The Heart Of What Matters The Role For Literature In Moral Philosophy:

The Heart of What Matters Anthony Cunningham, 2001-09-11 The Heart of What Matters shows that literature has a powerful and unique role to play in understanding life's deepest ethical problems. Anthony Cunningham provides a rigorous critique of Kantian ethics, which has enjoyed a preeminent place in moral philosophy in the United States, arguing that it does not do justice to the reality of our lives. He demonstrates how fine literature can play an important role in honing our capacity to see clearly and choose wisely as he develops a moral philosophy that engages with our intimate emotional concerns. Written in an accessible style and drawing from a provocative body of contemporary literature, this book shows how moral philosophy can reach a far wider audience than it has. In part one of this book, Cunningham sketches out the theoretical basis for a redefined conception of moral philosophy. In part two, he engages in extended analyses of novels that address significant life and character issues, specifically Kazuo Ishiguro's *The Remains of the Day*, Toni Morrison's *Beloved*, and Zora Neale Hurston's *Their Eyes Were Watching God*, and Seraph on the Suwanee. Cunningham shows exactly how works like these can inform moral philosophy. Drawing from film history, psychology, and other social sciences, in addition to literature, this book adds to the growing number of works that use literature for ethical analysis and to the growing controversy over Kantian ethics.

The Heart of What Matters Anthony Cunningham, 2001-09-04 This is a wonderful book, beautifully written, deeply moving, and philosophically well argued. I loved it. Nel Noddings, author of *Caring: A Feminine Approach to Ethics and Moral Education*. This book gives us something all too rare in contemporary philosophical writing: a passionate, careful, deeply sympathetic and sustained analysis of some important literary narratives in aid of a clearly defined philosophical project. Whether one agrees with Cunningham's conclusions or not, his treatment of the texts is inspiring and illuminating. Lawrence C. Becker, author of *A New Stoicism*. *Moral Philosophers and the Novel* P. Johnson, 2004-03-25 In this fascinating study, Peter Johnson makes explicit the issues involved in using the novel as a source in moral philosophy. The book pays close attention to questions of method, aesthetic accounts of the novel, and the nature of ethical knowledge. The views of leading philosophers are examined and criticised in the light of the book's distinctive contribution to the current debate. **Ethics**

and the English Novel from Austen to Forster Valerie Wainwright, 2016-05-13 Complicating a pervasive view of the ethical thought of the Victorians and their close relations, which emphasizes the domineering influence of a righteous and repressive morality, Wainwright discerns a new orientation towards an expansive ethics of flourishing or living well in Austen, Gaskell, Dickens, Eliot, Hardy, and Forster. In a sequence of remarkable novels by these authors, Wainwright traces an ethical perspective that privileges styles of life that are worthy and fulfilling, admirable and rewarding. Presenting new research into the ethical debates in which these authors participated, this rigorous and energetic work reveals the ways in which ideas of major theorists such as Kant, F. H. Bradley, or John Stuart Mill, as well as those of now little-known writers such as the priest Edward Taggart, the preacher William MacCall, and philanthropist Helen Dendy Bosanquet, were appropriated and reappraised.

Further Wainwright seeks also to place these novelists within the wider context of modernity and proposes that their responses can be linked to the on going and animated discussions that characterize modern moral philosophy Ethics, Literature, and Theory Stephen K. Jane Austen's 'Mansfield Park' Joyce Kerr Tarpley, 2010 Constancy and the Ethics of Jane Austen's *Mansfield Park* addresses the ethical dimension of Austen's thought in her most controversial novel *Mansfield Park* by examining the portrayal of her least popular heroine Fanny Price and by focusing on her most important virtue constancy. My aim is to show the way in which Austen's ethical system works by using constancy as a unifying principle for her ethics and by analyzing its Christian basis. I hope to offer a reading that allows the richness and complexity of the characters and incidents in the novel to unite within a coherent whole. To do this I conduct a book-length exploration of constancy whose primary ethical function is to ground the practice of virtue by regulating other virtues common to Austen heroines including self-knowledge, love, or genuine affection, gratitude, and humility. Transformative Fictions Daniel Just, 2022-07-27
Transformative Fictions: World Literature and Personal Change engages with current debates in world literature over the past twenty years, addressing the nature of literary influence in centers and peripheries, the formation of transnational literary and pedagogical canons, and the role of translation and regionalism in how we relate to texts from around the globe. The author, Daniel Just, argues for a supranational but sub-global perspective of regions that emphasizes practical reasons for reading and focuses on the potential of literary texts to stimulate personal transformation in readers. One of the recurring dilemmas in these debates is the issue of delimitation of world literature. The trouble with the world as a frame of reference is that no single researcher is bound to have the in-depth knowledge and linguistic skills to discuss works from all countries. In response, this book revives literary theory and recasts it for the purposes of world literature by making a case for the continuing relevance of literature in the age of new media. With the examples of fictional and nonfictional writings by Milan Kundera, Witold Gombrowicz, and Bohumil Hrabal, Just shows that regional literatures offer differing methods of activating readers and thereby prompting personal change. This book would be of general interest to anyone who wants to explore personal change through literature but is particularly indispensable for literary professionals, researchers, and postgraduate and graduate students.

Writing Addiction University of Regina, Canadian Plains Research Center, 2004 The history of literature is replete with substance-dependent writers. The idea that addiction is a hazard of the author's life invites more interesting questions concerning the relationship between writing and addiction, the topic explored in this compilation that includes essays where authors confess, examine their personal addictions, discuss the act of writing, and the idea of addiction, and present critical essays on the works of such writers as William Styron, Emily Dickinson, and Virginia Woolf.

Everyday Ethics and Social Change Anna Lisa Peterson, 2009 Americans increasingly cite moral values as a factor in how they vote, but when we define morality simply in terms of a voter's position on gay marriage and abortion, we lose sight of the ethical decisions that guide our everyday lives. In our encounters with friends, family members, nature, and nonhuman creatures, we practice a nonutilitarian morality that makes sacrifice a rational and reasonable choice. Recognizing these everyday ethics, Anna L. Peterson argues, helps us move past the seemingly irreconcilable conflicts of culture and refocus on issues that affect

real social change Peterson begins by divining a second language for personal and political values a vocabulary derived from the loving and mutually beneficial relationships of daily life Even if our interactions with others are fleeting and fragmentary they provide a viable alternative to the contractual and atomistic attitudes of mainstream culture Everyday ethics point toward a more just humane and sustainable society and to acknowledge moments of grace in our daily encounters is to realize a different way of relating to people and nonhuman nature an alternative ethic to cynicism and rank consumerism In redefining the parameters of morality Peterson enables us to make fundamental problems such as the distribution of wealth the use of public land and natural resources labor and employment policy and the character of political institutions the preferred focus of debate and action

Narrative and Self-Understanding Garry L. Hagberg, 2019-11-15 This exciting new edited collection bridges the gap between narrative and self understanding The problem of self knowledge is of universal interest the nature or character of its achievement has been one continuing thread in our philosophical tradition for millennia Likewise the nature of storytelling the assembly of individual parts of a potential story into a coherent narrative structure has been central to the study of literature But how do we gain knowledge from an artform that is by definition fictional by definition not a matter of ascertained fact as this applies

to the understanding of our lives When we see ourselves in the mimetic mirror of literature what we see may not just be a matter of identifying with a single protagonist but also a matter of recognizing long form structures long arc narrative shapes that give a place to and thus make sense of the individual bits of experience that we place into those structures But of course at precisely this juncture a question arises do we make that sense or do we discover it The twelve chapters brought together here lucidly and steadily reveal how the matters at hand are far more intricate and interesting than any such dichotomy could accommodate This is a book that investigates the ways in which life and literature speak to each other *Modern*

Honor Anthony Cunningham,2013-08-21 This book examines the notion of honor with an eye to dissecting its intellectual demise and with the aim of making a case for honor s rehabilitation Western intellectuals acknowledge honor s influence but they lament its authority For Western democratic societies to embrace honor it must be compatible with social ideals like liberty equality and fraternity Cunningham details a conception of honor that can do justice to these ideals This vision revolves around three elements character being relationships relating and activities and accomplishment doing Taken together these elements articulate a shared aspiration for excellence We can turn the tables on traditional ills of honor serious problems of gender race and class by forging a vision of honor that rejects lives predicated on power and oppression

From West to East and Back Again Peter Roberts,2012-07-30 Of all the great Western novelists of the twentieth century the German writer Hermann Hesse is arguably one of the most important for educationists Paying particular attention to Hesse s last novel *The Glass Bead Game* and its immediate predecessor *The Journey to the East* this book suggests that Hesse was a man of the West who turned to the idea of the East in seeking to understand himself and his society From these later texts a rich complex theory of educational transformation emerges *From West to East and Back Again* examines the role of dialogue and uncertainty in the transformative process considers utopian and ritualistic elements in Hesse s work and explores the notion of education serving as a bridge between life and death Hesse s novels address philosophical themes and questions of enduring significance and this book will appeal to all who share an interest in human striving and growth
