in the history of education The conference drew together educational and media historians as well as archivists and museum professionals to examine methodological issues and a range of examples of sensory and textual histories The event from which this book arose showed that there is so much more to consider in this area This book was originally published as a special issue of History of Education **Catalog of Copyright Entries. Scriptural Interpretation at the Interface between Education and Religion Florian Wilk,2018-09-24 Scriptural Interpretation at the Interface between Education and Religion examines prominent texts from Jewish Christian and Islamic communities with a view to determining to what extent education Bildung represents the precondition the central feature and or the aim of the interpretation of Holy Scripture in antiquity In particular consideration is given to the exegetical techniques the hermeneutical convictions and the contexts of intercultural exchange which determine the process of interpretation The volume contains a methodological reflection as well as investigations of scriptural interpretation in Jewish texts from the 2nd and 1st centuries B C E in New Testament writings and in witnesses from late ancient Christianity and in the Qur an Finally it contains a critical appraisal of the scholarly oeuvre of Hans Conzelmann This work thus fosters scholarly understanding of the function of scriptural interpretation at the interface between education and religion **Resources in Education** ,2001-04 *The Encyclopaedia and Dictionary of Education* Foster Watson,1922 *Visions of Jewish Education* Seymour Fox,Israel Scheffler,Daniel Marom,2003-07-07 This book looks at the philosophical consideration of Jewish existence in our time as reflected in Jewish education its alternative visions its purposes and instrumentalities the values it should serve and the personal and social character it ought to foster Prevalent conceptions and practices of Jewish education

are neither sufficiently reflective nor thoroughgoing enough to meet the multiple challenges that the world now poses to Jewish existence and continuity New efforts are needed to develop an education of the future that will honor the riches of the Jewish past and grasp the opportunities of fruitful interactions with the general culture of the present To promote such efforts six leading scholars in this book formulate their variant visions of an ideal Jewish education for the contemporary world This book also translates these visions into educational practice and finally articulates a vision abstracted from a case study of a school s ongoing practice
