The Energy of Love Bruce G Epperly, 2017-08-14 Today we need to marshal all the healing resources at our disposal A growing body of evidence shows that spiritual healing practices have a positive impact both on healing and on the quality of life that people experience while under medical care Dr Bruce Epperly calls on Christians to embrace these varied resources He crosses both the boundaries between formal scientific medical practice and spiritual healing and the boundaries between healing practices that come from a variety of spiritual and religious traditions He then incorporates these into a distinctly Christian theology of healing practice Where healing takes place he sees God at work Healing characterized the ministry of Jesus and Epperly believes that it should characterize the life and ministry of Christians in all times and places This is a balanced call that doesn t pit one tradition against another and also does not place spiritual healing practices in opposition to medical science This is about embracing what heals Today we need to marshal all the healing resources at our disposal

conversion community commitment and self giving Lacking a vocabulary to name such experiences the authors of the New Testament and other early documents resorted to metaphors such as baptism into Christ receiving the Holy Spirit forgiveness by God and the presence of Christ during worship By the fourth century however those metaphors were taken to be unexperienced metaphysical realities rather than experienced realities The medieval schoolmen developed philosophical explanations of what went on in church rituals and the Catholic Church continues to teach that its sacraments are automatically effective despite growing evidence to the contrary What if religious rituals were to regain their original authenticity What if the guiding value in designing church ceremonies was honesty rather than liturgical correctness After liberating the reader from doctrinal constraints Martos invites Catholics into a re visioning of the traditional sacraments and a reawakening of ritual imagination in non Western cultures
