Her works are compared to James Joyce's *Ulysses* and to Marcel

Proust's *In Search of Lost Time*      **Artistic Outlaws** Sonja Samberger, 2005 The creator of the new composition in the arts is an outlaw until he is a classic Gertrude Stein wrote in 1926 Unlike male modernists such as T S Eliot or Ezra Pound the modernist women poets Edith Sitwell Amy Lowell Stein and H D never became high modernist models but remained artistic outlaws The present study shows how these women were present on the modernist scene but followed their own concepts and struggled to establish their position as modernist women poets Defying definition the four poets not only richly contributed to modernism but were indeed its developers      **The Feminist Avant-Garde in American Poetry** Elisabeth A. Frost, 2005-04 The Feminist Avant Garde in American Poetry offers a historical and theoretical account of avant garde women poets in America from the 1910s through the 1990s and asserts an alternative tradition to the predominantly male dominated avant garde movements Elisabeth Frost argues that this alternative lineage distinguishes itself by its feminism and its ambivalence toward existing avant garde projects she also thoroughly explores feminist avant garde poets debts and contributions to their male counterparts      **No Man's Land** Sandra M. Gilbert, Susan Gubar, 1991-01-23 V 1 the war of the words V 2 sexchanges      **The Patient Particulars** Christopher J. Knight, 1995 The Patient Particulars American Modernism and the Technique of Originality is a literary history that focuses on four canonical texts Stein's *Tender Buttons* 1914 Hemingway's *In Our Time* 1925 Williams's *Spring and All* 1923 and Moore's *Observations* 1924 grouped together for the purpose of raising a question about the manner in which American literary modernism is traditionally described Author Christopher J Knight is interested in the way that the classical covenant between word and world now considered fractured experienced undue pressure from the modernists earlier project to bridge the gap With respect to the texts named Knight argues that there is an evinced desire to think of the work as a vertical veridical act of discovery There is as such an ambition to collapse representation into presentation and even revelation an ambition that while quixotic is not without formal the technique of originality and political consequences These consequences are in fact the main focus of the book and in turn are brought forward to ask further questions about how we periodize American literary modernism's BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved      **Tender Buttons Annotated Edition** Gertrude Stein, 2021-04-02 Gertrude Stein gave her second published collection of poetry the title *Tender Buttons* in 1914 The poems which make up the collection inside are every bit as offbeat and unexpected as the title Of course the literary world has another name for such a choice avant garde *Tender Buttons* is a title which perfectly complements the central avant garde thrust behind the poems one that consistently pushes toward re-investing meaning into entities which have that element The collection is divided into three part Objects Food and Rooms Within each section Stein devotes a series dense verse that take on the appearance of prose paragraphs more than standard poetry Each poem is a musing filled with the power of repetition wordplay and the space for recreation created by ambiguity of intent That ambiguity affords the opportunity for interpretation that can range from the biographical issues of Stein's homosexuality to psychological

explanations such as B F Skinner's contention that the volume represented a demonstration of automatic writing that seeks to connect the hand directly to the subconscious thus bypassing the natural censor of the conscious mind. Knowing Stein's inspiration may help some readers to make more sense of the highly suggestive but often unclear connotations the poems seek to make. Cubist art was revolutionizing the art world and in the process casting an awkward shadow over the value of pure representation of what the eye sees. The eye is very much at work in *Tender Buttons* but it is a vision produced by a keen desire to penetrate beyond surface appearance. In particular Stein was fascinated by the possibilities of doing with words what Cubist montage managed to do with images. Just as striking contrasts between seemingly unrelated images in a montage can stimulate new meaning based on contextual relationship so is context through association at the heart of not just the contents of *Tender Buttons* but the very title of the collection.

**Conflicting Stories** Elizabeth Ammons, 1992-10-01  
 The early 1890s through the late 1920s saw an explosion in serious long fiction by women in the United States. Considering a wide range of authors African American Asian American white American and Native American this book looks at the work of seventeen writers from that period: Frances Ellen Harper, Charlotte Perkins Gilman, Sarah Orne Jewett, Alice Dunbar Nelson, Kate Chopin, Pauline Hopkins, Gertrude Stein, Mary Austin, Sui Sin Far, Willa Cather, Humishuma, Jessie Fauset, Edith Wharton, Ellen Glasgow, Anzia Yezierska, Edith Summers Kelley, and Nella Larsen. The discussion focuses on the differences in their work and the similarities that unite them, particularly their determination to experiment with narrative form as they explored and voiced issues of power for women. Analyzing the historical context that both enabled and limited American women writers at the turn of the century, Ammons provides detailed readings of many texts and offers extensive commentary on the interaction between race and gender. This book joins the deepening discussion of modern women writers' creation of themselves as artists and raises fundamental questions about the shape of American literary history as it has been constructed in the academy.

[The Cambridge Companion to Modernist Poetry](#) Alex Davis, Lee M. Jenkins, 2007-07-19. This Companion offers the most comprehensive overview available of modernist poetry: its forms, its major authors, and its contexts. The first part explores the historical and cultural contexts and sexual politics of literary modernism and the avant garde. The chapters in the second part concentrate on individual authors and movements, while the concluding part offers a comprehensive overview of the early reception and subsequent canonisation of modernist poetry. As well as insightful readings of canonical poets, the Companion features extended discussions of poets whose importance is now being increasingly recognised, such as Mina Loy, poets of the Harlem Renaissance, and postcolonial poets in the Caribbean, Africa, and India. While modernist poets are often thought of as difficult, these essays will help students to understand and enjoy their experimental, playful, and fascinating responses to contemporary social and cultural change and their dialogue with the arts and with each other.
