Sharing the Fish National Research Council,Commission on Geosciences, Environment, and Resources,Ocean Studies Board,Committee to Review Individual Fishing Quotas,1999-06-09 Most U S fish stocks are fully or over exploited and harvesting in many fisheries far exceeds sustainable levels The individual fishing quota IFQ is a relatively new instrument under which harvesting privileges are allocated to individual fishermen innovative yet controversial for its feared effect on fishing communities and individual fishermen Based on testimony from fishermen regulators environmentalists and others Sharing the Fish explores how IFQs might address the serious social economic and biologic issues raised by depleted fish stocks In their approach to a national policy on IFQs the panel makes direct recommendations to Congress the Secretary of Commerce the National Marine Fisheries Service regional fishery management councils state authorities and others This book provides definitions and examples reviews legislation and regulations and includes lessons learned from fisheries on the U S East Coast and in Alaska and in Iceland New Zealand and other nations The committee discusses the public trust doctrine management of common pool resources alternative and complementary approaches to the IFQ and more Sharing the Fish provides straightforward answers that will be important to fishery policymakers and regulators natural resource economists fishery managers environmental advocates and concerned fishermen and their communities A People's History of Classics Edith Hall,Henry Stead,2020-02-26 A People's History of Classics explores the influence of the classical

past on the lives of working class people whose voices have been almost completely excluded from previous histories of classical scholarship and pedagogy in Britain and Ireland from the late 17th to the early 20th century This volume challenges the prevailing scholarly and public assumption that the intimate link between the exclusive intellectual culture of British elites and the study of the ancient Greeks and Romans and their languages meant that working class culture was a Classics Free Zone Making use of diverse sources of information both published and unpublished in archives museums and libraries across the United Kingdom and Ireland Hall and Stead examine the working class experience of classical culture from the Bill of Rights in 1689 to the outbreak of World War II They analyse a huge volume of data from individuals groups regions and activities in a huge range of sources including memoirs autobiographies Trade Union collections poetry factory archives artefacts and documents in regional museums This allows a deeper understanding not only of the many examples of interaction with the Classics but also what these cultural interactions signified to the working poor from the promise of social advancement to propaganda exploited by the elites to covert and overt class war A People s History of Classics offers a fascinating and insightful exploration of the many and varied engagements with Greece and Rome among the working classes in Britain and Ireland and is a must read not only for classicists but also for students of British and Irish social intellectual and political history in this period Further it brings new historical depth and perspectives to public debates around the future of classical education and should be read by anyone with an interest in educational policy in Britain today
