Temple Dogs:

The Temple Dogs Warren Murphy, Molly Cochran, 1989 **Sons of Isan: Taking Refuge in a Thai Temple** William Reiland, 2009-06-24 What if someone born and raised in the American Midwest were suddenly immersed in the culture of a Buddhist monastery in rural Thailand This is a true story told with unflinching introspection and honesty along with generous helpings of humor and warmth William Reiland's vivid and detailed descriptions of people and places carry us instantly half way around the globe An admittedly naive aspiration leads by a tortuous path to deeper understanding and along the way we are offered a glimpse behind the saffron robes into our common human predicament *On God and Dogs* Stephen H. Webb, 1998 Many of us keep pet animals we rely on them for companionship and unconditional love For some people their closest relationships may be with their pets In the wake of the animal rights movement some ethicists have started to re-examine this relationship and to question the rights of humans to own other sentient beings in this way In this engaging and thought provoking book Stephen Webb brings a Christian perspective to bear on the subject of our responsibility to animals looked at through the lens of our relations with pets especially dogs Webb argues that the emotional bond with companion animals should play a central role in the way we think about animals in general and against the more extreme animal liberationists defends the intermingling of the human and animal worlds He tries to imagine what it would be like to treat animals as a gift from God and indeed argues that not only are animals a gift for us but they give to us we need to attend to their giving and return their gifts appropriately Throughout the book he insists that what Christians call grace is present in our relations with animals just as it is with other humans Grace is the inclusive and expansive power of God's love to create and sustain relationships of real mutuality and reciprocity and Webb unfolds the implications of the recognition that animals too participate in God's abundant grace Webb's thesis affirms and persuasively defends many of the things that pet lovers feel instinctively that their relationships with their companion animals are meaningful and important and that their pets have value and worth in themselves in the eyes of God His book will appeal to a broad audience of thoughtful Christians and animal lovers **Dogs** Mark Bryant, 2018-07-26 Handsomely produced All in all a quite absorbing collection an easy Christmas present and a perfect if bulky loose side read Jeremy Nicholas A wonderful selection of writing on dogs from Plato to Virginia Woolf and from ancient Egypt to twentieth century New York From beautiful lyrics to madcap waggery from Elizabeth Barrett Browning's adored lap dog Flush to Sir Arthur Conan Doyle's terrifying Hound of the Baskervilles and encompassing odes fables stories songs nursery rhymes and more Mark Bryant has compiled a wonderfully evocative collection of writing on all kinds of dogs by all kinds of authors Included are poems by Geoffrey Chaucer William Shakespeare Alexander Pope Jonathan Swift Rudyard Kipling Lord Byron William Wordsworth Robert Burns and more humorous pieces by Lewis Carroll Edward Lear Ambrose Bierce and Jerome K Jerome and other delights from writers as varied as Charles Dickens Charlotte Brontë Christina Rossetti Anton Chekhov Mark Twain the Brothers Grimm Edith Wharton Johann Wolfgang

Dogs and People in Social, Working, Economic or Symbolic Interaction L. Snyder,2016-07-29 This the final title to be published from the sessions of the 2002 ICAZ conference focuses on the role of man s best friend As worker or companion the dog has enjoyed a unique relationship with its human master and the depth and variety of the papers in this fascinating collection is a testament to the interest that this symbiotic arrangement holds for many scholars working in archaeology today The book covers an eclectic range of subjects such as considering dogs as animals of sacrifice and animal components of ancient and modern religious ritual and practice dogs as

human companions subject to loving care visual symbolic representation deliberate or accidental breed manipulation as working dogs and finally as co inhabitants of human dwelling paces and co consumers of human food resources While many of the papers in this volume have a predominant focus they also demonstrate that the relationships between humans and dogs are rarely if ever singular or simple Instead these relationships are complex often combining the practical the ideological and the symbolic Incubation Mary Hamilton,1906 *Natural Healing for Dogs and Cats* Diane Stein,2011-03-23 This invaluable resource tells how to use nutrition minerals massage herbs homeopathy acupuncture acupressure flower essences and psychic healing for optimal health Meticulously researched Fully illustrated Comprehensive guide to holistic healing methods Extensive resource directory Effective ways to reduce veterinary costs **The Image of Mesopotamian Divine Healers** Irene Sibbing-Plantholt,2022-04-04 This volume exposes one of the world s oldest medical marketplaces and the emergence of medical professionalization within it Through an unprecedented analysis of the Mesopotamian healing goddesses as well as as a diverse group of healers Irene Sibbing Plantholt demonstrates that from the Middle Babylonian period onwards the goddess Gula was employed as a divine legitimization model for scholarly professional as s With this work Sibbing Plantholt provides a unique insight in processes of medical competition and legitimization in ancient Mesopotamia which speak to similar processes in other societies **Leaving the Wild** Gavin Ehringer,2017-12-05 A thought provoking and surprising book that explores the ever evolving relationship between humans and domesticated animals The domestication of animals changed the course of human history But what are the consequences for these animals who have abandoned their wild existence in exchange for our care and protection Domestication has proven to be a wildly successful survival strategy but this success has not been without its drawbacks A modern dairy cow s daily energy output equals that of a Tour de France rider Feral cats overpopulate urban areas And our methods of breeding horses and dogs have resulted in debilitating and sometimes lethal genetic diseases But these problems and more can be addressed if we have the will and the compassion Human values and choices determine an animal s lot in life even before he or she is born Just as a sculptor s hands shape clay so human values shape our animals for good and or evil The little examined yet omnipresent act of breeding lies at the core of Gavin Ehringer s eye opening book
