoslavia has illustrated once again and in particularly brutal fashion the inextricable relationship between national politics sexual politics and body politics The nexus of these three forces is highly charged in any culture at any time in history but especially so among cultures in which rapid even cataclysmic changes in material realities and national self conceptions are eroding or overwhelming previously secure boundaries The postcommunist moment in the so called Second World Central and Eastern Europe and the former Soviet Union has dramatically exposed the opportunities and dangers that arise when the political cultural and economic foundations of a society are de and then re structured Gender roles and relations expressions of sexuality or attempts to recontain them representations of the body especially the female body and the larger cultural meanings it assumes are particularly marked sites to witness the performance of complex national dramas of crisis and change This groundbreaking volume turns its attention to the Second World specifically to such subjects as the birth of the sex media and porn industry in Russia Russian women and alcoholism cinema in post communist Hungary patriotism and gender in Poland sexual dissidence in Eastern Europe and women in the former Yugoslavia go to the Genders website **Newsworkers** Hanno Hardt,Bonnie

Brennen,1995 Focusing on the period from the 1850s through the 1930s the contributors show how issues of labor and class have been far more important in the formation of media institutions than previous accounts concede These essays recover the history of ethnic and cultural diversity including the contributions of women that have enriched the process of communication *American Heritage History of the United States* Douglas Brinkley,2015-04-08 Douglas Brinkley and American Heritage have done a grand job This is a first rate book fair clear and enormously welcome David McCullough Douglas Brinkley s one volume history is a riveting narrative of unique people who have come to call themselves American There is no dust on these pages as the author brilliantly tells our national story with skill and brevity In this rich and inspiring book acclaimed historian Douglas Brinkley takes us on the incredible journey of the United States a nation formed from a vast countryside on whose fringes thirteen small British colonies fought for their freedom then established a democratic nation that spanned the continent and went on to become a world power This book will be treasured by anyone interested in the story of America *Redeeming the Dial* Tona J. Hangen,2003-12-04 Blending cultural religious and media history Tona Hangen offers a richly detailed look into the world of religious radio She uses recordings sermons fan mail and other sources to tell the stories of the determined broadcasters and devoted listeners who together transformed American radio evangelism from an on air novelty in the 1920s into a profitable and wide reaching industry by the 1950s Hangen traces the careers of three of the most successful Protestant radio evangelists Paul Rader Aimee Semple McPherson and Charles Fuller and examines the strategies they used to bring their messages to listeners across the nation Initially shut out of network radio and free airtime both of which were available only to mainstream Protestant and Catholic groups evangelical broadcasters gained access to the airwaves with paid time programming By the mid twentieth century millions of Americans regularly tuned in to evangelical programming making it one of the medium s most distinctive and durable genres The voluntary contributions of these listeners in turn helped bankroll religious radio s remarkable growth Revealing the entwined development of evangelical religion and modern mass media Hangen demonstrates that the history of one is incomplete without the history of the other both are essential to understanding American culture in the twentieth century

The Great Boom 1950-2000 Robert Sobel,2016-02-09 In *The Great Boom* historian Robert Sobel tells the fascinating story of the last 50 years when American entrepreneurs visionaries and ordinary citizens transformed our depression and war exhausted society into today s economic powerhouse As America s G I s returned home from World War II many of the nation s best minds predicted a new depression yet exactly the opposite occurred Jobs were plentiful in retooled factories swamped with orders from pent up demand Tens of thousands of families moved out of cities into affordable suburban homes built by William Levitt and his imitators They bought cars televisions and air conditioners by the millions And they took to the nation s roads and new interstate highways the largest public works project in world history where Kemmons Wilson of Holiday Inns Ray Kroc of McDonalds and other start up entrepreneurs soon catered to a mobile populace with food and lodgings for

leisure time vacationers Americans and their families began to channel savings into new opportunities Credit cards democratized purchasing power while early mutual funds found growing numbers of investors to fuel the first postwar bull market in the go go 60s At the same time the continuing boom enriched the fabric of social and cultural life A college education became a must on the highway to upward mobility high tech industries arose with astonishing new ways of conducting business electronically and an unprecedented 49 million families had become investors when the 1981 2000 stock market boom reached 10 000 on the Dow The Great Boom is the first major book to portray the great wave of homegrown entrepreneurs as post war heroes in the complete remaking and revitalizing of America All that plus the creation of unprecedented wealth or themselves for the nation for tens of millions of citizens all in five short drama filled decades

Broadcasting the Faith Michael E. Pohlman, 2021-02-02 *Broadcasting the Faith* tells the riveting story of the American church's embrace of radio in the early decades of the twentieth century By investigating major radio personalities like Walter Maier Aimee Semple McPherson Harry Emerson Fosdick and Charles Fuller this study considers the implications for theology in America when Christianity moved to the airwaves In the heyday of radio religious radio preachers sought to use their programs to counter the secularization of American culture Ultimately however their programs contributed to secularization by accelerating changes already evident in both the conservative and liberal streams of American Christianity To reach a vast American audience radio preachers transformed their sectarian messages into a religion more suitable to the masses thereby altering the very religion it aimed to preserve To make religion accessible to large and diverse audiences radio preachers accommodated their messages in ways suited to the medium of radio Although religious radio preachers set forth to advance the influence of religion in American society their choice to limit theological substance ironically promoted the secularization of the American church
