## Essay Example

"In her relations with both Alec and Angel, Tess is the victim of her own conscience rather than of male cruelty and censure". Comment on this view of Hardy's portrayal of Tess and her fate in Tess Of The D'Urbervilles.

This essay is written in response to the quote above. Since the statement is from the author, Thomas Hardy, I believe that it is necessary to look at his past and outlook on life in general first. By doing this I hope to understand where Hardy's controversy has originated, and then move on to form my own argument, based on my personal belief, and proceed to deliver evidence from the book.

Thomas Hardy was born in 1840, and died in 1928. Hardy was encouraged to write by two female figures in his life, his mother, and then later his wife. Despite his talent in the portrayal of characters in perhaps a realistic sense, his works were found to be 'pessimistic'. The book "Tess of the D'Urbervilles" was first released as a serialised edition in 1891, a time when 'realism became the dominant form of the 19th century'. I think that as this was the realist era, we must ask ourselves if Hardy was indeed being pessimistic, or if he was falling victim to the fashion of realism, and speaking the truth.

I would like to look at the word realist, according to the "York Notes advanced": "a realist author represents the world as it is rather than as it should be", and "draws on characters from all levels of society, but often from lowest classes, represents their speech and manners accurately".

I therefor object to the theory posted by others that Hardy's books are pessimistic, as the above description of a 'realist' perfectly describes Hardy's works in "Tess of the D'Urbervilles", which is also contradictory to the belief of "York Notes Advanced". Another summary of the word realist is derived from the 'Collins gem English dictionary', where a realist is described as someone who is "seeing and accepting things as they really are". Due to the realistic nature of the book, I am inclined to support Hardy's view of Tess falling victim to her own conscience rather to that of male cruelty and censure. Throughout the novel is a sense of verisimilitude.

I also wish to take into consideration that Hardy was encouraged to write by two females, is it possible that since he was pressured by two females that Hardy would consider the female sex to be dominant, or perhaps dominant enough to make their own decisions? Therefor not being as weak so as to fall victim to the male sex? I think that it would be just as naïve to believe that women like Tess's character are incapable of making sensible decisions as it is to believe that Hardy writes from a pessimistic view.

Hardy once wrote regarding his book "the novel embodies the views of life prevalent at the end of the 19th century, and not those of an earlier simpler generation". If this does not support the ideology of realism being a key factor in the writing of

Risk and the English Novel Julia Hoydis, 2019-09-23 Taking the cue from the currency of risk in popular and interdisciplinary academic discourse this book explores the development of the English novel in relation to the emergence and institutionalization of risk from its origins in probability theory in the late seventeenth century to the global risk society in the twenty first century Focussing on 29 novels from Defoe to McEwan this book argues for the contemporaneity of the rise of risk and the novel and suggests that there is much to gain from reading the risk society from a diachronic literary cultural perspective Tracing changes and continuities the fictional case studies reveal the human preoccupation with safety and control of the future They show the struggle with

uncertainties and the construction of individual or collective logics of risk which oscillate between rational calculation and emotion helplessness and denial and an enabling or destructive sense of adventure and danger Advancing the study of risk in fiction beyond the confinement to dystopian disaster narratives this book shows how topical notions such as chance and probability uncertainty and responsibility fears of decline and transgression all cluster around risk

difficulties for late Victorian novelists. Texts produced by Wells, Hardy, Stoker and Conrad are exemplary in reflecting and participating in these challenges. Not only do they contend with evolutionary complications, John Glendening argues, but the complexities and entanglements of evolutionary theory interacting with multiple cultural influences thoroughly permeate the narrative, descriptive and thematic fabric of each. All the books Glendening examines, from *The Island of Doctor Moreau* and *Dracula* to *Heart of Darkness*, address the interrelationship between order and chaos revealed and promoted by evolutionary thinking of the period. Glendening's particular focus is on how Darwinism informs novels in relation to a late Victorian culture that encouraged authors to stress not objective truths illuminated by Darwinism but rather the contingencies, uncertainties and confusions generated by it and other forms of evolutionary theory. **The Secret Life of Thomas Hardy** Edward Neill, 2004. Some recent film and TV versions of his novels are also examined with special reference to the pitfalls of adaptation. Thus students and teachers of literature at various educational levels will find this new book indispensable. Jacket

**The Work and The Reader in Literary Studies** Paul Eggert, 2019-08-29. Reflects on and reimagines the role of the scholarly edition and its reader in the twenty-first century. *Heart of Darkness* Joseph Conrad, 2011-03. This volume presents the text of the 1921 Heinemann edition of Conrad's classic short novel along with documents that place the work in historical context and critical essays that read *Heart of Darkness* from several contemporary critical perspectives. The text and essays are complemented by biographical and critical introductions, bibliographies and a glossary of critical and theoretical terms. In this third edition, the section of cultural documents and illustrations is entirely new, as are two recent exemplary critical essays by Gabrielle McIntire and Tony C. Brown that synthesize a variety of current critical approaches.

**Tess of the d'Urbervilles** Peter Widdowson, 1993-01-01. Thomas Hardy has long been critically constructed as poet of Wessex and novelist of Character and Environment. This volume offers to deconstruct such a mythic Hardy in selecting contemporary critical essays which re-present *Tess* from very different critical perspectives. Feminist, cultural materialist and poststructuralist approaches in particular explore gender, class and language by way of the novel's riven textuality. In the process, the Introduction claims *Tess* emerges as a potent postmodern text. **Modernism** Michael Levenson, 2011-10-25. In this wide-ranging and original account of Modernism, Michael Levenson draws on more than twenty years of research and a career-long fascination with the movement, its participants and the period during which it thrived. Seeking a more subtle understanding of the relations between the period's texts and contexts, he provides not only an excellent survey but also a significant reassessment of Modernism itself. Spanning many decades, illuminating individual achievements and locating them within the intersecting histories of experiment, Symbolism to Surrealism, Naturalism to Expressionism, Futurism to Dadaism, the book places the transformations of culture alongside the agitations of modernity: war, revolution, feminism, psychoanalysis. In this perspective, Modernism must be understood more broadly than simply in terms of its provocative works, experimental forms and singular careers. Rather, as Levenson demonstrates, Modernism should be viewed as the emergence of an adversary.
