

Science, Nature and Tennyson

- Rupture with 'Natural Theology': 'We have but faith, we cannot know/ For knowledge is of things we see' (I M prologue)
- Although perceived as an heir to the great Romantic poets such as Wordsworth, Tennyson was acutely aware of new scientific discoveries. He was according to his friend and contemporary, scientist T.H. Huxley, 'the first poet since Lucretius [a Classical Roman writer on nature] who has understood the drift of science.'

Tennyson and Scientific Theology Joseph Walter Hayes,1909 *The Dramas of Alfred Lord Tennyson* , The Dramas of Alfred Lord Tennyson Cornelia Geertrui Hendrika Japikse,1926 Dynamics of Desacralization Paola Partenza,2015-01-28 The idea of desacralization has become almost commonplace attributing to the word the rejection of what is sacred One might think that it is strictly connected to theology and its system or suppose that it implies the relationship human beings have with anything that can express a denial of the spiritual part of life The concept of desacralization has numerous meanings either from a philosophical or a literary viewpoint The scholars investigation of Dynamics of Desacralization has made this collection of essays rich and varied revealing new worlds the different authors have created What they do is to narrate various types of desacralization interrogating the nature of novels poems or works of art certain aspects of being are revealed through various expressions engaging the multiple levels and the meaning of desacralization providing an articulation and interpretation of it *The Main Currents of Alfred Tennyson's Time: in Science, Theology, and Philosophy* Eston Everett Ericson,1925 **Alfred Tennyson** Laurence W. Mazzeno,2004 The poet s reputation has weathered even the most vitriolic attempts to discredit both the man and his writings and as criticism of the late twentieth century demonstrates Tennyson s claim to pre eminence among the Victorians is now unchallenged
