Fox,2022 A Promethean technology is one that allows someone of average resources skills and intelligence to carry out actions that were once only doable by governments militaries or institutions with considerable resources Essentially Promethean technologies allow users to create their own weapons of mass destruction These emerging technologies are increasingly affordable and accessible and are no more complicated to operate than a satellite TV control box or a smart phone Although these technologies are a terrifying prospect the more we know about these dangers the better we can prepare to head them off In The Devil's Toy Box Andrew Fox lays out seven decades of preemptive analysis and shows that while homeland security has explored in depth the possible Promethean threats the world faces it has failed to forecast the most likely attacks Using fictional scenarios Fox teaches how to predict future threats and how to forecast which ones are likely to be used by bad actors within the next five to ten years Combining the skills of homeland security experts and the imaginations of speculative fiction writers he then offers an analytical method to deter counter or abate these threats rather than adopting an attitude of resigned fatalism      **Hard Strike** Eric Thomson,2019-01-19 Terrorists working for traitors intent on transforming the Commonwealth into a brutal empire are preparing to spread mayhem across the vulnerable and increasingly unstable Rim Sector Their aim replace sovereign star system governments with satraps under the direct control of Earth thereby undoing generations of civil peace between humanity's many fractious branches During an operation to eliminate a radical revolutionary movement on one of the Rim Sector's most important colonies Major Decker and Commander Talyn stumble across evidence pointing at a threat more significant than any they've encountered so far evidence suppressed by Black Sword's remaining moles in Naval Intelligence With countless lives on the line Decker and Talyn race against time and enemies ensconced in high places to
