Legislated Inequality Patti Tamara Lenard, Christine Straehle, 2012-09-01 Historically Canada has adopted immigration policies focused on admitting migrants who were expected to become citizens A dramatic shift has occurred in recent years as the number of temporary labourers admitted to Canada has increased substantially Legislated Inequality critically evaluates this radical development in Canadian immigration arguing that it threatens to undermine Canada s success as an immigrant nation Assessing each of the four major temporary labour migration programs in Canada contributors from a range of disciplines including comparative political science philosophy and sociology show how temporary migrants are posed to occupy a permanent yet marginal status in society and argue that Canada s temporary labour policy must undergo fundamental changes in order to support Canada s long held immigration goals The difficult working conditions faced by migrant workers as well as the economic and social dangers of relying on temporary migration to relieve labour shortages are described in detail Legislated Inequality provides an essential critical analysis of the failings of temporary labour migration programs in Canada and proposes tangible ways to improve the

Transnational Trajectories in East Asia Yasemin Nuho lu Soysal, 2014-11-20 In recent decades East Asia has become increasingly interconnected through trade investment migration and popular culture at regional and global levels At the same time the region has seen renewed national assertiveness and nationalist impulses The book interrogates these seemingly contradictory developments as they bear on the transformations of the nation and citizenship in East Asia Conventionally studies on East Asia juxtapose these developments focusing on the much exercised dichotomy of the national and transnational In contrast this book suggests a different orientation First it moves beyond the simplistic view that demarcates the transnational as the West Second it does not view the national and transnational as distinct or contradictory spheres of influence and analysis but rather focuses on the interactions between the two with a view on how these interactions work to transform the ideals and practices of the good nation good society and good citizen The chapters cover a broad range of empirical research education science immigration multicultural policy human rights gender and youth orientations art and food flows politics of values and regional identity which highlight the ways in which the nation is reconfigured and the relationship between the citizen and national collective is redefined in relation to transnational dynamics and frameworks Transnational Trajectories in East Asia provides a new perspective on and original analysis of transnational processes bringing a fresh understanding to developments of the nation and citizenship in the region It will be of great interest to students and scholars of transnationalization and globalization comparative citizenship migration and multiculturalism and Asian politics society and regionalism

Japan's Diversity Dilemmas Soo-im Lee, Stephen Murphy-Shigematsu, Harumi Befu, 2006 Japan's Diversity Dilemmas Ethnicity Citizenship and Education reveals how Japanese society is now in the midst of dramatic transformation brought on by demographic change and globalization Foreigners are coming to Japan and many more will come in the near future to meet the demands of an economy that needs workers to compensate for an extremely low birth rate The ramifications of this influx of foreigners into a society that has based its identity on a mythical ethnic purity are enormous This book examines the effects of globalization on both new and older ethnic communities It shows the ways in which minorities in particular Koreans are changing their conceptions and practices

regarding nationality It explores issues of human rights and emerging conceptions of citizenship in Japan It also looks at how forces of globalization are affecting the state ideology of homogeneity and how a new image of diversity and multiculturalism is slowly developing Several authors focus their attention on implications for education in citizenship education ethnic education and international education Japan's Diversity Dilemmas is not just about minorities but addresses issues of diversity that impact Japan as a nation in three areas ethnicity citizenship and education As the population diversifies the linking of ethnicity and citizenship is being challenged and education is a battleground where these struggles occur This collection of papers by an interdisciplinary group of authors helps readers to understand Japan's evolving conceptions of the nation and its attempts to balance tensions of unity and diversity Japan's Diversity Dilemmas looks at precisely the kind of issues that need examination and discussion as Japan stands on the cusp of potentially huge demographic and social changes This collection of studies will enrich and inform classroom and public discourse and those who follow these issues will find this book essential Sharon Noguchi San Jose Mercury News and former Fulbright Fellow University of Tokyo

The Demographic Transformations of Citizenship Heli Askola, 2016-09-15 The Demographic Transformations of Citizenship examines how attempts by contemporary states to govern demographic anxieties are shaping ideas about citizenship both as a boundary maintaining mechanism and as an ideal of equal membership These anxieties while most often centred upon immigration also stem from other demographic changes unfolding in contemporary states most notably the long standing trend towards lower birth rates and consequent population ageing With attention to such topics as control over borders national identity gender roles family life and changing stages of life Askola examines the impact of demographic changes including but not limited to immigration Drawing from a variety of disciplines including law demography and sociology this book discusses how efforts to manage demographic anxieties are profoundly altering ideas about citizenship and belonging
