Tense Sagas:

New Studies in the Manuscript Tradition of Njáls saga Svanhildur Óskarsdóttir, Emily Lethbridge, 2018-10-22 Nj ls saga is the best known and most highly regarded of all medieval Icelandic sagas and it occupies a special place in Icelandic cultural history. The manuscript tradition is exceptionally rich and extensive The oldest extant manuscripts date to only a couple of decades after the saga s composition in the late 13th century and the saga was subsequently copied by hand continuously up until the 20th century even alongside the circulation of printed text editions in latter centuries The manuscript corpus as a whole has great socio historical value showcasing the myriad ways in which generations of Icelanders interpreted the saga and took an active part in its transmission the manuscripts are also valuable sources for evidence of linguistic change and other phenomena The essays in this volume present new research and a range of interdisciplinary perspectives on the Nj ls saga manuscripts Many of the authors took part in the international research project The Variance Aspects of Tenses, Modality, and of Nj ls saga which was funded by the Icelandic Research Council from 2011 2013 Evidentiality, 2021-11-01 If there s a domain in linguistics which complexity calls for ever further research it s clearly that of tense aspect modality and evidentiality often referred to as TAME The reason for which these domains of investigation have been connected so tightly as to deserve a common label is that their actual intertwining is so dense that one can hardly measure their effects purely individually without regard to the other notions of the spectrum On the other hand despite their imbrications tense aspect modality and evidentiality remain needless to say separate theoretical entities. The papers gathered in this volume cover a range of issues and a variety of methods that help delineate each in its way new perspectives on this broad domain Tense Sagas Debra L. McCall, 2001 Scientist say that California will sink into the ocean in the future The future is now and Calamity will finish the job Crack does not only affect the poor it gets the uppper class too Some may not live to tell the tale When a lonely woman dreams of love she will never believe that she has a ghost of a chance Sometimes people's perceptions of others can cause chaos The truth always pays in the end A country has been ruled by men for 500 years until now The country will never be the same again
The Routledge Research Companion to the Medieval **Icelandic Sagas** Ármann Jakobsson, Sverrir Jakobsson, 2017-02-17 The last fifty years have seen a significant change in the focus of saga studies from a preoccupation with origins and development to a renewed interest in other topics such as the nature of the sagas and their value as sources to medieval ideologies and mentalities The Routledge Research Companion to the Medieval Icelandic Sagas presents a detailed interdisciplinary examination of saga scholarship over the last fifty years sometimes juxtaposing it with earlier views and examining the sagas both as works of art and as source materials This volume will be of interest to Old Norse and medieval Scandinavian scholars and accessible to medievalists in general The present and past periphrastic tenses in Anglo-Saxon Constance Pessels, 2019-07-01 No detailed description available for The present and past periphrastic tenses in Anglo Saxon **An Introduction to the Sagas of Icelanders** Carl

makes perceptual experience trustworthy or erroneous Sean Power argues that our understanding of time can determine our understanding of perceptual experience in relation to perceptual structure and perceptual error He examines the general conditions under which an experience may be sorted into different kinds of error such as illusions hallucinations and anosognosia Power also argues that some theories of time are better than others at giving an account of the structure and errors of perceptual experience He makes the case that tenseless theory and eternalism more closely correspond to experience than tense theory and presentism Finally the book includes a discussion of the perceptual experience of space and how tenseless theory and eternalism can better support the problematic theory of na ve realism Philosophy of Time and Perceptual Experience originally illustrates how the metaphysics of time can be usefully applied to thinking about experience in general It will appeal to those interested in the philosophy of time and debates about the trustworthiness of experience

The 26 papers that constitute this volume extend morphological and grammatical theory to signed as well as spoken language to diachronic as well as synchronic evidence and to birdsong as well as human language Mechanisms of Syntactic Change Charles N. Li, 2014-09-10 Historical linguistics the oldest field in linguistics has been traditionally dominated by phonological and etymological investigations Only in the late twentieth century have linguists begun to focus their interest and research on the area of syntactic change and the insight it provides on the nature of language This volume represents the first major contribution on the mechanisms of syntactic change The fourteen articles that make up this volume were selected from the Symposium on the Mechanisms of Syntactic Change held at the University of California Santa Barbara in 1976 one of a series of three conferences sponsored by the National Science Foundation These papers clearly demonstrate that the generative approach to the study of language does not explain diachronic processes in syntax This collection is enlightening provocative and carefully documented with data drawn from a great variety of language families **Diplomatic tenses** Iver Neumann, 2020-12-08 Offering an alternative and a complement to existing histories of diplomacy this book discusses change in the form of tipping points which it understands as the culmination of long term trends Part I discusses social evolution on the general level of institutions It argues that in cases where a diplomatic institution s tipping points are defined by the types of entities that make it up the consular institution has evolved from concerning polities of independent traders to becoming ever more of a state concern Part II challenges the existing literature s treatment of diplomacy as an elite textual affair It lays the groundwork for studying visual diplomacy and observes that the increasingly marginal vision of diplomacy as a
