Tennessee Williams's America Ahmed Honeini, 2025-09-11 Tennessee Williams s America is the first full length study of homes families and familial exile in the plays of Tennessee Williams The central argument of this book is that Williams s vision of American life in his plays is predicated upon challenging the traditional idea of the home and family Throughout his plays the patriarchal space of the

American home and family is shown to victimize and oppress two of society's most marginalized groups: women and queer people. In Williams's plays, the experiences of one group often mirror and intersect with those of the other. From his earliest plays such as *Candles to the Sun* and *Fugitive Kind* to the masterpieces of his major phase including *Battle of Angels*, *Orpheus Descending*, *The Rose Tattoo*, *Cat on a Hot Tin Roof*, *Period of Adjustment*, *Suddenly Last Summer*, and *Sweet Bird of Youth* through to the much maligned but equally rich works of his late period such as *Vieux Carré* and *Something Cloudy Something Clear*, Williams depicts the home as a place which restricts and suffocates those who fail to perform their expected gender role in the wider patriarchal framework of American life. In its extended full-length treatment of homes, families, and familial exiles in his theatrical output, this book adds a new perspective to Williams scholarship by examining the desperate and at times futile search for love, relationality, and belonging that his marginalized and alienated characters frequently pursue in alternative avenues of existence. Law and Sexuality in Tennessee Williams's America Jacqueline O'Connor, 2016-05-31

Gender and cultural studies readings of Tennessee Williams's work have provided diverse perspectives on his complex representations of sexuality, whether of himself as an openly gay man or of his characters, many of whom narrate or dramatize sexual attitudes or behavior that cross heteronormative boundaries of the mid-century period. Several of these studies have positioned Williams and his work amid the public tensions in American life over roughly four decades, from 1940 to 1980, as notions of equality and freedom of choice challenged prejudice and repression in law and in society. To date, however, neither Williams's homosexuality nor his persistent representations of sexual transgressions have been examined as legal matters that challenged the rule of law. Directed by legal history and informed by multiple strands of Williams's studies, criticism, textual, and cultural, this book explores the interplay of select topics defined and debated in law's texts with those same topics in Williams's personal and imaginative texts. By tracing the obscure and the transparent representations of homosexuality specifically and diverse sexualities more generally through selected stories and plays, the book charts the intersections between Williams's literature and the laws that governed the period. His imaginative works, backlit by his personal documents and historical and legal records from the period, underscore his preoccupation with depictions of diverse sexualities throughout his career. His use of legal language and its varied effects on his texts demonstrate his work's multiple and complex intersection with major twentieth-century concerns, including significant legal and cultural dialogues about identity, formation, intimacy, privacy, and difference. *Visions of Tragedy in Modern American Drama* David Palmer, 2018-02-08 This volume responds to a renewed focus on tragedy in theatre and literary studies to explore conceptions of tragedy in the dramatic work of seventeen canonical American playwrights. For students of American literature and theatre studies, the assembled essays offer a clear framework for exploring the work of many of the most studied and performed playwrights of the modern era. Following a contextual introduction that offers a survey of conceptions of tragedy, scholars examine the dramatic work of major playwrights in chronological succession, beginning with Eugene O'Neill and ending with Suzan-Lori

Parks A final chapter provides a study of American drama since 1990 and its ongoing engagement with concepts of tragedy The chapters explore whether there is a distinctively American vision of tragedy developed in the major works of canonical American dramatists and how this may be seen to evolve over the course of the twentieth century through to the present day Among the playwrights whose work is examined are Susan Glaspell Langston Hughes Tennessee Williams Arthur Miller Edward Albee Lorraine Hansberry Amiri Baraka August Wilson Marsha Norman and Tony Kushner With each chapter being short enough to be assigned for weekly classes in survey courses the volume will help to facilitate critical engagement with the dramatic work and offer readers the tools to further their independent study of this enduring theme of dramatic literature
