Lawn Tennis as Shown by 19th Century Photography Brandt Rowles, 2007-02-01 This book is a photographic record of early lawn tennis Tennis in the 19th Century was mostly played by the upper social classes although some homeowners of moderate income did build private courts Their courts often were sloped cow pasture bumpy and included hazards such as boulders and trees Ordinary people mostly wore their formal street clothes to play the game The photographs in this book show a far different look to the game than that of today The book looks into the faces of these long dead people and enters the landscapes of their distant years

The British Journal of Photography , 1907 *Philosophy as Descartes Found It* Brian Copenhaver, 2024-11-30 What was philosophy as Descartes found it around 1620 What was philosophy like before Descartes reformed it after 1637 What features of philosophy did he want to fix and what tools did he use To answer such questions how should philosophers do their work today One answer is surprising that Descartes wrote picture books for example Another is challenging that philosophers in the present would be better students of their discipline s past if they spent less time on past philosophy as they commonly understand it The change would be transformative But big changes have happened in philosophy s past for non philosophical reasons that need attention from philosophers today when oblivion has

impeded their study of such changes Attending to understudied causes of philosophical effects will show philosophers how to repair the damage that oblivion has done to their work Mending stories about philosophy begins in this book with Descartes and his predecessors mostly the predecessors on meditation and method Brian Copenhaver examines these familiar topics from a neglected point of view before introducing a different and unfamiliar Descartes the author of the Discourse and Meditations as a writer of picture books Three chapters about these topics meditation method and picturing are the practice justified by two theoretical chapters one about how philosophy changes the other about the oblivion that cancels memories of change *What Tennis Pros Don'T Teach (Wtpdt)* Manuel S. Whening Tennis Larry Huebner,2004 *Whening Tennis* In *Tennis as in Life Timing is Everything* is an instructional book It is unique in that it does not focus on the how to of playing the game as much as the when to for more tennis success The author s primary focus on when decisions is an entirely new instructional approach for many aspects of the game When a player learns to combine good when decisions with real effort to play the game to the best of their ability regardless of the final score winning has been achieved Thus *Whening Tennis* becomes winning tennis the essence of the book The subtitle *In Tennis as in Life Timing is Everything* emphasises the importance of when decisions and their crossover from tennis into life s experiences What a fantastic job Larry Huebner has done with his great publication *WHENING TENNIS* First one would be hard pressed to find anyone more qualified to write about tennis than Larry no one is more respected in the tennis world by people who know the game Second how refreshing it is to have something other than just a How to book to help one
