Terrorism And Modern Literature From Joseph Conrad To Ciaran Carson:

Terrorism and Modern Literature, from Joseph Conrad to Ciaran Carson Alex Houen, 2005 Literature and Terrorism, 2012-01-01 The years following the attacks of September 11 2001 have seen the publication of a wide range of scientific analyses of terrorism Literary studies seem to lag curiously behind this general shift of academic interest The present volume sets out to fill this gap It does so in the conviction that the study of literature has much to offer to the transdisciplinary investigation of terror not only with respect to the present post 9 11 situation but also with respect to earlier historical contexts Literary texts are media of cultural self reflection and as such they have always played a crucial role in the discursive response to terror both contributing to and resisting dominant conceptions of the causes motivations dynamics and aftermath of terrorist violence By bringing together experts from various fields and by combining case studies of works from diverse periods and national literatures the volume Literature and Terrorism chooses a diachronic and comparative perspective It is interested in the specific cultural work performed by narrative and dramatic literature in the face of terrorism focusing on literature's ambivalent relationship to other competing modes of discourse Terror and Counter-Terror in Contemporary British Children's Literature Blanka Grzegorzczuk, 2020-05-10 The widespread threat of terrorist and counter terrorist violence in the twenty first century has created a globalized context for social interactions transforming the ways in which young people relate to the world around them and to one another This is the first study that reads post 9 11 and 7 7 British writing for the young as a response to this contemporary predicament exploring how children's writers find the means to express the local conditions and different facets of the global wars around terror The texts examined in this book reveal a preoccupation with overcoming various forms of violence and prejudice faced by certain groups within post terror Britain as well as a concern with mapping out their social relations with other groups and those concerns are set against the recurring themes of racist paranoia anti immigrant hostility politicized identities and growing up in countries transformed by the effects of terror and counter terror The book concentrates on the relationship between postcolonial and critical race studies Britain's colonial legacy and literary representations of terrorism tracing thematic and formal similarities in the novels of both established and emerging children's writers such as Elizabeth Laird Sumia Sukkar Alan Gibbons Muhammad Khan Bali Rai Nikesh Shukla Malorie Blackman Claire McFall Miriam Halahmy and Sita Brahmachari In doing so this study maps new connections for scholars students and readers of contemporary children's fiction who are interested in how such writing addresses some of the most pressing issues affecting us today including survival after terror migration and community building **Rethinking the North American Long Poem** Ridvan Askin, Julius Greve, 2024-12-15 For centuries critics poets poet scholars and philosophers have either openly proclaimed or tacitly assumed the long poem as the highest expression of literary ambition and excellence Rethinking the North American Long Poem focuses on the North American variant of this notorious form notorious because of its often forbidding and

difficult character particularly with respect to the dialectics of content and form aesthetics and politics matter and genre In nine essays and a contextual introduction the editors and contributors scrutinize seminal long poems by North American writers including Walt Whitman's Song of Myself Ezra Pound's The Cantos Muriel Rukeyser's The Book of the Dead and Charles Olson's The Maximus Poems They also explore recent efforts that have redefined or reopened the case of the long poem including Rachel Blau DuPlessis's Drafts M NourbeSe Philip's Zong and Claudia Rankine's Citizen Taking the categories of form matter and experiment as frames of conceptual reference the book examines the ways in which material and immaterial aspects of literary practice and the philosophically and politically inscribed duality of experience and experiment are negotiated in and by North American long poems from the nineteenth century to the present **Joseph**

Conrad and Postcritique Jay Parker, Joyce Wexler, 2021-09-17 This book takes a postcritical perspective on Joseph Conrad's central texts including Heart of Darkness The Secret Agent Under Western Eyes and Lord Jim Whereas critique is a form of reading that prioritizes suspicion unmasking and demystifying postcritique ascribes positive value to the knowledge affect ethics and politics that emerge from literature The essays in this collection recognize the dark elements in Conrad's fiction deceit vanity avarice lust cynicism and cruelty yet they perceive hopefulness as well Conrad's skepticism unveils the dark heart of politics and his critical heritage can feed our fear that humanity is incapable of improving This Conrad is a well known figure but there is another neglected Conrad that this book aims to bring to light one who delves into the politics of hope as well as the politics of fear Chapters 1 and 2 are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com **The Cultural Imaginary of Terrorism in Public Discourse, Literature, and Film** Michael C. Frank, 2017-06-14 This study investigates the overlaps between political discourse and literary and cinematic fiction arguing that both are informed by and contribute to the cultural imaginary of terrorism Whenever mass mediated acts of terrorism occur they tend to trigger a proliferation of threat scenarios not only in the realm of literature and film but also in the statements of policymakers security experts and journalists In the process the discursive boundary between the factual and the speculative can become difficult to discern To elucidate this phenomenon this book proposes that terror is a halfway house between the real and the imaginary For what characterizes terrorism is less the single act of violence than it is the fact that this act is perceived to be the beginning or part of a potential series and that further acts are expected to occur As turn of the century writers such as Stevenson and Conrad were the first to point out this gives terror a fantastical dimension a fact reinforced by the clandestine nature of both terrorist and counter terrorist operations Supported by contextual readings of selected texts and films from The Dynamiter and The Secret Agent through late Victorian science fiction to post 9/11 novels and cinema this study explores the complex interplay between actual incidents of political violence the surrounding discourse and fictional engagement with the issue to show how terrorism becomes an object of fantasy Drawing on research from a variety of disciplines The Cultural Imaginary of Terrorism will be a valuable resource for those

At the Violet Hour Sarah Cole, 2012-11-01 Literature has long sought to make sense of the destruction and aggression wrought by human civilization Yet no single literary movement was more powerfully shaped by violence than modernism As Sarah Cole shows modernism emerged as an imaginative response to the devastating events that defined the period including the chaos of anarchist bombings World War I the Irish uprising and the Spanish Civil War Combining historical detail with resourceful readings of fiction poetry journalism photographs and other cultural materials At the Violet Hour explores the strange intimacy between modernist aesthetics and violence in the late nineteenth and early twentieth centuries The First World War and T S Eliot's The Waste Land demonstrate the new theoretical paradigm that Cole deploys throughout her study what she calls enchanted and disenchanted violence the polarizing perceptions of violent death as either the fuel for regeneration or the emblem of grotesque loss These concepts thread through the literary historical moments that form the core of her study beginning with anarchism and the advent of dynamite violence in late Victorian England As evinced in novels by Joseph Conrad Henry James and others anarchism fostered a vibrant modern consciousness of violence entrenched in sensationalism and melodrama A subsequent chapter offers four interpretive categories keening generative violence reprisal and allegory for reading violence

in works by W B Yeats J M Synge Sean O Casey and others around the time of Ireland's Easter Rising The book concludes with a discussion of Virginia Woolf's oeuvre placing the author in two primary relations to the encroaching culture of violence deeply exploring and formalizing its registers and veering away from her peers to construct an original set of patterns to accommodate its visceral ubiquity in the years leading up to the Second World War A rich interdisciplinary study that incorporates perspectives from history anthropology the visual arts and literature At the Violet Hour provides a resonant framework for refiguring the relationship between aesthetics and violence that will extend far beyond the period traditionally associated with literary modernism

Terrorism Before the Letter Robert Appelbaum, 2015 It is often assumed that terrorism is a modern phenomenon The word was only invented in the late eighteenth century but terrorism has a deep past going back to the Bible and ancient history In the period between 1559 and 1642 in England Scotland and France it became a subject of intense discussion as incidents of terrorist violence came to play an increasingly dramatic role in political life Princes were assassinated Massacres broke out In the name of ancient liberty and religious purity early moderns engaged in signal acts of violence which sent messages which were supposed to have the power of changing power Meanwhile terrorism appeared onstage in narrative and lyrical poems in political treatises and history books This study shows how and why that happened with a view toward the structure of this phenomenon without a name terrorism before the letter
