The Marriage Machine A Novel:

The Marriage Machine Gillian Freeman,1975 *The Marriage Machine* Gillian Freeman,1984-02 *The Wedding Machine* Beth Webb Hart,2008-02-05 One of the most charming books I've read in a long long time made me laugh cry and cheer as all good weddings do Cassandra King bestselling author of *The Same Sweet Girls* Welcome to Jasper South Carolina A place where Southern hospitality thrives Where social occasions are done right And where for generations the four most upstanding ladies of this community ensure that the daughters of Jasper are married in the proper manner Friends from school days the gals have long pooled their silver china and know how to pull off beautiful events They're a force of nature a well oiled machine But the wedding machine's gears start to stick during the summer their own daughters line up to tie the knot In the lowcountry heat and humidity tempers flare old secrets leak out and both love and gardenias bloom in unlikely places

The Novel-Machine Walter Kendrick,2019-12-01 Originally published in 1980 The first section of *The Novel Machine* consists of five short chapters that rewrite *Autobiography* as an undisguised theory of realistic fiction exploring its paradoxes while placing it in the context of mid Victorian criticism Chapters 6 and 7 survey the manifestations in Trollope's novels of what his theory sets down as the primary difference of realism its way of telling its readers how to read Chapter 8 is a close reading of *He Knew He Was Right* a neglected novel that in Kendrick's estimation deserves to stand in much higher critical esteem than it does Kendrick shows how deeply woven into the texture of Trollope's writing the rhetoric of realism is Kendrick's reading is a departure from the usual method of criticizing Trollope surveying the whole of his work a novel at a time saying a little about every novel and always too little about each

The Convenient Groom and Wedding Machine Denise Hunter,Beth Webb Hart,2009-07-15 A special bundle of two books authored by Denise Hunter *The Convenient Groom* and *Wedding Machine*

Novel Machines Joseph Drury,2017-11-10 Eighteenth century fiction is full of mechanical devices and contrivances Robinson Crusoe uses his gun and compass to master his island and its inhabitants Tristram Shandy's conception is interrupted by a question about a clock and he has his nose damaged at birth by a man midwife's forceps Ann Radcliffe's gothic heroines play musical instruments to soothe their troubled minds In *Novel Machines* however Joseph Drury argues that the most important machine in any eighteenth century novel is the narrative itself Like other kinds of machine a narrative is an artificial construction composed of different parts that combine to produce

a sequence of causally linked actions Like other machines a narrative is designed to produce predictable effects and can therefore be put to certain uses Such affinities had been apparent to critics since Aristotle but they began to assume a particular urgency in the eighteenth century as authors sought to organize their narratives according to the new ideas about nature art and the human subject that emerged out of the Scientific Revolution Reading works by Eliza Haywood Henry Fielding Laurence Sterne and Ann Radcliffe *Novel Machines* tracks the consequences of the effort to transform the novel into an Enlightenment machine On the one hand the rationalization of the novel's narrative machinery helped establish its legitimacy such that by the end of the century it could be celebrated as a modern invention that provided valuable philosophical knowledge about human nature On the other hand conceptualizing the novel as a machine opened up a new line of attack for the period's moralists whose polemics against the novel were often framed in the same terms used to reflect on the uses and effects of machines in other contexts Eighteenth century novelists responded by adapting the novel's narrative machinery devising in the process some of the period's most characteristic and influential formal innovations

Moon Over Edisto Beth Webb Hart, 2013-02-11 The past has come knocking on Julia's door Can she summon the courage to answer betrayal with love Once they were the happiest family under the sun crabbing and fishing and painting on beautiful Edisto Island in South Carolina's lowcountry Then everything went wrong and twenty years later the Bennett family is still in pieces Mary Ellen still struggles to understand why her picture perfect marriage came apart Daughter Meg keeps a death grip on her own family controlling her relationships at a distance And Julia thought she left it all behind Julia's best friend Marney broke up her parents marriage years ago Now Marney shows up at her Manhattan apartment asking the impossible come home to Edisto Island to care for the half sisters and half brother she has never known Marney recently widowed has lung cancer There's no other family to care for the children while she's in the hospital following surgery Julia loathes Marney But if she doesn't step in her own mother who has never gotten over the divorce will be called upon to take care of the children So Julia heads to South Carolina to keep the peace Julia grudgingly agrees to stay a week caring for her three young half siblings But there's something about Edisto that changes one and she begins to reconnect with the place and the people that she's been running from her whole adult life Can Julia and her fractured family somehow manage to come together again under that low hanging Edisto moon Contemporary Southern Christian fiction Includes discussion questions for book clubs Also by Beth Webb Hart *The Wedding Machine* and *Love Charleston* [Narrative Machine](#) Zena Meadowsong, 2018-11-20 *Narrative Machine* The Naturalist Modernist and Postmodernist Novel advances a new history of the novel identifying a crucial link between narrative innovation and the historical process of mechanization In the late nineteenth century the novel grapples with a new and increasingly acute problem In its attempt to represent the colossal power of modern machinery the steam driven machines of the Industrial Revolution the electrical machines of the modern city and the atomic and digital machines developed after the Second World War it encounters the limitations of traditional

representative strategies Beginning in the naturalist novel the machine is typically portrayed as a mythic monster and though that monster represents a potentially horrific reality the superhuman power of mechanization it also disrupts the documentary objectives of narrative realism the dominant mode of nineteenth century fiction The mechanical monster realistic and yet at odds with traditional realist strategies tears the form of the novel apart In doing so it unleashes a series of innovations that disclose critique and contest the force of mechanization the innovations associated with literary naturalism modernism and postmodernism

The Man in the Machine Marvin Mudrick, 2018-01-01 The Man in the Machine consists of lively iconoclastic assessments of major writers and critics by Marvin Mudrick about whom the critic Roger Sale wrote T S Eliot was not so good a reviewer as Marvin Mudrick The book takes its title from Mudrick s introduction in which he writes about Edgar Allan Poe s pervasive influence on modern literature Poe had the effrontery to palm off on us the silliest least interesting and most influential of twentieth century critical dogmas that books are machines with nobody inside Writing about such masters as Kafka D H Lawrence Jane Austen Trollope Saint Simon Conrad Chekhov and Solzhenitsyn Mudrick shows us the pyrotechnics that can occur when a towering intellect meets characters from the past with all dogma and theories of literature tossed to the wind
