Brown, H. Douglas (2004). *Language assessment: Principles and classroom practices*. White Plains, NY: Pearson Education. 324 pp. \$48.00 paper. ISBN 0–13–098834–0.

Brown, James Dean (2005). *Testing in language programs: A comprehensive guide to English language assessment*. New York: McGraw-Hill. 307 pp. \$32.85 paper. ISBN 0–07–294836–1.

Two new textbooks for introductory courses on language testing differentially clarify basic principles of language assessment for relatively similar audiences. Both H. Douglas Brown's *Language Assessment: Principles and Classroom Practices* and James Dean Brown's *Testing in Language Programs: A Comprehensive Guide to English Language Assessment* give excellent and concise summaries of the processes involved in test development, but they differ in that H. D. Brown's book views testing from the standpoint of the teacher in the language classroom, providing, in his own words, 'a clear and reader-friendly' (p. ix) overview of the foundations of second language (L2) testing and specifically avoiding instruction on statistics related to testing – which could be viewed as allowing the course instructor more freedom to teach test statistics in the manner and with supplements he or she chooses. In contrast, J. D. Brown's book engages testing primarily from the viewpoint of the program administrator, giving a step-by-step overview of statistical applications and procedures for testing that, in his own words, 'provide[s] a balance between the technical and practical aspects of language testing that is neither too complex nor too simplistic' (p. x).

The contrast between the two books highlights the fact that many introductory, graduate-level language testing classes often include two different types of students, those from MA or undergraduate TESOL programs who plan to teach and/or be program administrators and

[Assessment in the Second Language Writing Classroom](#) Deborah Crusan, 2010-07 Assessment in the Second Language Writing Classroom is a teacher and prospective teacher friendly book uncomplicated by the language of statistics The book is for those who teach and assess second language writing in several different contexts the IEP the developmental writing classroom and the sheltered composition classroom In addition teachers who experience a mixed population or teach cross cultural composition will find the book a valuable resource Other books have thoroughly covered the theoretical aspects of writing assessment but none have focused as heavily as this book does on pragmatic classroom aspects of writing assessment Further no book to date has included an in depth examination of the machine scoring of writing and its effects on second language writers

Crusan not only makes a compelling case for becoming knowledgeable about L2 writing assessment but offers the means to do so. Assessment Myths Lia Plakans, Atta Gebril, 2015-03-16 This volume was conceived as a best practices resource for assessment in the way that *Vocabulary Myths* by Keith S Folse is one for reading and vocabulary teachers. Like others in the *Myths* series this book combines research with good pedagogical practices. The book opens with an introduction that reviews many key assessment terms and concepts. The myths examined in this book are: Assessment is just writing tests and using statistics; A comprehensive final exam is the best way to evaluate students; Scores on performance assessments are preferable because of their accuracy and authenticity; Multiple choice tests are inaccurate measures of language but are easy to write; We should test only one skill at a time; A test's validity can be determined by looking at it; Issues of fairness are not a concern with standardized testing; Teachers should never be involved in preparing students for tests; Implications for teaching and an agenda for research are discussed in a conclusion.
