never has it been stronger especially as a guiding force in American foreign policy Today people around the world perceive this Manifest Destiny swaggering style in our foreign policy Because of its sheer size its border wars with Mexico its ten year history as an independent republic and its having been settled by a warrior culture originating in the English Scottish borderlands and arriving in Texas via the southern Appalachians Texas is unique in American politics The author does not assert that Texas causes or is the sole cause of our various policies or of so many violent events Rather he demonstrates convincingly that the Texas warrior culture provides a fascinating context for national politics in a way that no other state s political culture can claim
