The Marginal Man Everett V. Stonequist,1961 **The Marginal Man** Everett V.. Stonequist,1965 **Handbook of International and Intercultural Communication** William B. Gudykunst,Bella Mody,2002 This handbook summarises the state of the art in international cultural and developmental communication and sets the agenda for future research

'*Mixed Race*' *Studies* Jayne O. Ifekwunigwe,2004 Bringing together pioneering and controversial scholarship from both the social and biological sciences as well as the humanities this book charts the evolution of debates on race and mixed race from the 19th century to the present day **Quest for an American Sociology** Fred H. Matthews,1977-01-01

Self-Esteem Ian Miller,2024-02-07 By the end of the twentieth century the idea of self esteem had become enormously influential A staggering amount of psychological research and self help literature was being published and before long devoured by readers Self esteem initiatives permeated American schools Self esteem became the way of understanding ourselves our personalities our interactions with others Nowadays however few people think much about the concept of self esteem but perhaps we should Self Esteem An American History is the first historical study to explore the emotional politics of self esteem in modern America Written with verve and insight Ian Miller s expert analysis looks at the critiques of self help that accuse it of propping up conservative agendas by encouraging us to look solely inside ourselves to resolve life s problems At the same time he reveals how African American LGBTQ and feminist activists have endeavored to build positive collective identities based on self esteem pride and self respect This revelatory book will be essential reading for anyone with an interest in the history of mental health and well being and in how the politics of self esteem is played out in today s US society and culture **Road-book America** Rowland A. Sherrill,2000 Sketching the socially marginal ingenious traveling characters common to both old and new versions Sherrill shows how the new American picaresque transforms the satirical aims of the original into an effort to map and catalog the immensity and variety of America BOOK JACKET **The New Colored People** Jon M. Spencer,2000-08 Most Americans remain oblivious of a new racial phenomenon that may radically alter the political landscape of the United States In recent years dramatic increases in racial intermarriage have given birth to a generation of mixed race children whose interracially married parents refuse to allow them to be shoehorned into neat pre existing racial categories The parents through organizations they have founded or joined have lobbied aggressively for the category multiracial to be added to official racial classifications at the state and federal levels including the United States census Since a nonracial society is one of the stated goals of the multiracialists Spencer suggests that the undoing of racial classification will come not by initiating a new classification which will only give Americans the impression that mixed race people can be neatly classified but by our increased recognition that there are millions of people who simply defy classification *The Silent War* Frank Furedi,1998 Racial identity is one of the defining characteristics of the 20th century In this study Frank Furedi traces the history of Western colonial racist ideology and its role in the subjugation of the peoples

of the non West His central theme is the changing perception of racism in the West and how the use of race has altered during the course of the 20th century Focusing on World War II as the crucial turning point in racist ideology Furedi argues that the defeat of Nazism left the West uneasy with its own racist past He assesses how this was redefined in the postwar period especially during the Cold War and demonstrates that although white supremacist views became obsolete in international affairs Western nations sought to portray racism as a natural part of the human condition As a result the West continued to adopt the moral high ground well into the postwar period to the ultimate detriment of the nations of the non West

Strangers in a Familiar Land James A. Blumenstock, 2020-04-28 Throughout history many Christians have existed on the margins of society deviants and strangers in lands they call home To survive they have had to construct alternate identities that not only make sense of their religious experiences and beliefs but also equip them to successfully negotiate their social worlds In Thailand a nation where social identities are thoroughly intertwined with Buddhist religious adherence Christians must come to terms with such a marginalized existence By leaving Buddhism and adopting what is considered a foreign faith Christian converts become deviants to normal Thai identity and belonging In response they have discovered creative solutions for traversing this complex terrain of marginalization This book presents a deep exploration of the phenomenon of marginalization as experienced by Thai Christian converts In it readers will follow participants through the heights of transformative religious experience the lows of severe social displacement the tensions of managing two disparate lifeworlds and two conflicting selves and the comfort and joy of finding a new place to call home In the end the reader will gain deep insight into what it is like to successfully navigate a minority religious identity on the margins of society
