economic analyses of power **The New Urban Paradigm** Joe R. Feagin,1998 His assessment of the historical conditions and institutions that protect class and racial privileges makes it clear why people in cities rebel and why social scientists should focus future research on large scale urban transformation **The Political Economy of Destructive Power** Mehrdad Vahabi,2004-01-01 This book will appeal to a broad and varied readership from a range of disciplines across the social sciences including economics politics sociology history and psychology BOOK JACKET *Power in a Changing World Economy* Benjamin J. Cohen, Eric M.P. Chiu,2013-10-30 This book is about power in a changing world economy Though power is ubiquitous in the study of International Political Economy the concept is underdeveloped in formal theoretical terms This collection of essays analyses recent experience in East Asia to advance our theoretic understanding of state power in IPE Over the last quarter century no other region of the world has had a greater impact on the global distribution of economic resources and capabilities China with its peaceful rise now stands as the second largest national economy on the face of the earth South Korea and Taiwan have become industrial powerhouses Hong Kong and Singapore are among the world s most important financial centres and new poles of growth have emerged in several southeast Asian countries all while Japan long the region s dominant market has slipped into seemingly irreversible decline The volume s nine essays contributed by leading scholars in the United States Britain and Taiwan aim to extract relevant inferences and insights from these developments for the study of state power All are framed by a core agenda encompassing four key clusters of questions concerning the meaning sources uses and limits of power These essays ask What new lessons are offered for power analysis in International Political Economy *Internationalization, Market Power and Consumer Welfare* Yves Bourdet,2024-10-01 In the years prior to this book being originally published in 1992 the study of industrial economics had been dominated by the USA While there was a fund of theoretical and empirical knowledge relating to the US experience this is not always relevant in the context of Europe With its considerable national market the USA developed competition policies that differ from those in the smaller economies of European countries This collection of essays looks at the market behaviour of an economy more open to international competition The industrial organization of Sweden provides the ideal representation of smaller economies that can be applied to the other economies of western Europe The contributors apply different analytical approaches to assess direct and indirect forms of market power Some papers draw on econometric cross sectional models exploring the scope of market power and the role of international competition Others look at specific markets investigating the formation of market power its costs to consumers and the role of lobbying groups and the political sphere case studies include the domestic car white goods pharmaceutical goods food textile and air transport markets The book also contains papers that examine the role of competition policy towards restrictive practices and mergers in curbing market power and promoting economic efficiency This book will be of interest to those studying industrial economics and international business and marketing **American Book Publishing Record** ,2006 **The Myth Of The Family Farm** Ingolf Vogeler,2019-06-25 The ideal of the family farm

has been used to justify a myriad of federal farm legislation Land grants the distribution of irrigation water land grant college research and services farm programs and tax laws all have been affected Yet asserts the author federal legislation and practices have had an institutional bias toward large scale farms and agribusiness and have hastened the demise of family farms Dr Vogeler examines the struggle between land interests in the private and public sectors and finds that the myth of the family farm has been used to obscure the dominance of agribusiness and that the corporate penetration of agriculture has in turn contributed to the plight of migrant workers the decline of small towns and the economic difficulties of independent farmers Dr Vogeler also identifies the major shortcomings of agribusiness and federal land related laws and programs examines the regional impact of agribusiness and federal farm programs on rural areas and considers the role of racial minorities and women in the development of agrarian capitalism In conclusion he offers a structural analysis that provides the means for progressive social change and states that the achievement of economic equality in rural America and the dismantling of the corporate control of agriculture can be realized through farmer labor alliances
