Mazurek, 2022-02-24 In *Isis in a Global Empire* Lindsey Mazurek explores the growing popularity of Egyptian gods and its impact on Greek identity in the Roman Empire Bringing together archaeological art historical and textual evidence she demonstrates how the diverse devotees of gods such as Isis and Sarapis considered Greek ethnicity in ways that differed significantly from those of the Greek male elites whose opinions have long shaped our understanding of Roman Greece These ideas were expressed in various ways sculptures of Egyptian deities rendered in a Greek style hymns to Isis that grounded her in Greek geography and mythology funerary portraits that depicted devotees dressed as Isis and sanctuaries that used natural and artistic features to evoke stereotypes of the Nile Mazurek s volume offers a fresh material history of ancient globalization one that highlights the role that religion played in the self identification of provincial Romans and their place in the Mediterranean world *Roman Domestic Art and Early House Churches* David L. Balch, 2008 Pompeii Herculaneum and Rome have yielded hundreds of wall paintings from domestic buildings Greek myths and tragedies especial by Euripides were visually represented Balch presents an interdisciplinary study inquiring what earliest Jews and Christian in such houses might have been seeing as they read and interpreted scripture and performed core rituals especially the Eucharist This recent study of Roman domestic architecture suggests new perspectives on the social history of early Christianity Publisher *Black Athena: The Afroasiatic Roots of Classical Civilization Volume III* Martin Bernal, 2020-02-14 Winner of the 1990 American Book Award What is classical about Classical civilization In one of the most audacious works of scholarship ever written Martin Bernal challenges the foundation of our thinking about this question Classical civilization he argues has deep roots in Afroasiatic cultures But these Afroasiatic influences have been systematically ignored denied or suppressed since the eighteenth century chiefly for racist reasons The popular view is that Greek civilization was the result of the conquest of a sophisticated but weak native population by vigorous Indo European speakers Aryans from the North But the Classical Greeks Bernal argues knew nothing of this Aryan model They did not see their institutions as original but as derived from the East and from Egypt in particular This long awaited third and final volume of the series is concerned with the linguistic evidence that contradicts the Aryan Model of ancient Greece Bernal shows how nearly 40 percent of the Greek vocabulary has been plausibly derived from two Afroasiatic languages Ancient Egyptian and West Semitic He also reveals how these

derivations are not limited to matters of trade but extended to the sophisticated language of politics religion and philosophy This evidence according to Bernal greatly strengthens the hypothesis that in Greece an Indo European speaking population was culturally dominated by Ancient Egyptian and West Semitic speakers Provocative passionate and colossal in scope this volume caps a thoughtful rewriting of history that has been stirring academic and political controversy since the publication of the first volume

Black Athena Martin Bernal,2020-02-14 Black Athena an audacious three volume series strikes at the heart of today s most heated culture wars Martin Bernal challenges Eurocentric attitudes by calling into question conventional explanations for the origins of classical civilization Provocative passionate and colossal in scope this thoughtful rewriting of history continues to stir academic and political controversy
