Teoria De La Expresion Poetica 2 Volume Set:

The Cambridge History of Literary Criticism: Volume 9, Twentieth-Century Historical, Philosophical and Psychological Perspectives Christa Knellwolf, Christopher Norris, Jessica Osborn, 1989 This ninth volume in The Cambridge History of Literary Criticism presents a wide ranging survey of developments in literary criticism and theory during the last century Drawing on the combined expertise of a large team of specialist scholars it offers an authoritative account of the various movements of thought that have made the late twentieth century such a richly productive period in the history of criticism The aim has been to cover developments which have had greatest impact on the academic study of literature along with background chapters that place those movements in a broader intellectual national and socio cultural perspective In comparison with Volumes Seven and Eight also devoted to twentieth century developments there is marked emphasis on the rethinking of historical and philosophical approaches which have emerged especially during the past two decades as among the most challenging areas of debate

The Poetic Artistry of José Watanabe Randy Muth, Alfredo López-Pasarín Basabe, Shigeko Mato, 2021-09-11 Connecting multiple academic areas this book addresses three aspects of the poetry of Jos Watanabe 1 the construction of Japaneseness in the poetic works and public figure of the poet 2 the skillful manipulation of literary devices characteristic of his poetry 3 the unique sensibilities and moods of ephemerality and ineffableness prevalent in his poetic works The trans interdisciplinary nature of the book intends to promote a dialogue and exchange of ideas across academic fields neglected in most studies on the Peruvian poet Written by researchers based in Japan it offers a unique perspective of Japanese cultural phenomenon unavailable in previous studies The goal of the book is to shed light on how Japan continues to be seen by the West through essentialist notions and stereotypical representations as well as to highlight the fact that the literary quality of Watanabe s poetic artistry does not reside in it being Japanese and can be appreciated without resorting to essentialist categorizations based on positive Japanese stereotypes

Julio Hans C. Jensen,2012-07-01 The Spanish poet Juan Ram n Jim nez 1881 1958 Nobel laureate 1956 wrote at a key moment in literary history Since Jim nez s lyrical output covers the poetic tradition from Romanticism through Symbolism to the Avant Gardes his work can be regarded as a condensation of the modern paradigm Julio Jensen investigates the lyrical subject appearing in Jim nez s poetry as exemplary of the notion of modern subjectivity He does so by assuming a historical correlation between literature and philosophy in the sense that if philosophical discourse conceptualizes the prevailing understanding of the human being at a given moment literary discourse represents it Modern thought does not accept any other foundation than subjectivity At the same time the awareness of the subject s finitude engenders pessimism with respect to its status as world generating principle One of the primary aims of this study then is to show how Jim nez poignantly enacts this vacillation between self enthrone ment and self eradication With insightful readings of Jim nez s poetry the author opens a rich vein in the work of a writer who would serve as a central reference for later Spanish language poets such as Federico Garc Lorca Pablo Neruda and Octavio Paz *Language and Verbal Art Revisited* Donna R.
