Shattering the Myths Judith Glazer-Raymo, 2002-10-14 Winner of the Outstanding Publication Award of the Post secondary Education Division of the American Educational Research Association In Shattering the Myths Judith Glazer Raymo uses a critical feminist perspective to examine women's progress in higher education since 1970 She contrasts the activism of the 1970s the passivity of the 1980s and the ambivalence and antipathy demonstrated toward feminism in the 1990s These waves of change she explains were brought about by external forces by generational differences among women and by intellectual and ideological struggles within the women's movement and the larger academic culture In tracing three decades of women's progress in the academy the author provides data from a variety of sources on women's rank salary employment status and education The book also draws on the experience of women faculty and administrators as they
