*Sweetie 2.0* Simone van der Hof,Ilina Georgieva,Bart Schermer,Bert-Jaap Koops,2019-07-06 This book centres on Webcam Child Sex Tourism and the Sweetie Project initiated by the children s rights organization Terre des Hommes in 2013 in response to the exponential increase of online child abuse Webcam child sex tourism is a growing international problem which not only encourages the abuse and sexual exploitation of children and provides easy access to child abuse images but which is also a crime involving a relatively low risk for offenders as live streamed webcam performances leave few traces that law enforcement can use Moreover webcam child sex tourism often has a cross border character which leads to jurisdictional conflicts and makes it even harder to obtain evidence launch investigations or prosecute suspects Terre des Hommes set out to actively tackle webcam child sex tourism by employing a virtual 10 year old Philippine girl named Sweetie a so called chatbot to identify offenders in chatrooms Sweetie 1 0 could be deployed only if police officers participated in chats and thus was limited in dealing with the large number of offenders With this in mind a more pro active and preventive approach was adopted to tackle the issue Sweetie 2 0 was developed with an automated chat function to track identify and

deter individuals using the internet to sexually abuse children Using chatbots allows the monitoring of larger parts of the internet to locate and identify potential offenders and to send them messages to warn of the legal consequences should they proceed further But using artificial intelligence raises serious legal questions For instance is sexually interacting with a virtual child actually a criminal offence How do rules of criminal procedure apply to Sweetie as investigative software Does using Sweetie 2 0 constitute entrapment This book the outcome of a comparative law research initiative by Leiden University's Center for Law and Digital Technologies eLaw and the Tilburg Institute for Law Technology and Society TILT addresses the application of substantive criminal law and criminal procedure to Sweetie 2 0 within various jurisdictions around the world This book is especially relevant for legislators and policy makers legal practitioners in criminal law and all lawyers and academics interested in internet related sexual offences and in Artificial Intelligence and law Professor Simone van der Hof is General Director of Research at the Center for Law and Digital Technologies eLaw of the Leiden Law School at Leiden University The Netherlands Ilina Georgieva LL M is a PhD researcher at the Faculty of Governance and Global Affairs at Leiden University Bart Schermer is an associate professor at the Center for Law and Digital Technologies eLaw of the Leiden Law School and Professor Bert Jaap Koops is Professor of Regulation and Technology at the Tilburg Institute for Law Technology and Society TILT Tilburg University The Netherlands div **The Human Algorithm** Robin K.

Mathew,2025-04-29 In today's hyperconnected world our lives have become increasingly intertwined with the technology we interact with While innovations like smartphones and the Internet have brought unprecedented convenience and connectivity they have also introduced new risks and challenges In **The Human Algorithm** Dr Robin K Mathew takes readers on an eye opening exploration of the complex digital landscape and our ever evolving engagement with it With chapters delving into smartphone addiction the impact of technology on cognitive development threats such as cyberbullying online predators and the dark web this book shines a revelatory light on the often overlooked aspects of our online existence This comprehensive work also dedicates chapters to the internet's role in fuelling anxiety and hypochondria the emergence of cyber dating and romance and the potential of artificial intelligence AI among other crucial topics All in all this richly researched and compellingly argued compendium will equip you with the knowledge and insights to navigate the digital age with awareness and resilience **Child, Family, State** Roland Spickermann,2025-09-04 This book explores how adoption evolved in

Germany's turbulent twentieth century experiencing both drastic changes and unexpected continuities The history of adoption in twentieth century Germany has been dramatic and complex The Weimar Republic's assumption of responsibility for children's welfare in 1922 empowered state authorities to regulate private adoption agencies to set up their own public adoption offices and to require prospective adoptive parents to prove their competence to social workers These policies subsequently allowed nazis communists and democrats to frame adoption policies to match their social and political goals and values Differing conceptions of the best interests of the child and the family redefinitions of family changing criteria for a

family's or child's suitability for adoption, abduction, international adoption, and even European integration all came into play, empowering authorities to define, regulate, and sometimes even forbid adoptive relationships to that end. The evolution of German adoption and German society reflected each other, showing both fundamental changes and unexpected continuities and deepening our understanding of both. *Congressional Record* United States.
