Decision in Paris Lynn Lamarr, 2023-11-01 Lynn Lamarr once studied photography and screenwriting He was born in a time when society was so full of prejudices such as racism hatred of Jews and homophobia These characteristics made Lynn Lamarr early not to reveal anything from his life such as for example his sexuality or dreams much less what was going on deep inside him He understood already as a child that a secret remains only one if he keeps it to himself Closed and unapproachable that's the only way his friends know him In his first book *Decision in Paris* he opens up and shows the reader his deepest inner self The conflict between father and son as he experienced it himself comes to bear in this novel Also the cold and distant love of his mother becomes important in this story Yes and of course the love that he once experienced himself is shown in this book *Decision in Paris* is a mirror of his life and the society that shapes us daily which he reveals to the reader in this story More emotional and more human a story can hardly be told Despite some setbacks Lynn Lamarr never got discouraged and wrote his deepest fears and feelings in *Decision in Paris* which he now shares with the reader in a fictional story

Semis and Terraces in England Finn Jensen,2016-12-05 Between the two World Wars there was an unprecedented need for new houses in Britain which resulted in a building boom While only a small percentage of this building took the form of Modernism there was still a significant number of semis and terraces built for the workers and middle class families in the 1920s and 1930s built in this style This book examines these modest Modernist houses within the broader context of the Modern Movement in Europe as well as the inter war building boom in suburban Britain Illustrated with line drawings and photographs of more than 30 examples from around the country and based on little known contemporary material such as catalogues advertisements radio broadcasts and letters it shows how these houses speak of a time of political social and artistic unrest and a world where the avant garde architects sought to capture the spirit of modern technology in their designs for the average home owner While the Modernist houses never became popular with the general public the fact that so many are still standing and now sought after by twenty first century families speak for their endurance and special appeal
