The Hellenic Philosophy Between Europe Asia And Africa:

Hellenic Philosophy Christos C. Evangelizou, 2018-01-18 Tracing the historical origin and the critical development of Hellenic philosophy from vague and indeterminate beginnings to its classical maturity and fruition in the minds words and works of the Athenian philosophers Socrates Plato and Aristotle this book argues that dignified nobility respectful critique and unfettered freedom of thought and expression clearly defined the character of Classical Hellenic philosophy and that this distinguishes it from philosophies of different eras Evangelizou examines the historical influence of Hellenic philosophy and its complex global relations to other non Hellenic philosophies of Africa Asia and Europe and also considers certain contemporary and sensitive issues which relate to the nature of Western culture and European philosophy Radical and revisionary in nature this work challenges many of the long cherished myths about the influence of Classical Hellenic philosophy on the tradition of Western thought

The Wisdom of the Mystic East John Walbridge, 2001-08-03 An expert on the thought of medieval Islamic philosopher Suhrawardi argues that philosophers have romanticized this work as a revival of oriental wisdom **The Golden Chain** Algis Uzdavynys, 2004-09-22 The goal of the ancient philosophers was to understand how to live in harmony with nature and to transcend the limitations imposed by sense experience and discursive reasoning **Neoplatonism and Contemporary Thought** R. Baine Harris, 2001-11-20 Significant twentieth century thinkers offer views of Neoplatonism as having relevance to contemporary life and thought Specifically discussed is how Neoplatonism relates to contemporary science and contemporary philosophy including metaphysics and environmental thought Contributors include Jay Bregman John Charles Cooper Christos Evangelizou David Fideler Lewis S Ford F P Hager Curtis L Hancock Kelly Parker R Baine Harris Robert Meredith Helm Paul G Kuntz Peter Manchester Scott A Olsen Kelly Parker David Rodier Joseph Sen Huston Smith Atsushi Sumi and Michael F Wagner **The Antikythera Mechanism** Evaggelos G. Vallianatos, 2021-10-01 In Antikythera Mechanism The Story Behind the Genius of the Greek Computer and Its Demise Evaggelos Vallianatos historian and ecopolitical theorist shows that after the conquest of Persia by Alexander the Great in the late fourth century BCE the Greeks especially in Egypt reached unprecedented heights of achievements in science technology and civilization The Antikythera Mechanism an astronomical computer probably crafted in Rhodes in the second century BCE was proof of that prowess It s the grandfather of our computers Greek sponge divers discovered the Antikythera Mechanism in 1900 on a 2 100 year old Roman era shipwreck The hand powered device reveals a sophisticated Greek technology previously unknown to scholars and historians not seen and understood again until the twentieth and twenty first centuries The book not only describes how the sophisticated political and technological infrastructure of the Greeks after Alexander the Great resulted in the Antikythera celestial computer and the bedrock of science and technology we know today but also how the influence of

Christianity on Greek civilization destroyed the nascent computer age of ancient Greece Vallianatos born in Greece and educated in America is a historian author and journalist He is a passionate champion of Greek culture and a well suited guide to this historical account Vallianatos explains how and why Greek scientists employed advanced engineering in translating the beautiful conception of the Antikythera Mechanism into an astronomical computer of genius a bronze geared device of mathematical astronomy predicting the eclipses of the Sun and the Moon calculating the risings and settings of important stars and constellations and the movements of the planets around the Sun while mechanizing the predictions of scientific theories The computer s accurate calendar connected these cosmic phenomena to the Olympics and other major Panhellenic religious and athletic celebrations bringing the Greeks closer to their gods traditions and the Cosmos Themata Politica Christos C. Evangeliou,2021-01-20 This book is a collection of timely political articles and essays They focus primarily on political themes relevant to Greek Turkish relations the Cyprus problem the obstacles that Turkey faces in the EU and the problems that the US war on terror has created for them all Written by a person of Hellenic ancestry a trained philosopher sensitive poet and free spirit the items of this collection are characterized by frank talk freedom of thought fresh ideas and historical insights that penetrate the past sharply as they try to discern the future of humanity In these essays the author s love for things Hellenic is surely exaggerated But if anything in human history deserves excessive eulogy and praise it should be without doubt the Hellenic spirit and its passionate love of wisdom and freedom **The Heart of Islamic Philosophy** William C. Chittick,2001-10-11 This book introduces the work of an important medieval Islamic philosopher who is little known outside the Persian world Afdal al Din Kashani was a contemporary of a number of important Muslim thinkers including Averroes and Ibn al Arabi Kashani did not write for advanced students of philosophy but rather for beginners In the main body of his work he offers especially clear and insightful expositions of various philosophical positions making him an invaluable resource for those who would like to learn the basic principles and arguments of this philosophical tradition but do not have a strong background in philosophy Here Chittick uses Kashani and his work to introduce the basic issues and arguments of Islamic philosophy to modern readers On the Scope and Truth of Theology Robert C. Neville,2006-06-05 A genuinely fresh theological project that accounts for the interdisciplinary nature of religion and its discontents The Heart of Plotinus Algis Uždavinys,2009 **The Nature of Time: Geometry, Physics and Perception** R. Buccheri, Metod Saniga, William Mark Stuckey,2012-12-06 There are very few concepts that fascinate equally a theoretical physicist studying black holes and a patient undergoing seriolls mental psychosis Time undoubtedly can well be ranked among them For the measure of time inside a black hole is no less bizarre than the perception of time by a schizophrenic who may perceive it as completely suspended standing still or even reversing its direction The nature of time is certainly shrouded in profound mystery This perhaps since the concept entails multifarious and occasionally incongruous facets No wonder the subject attracts the serious attention of scholars on the one hand and of the lay public on the other Our Advanced Research

Workshop is an excellent illustration of this point as the reader will soon discover It turned out to be a unique professional forum for an unusually lively effective and fruitful exchange of ideas and beliefs among 48 participants from 20 countries worldwide selected out of more than a hundred applicants The present book is based on the select talks presented at the meeting and aims to provide the interested layperson and specialist alike with a multidisciplinary sampling of the most up to date scholarly research on the nature of time It represents a coherent state of the art volume showing that research relevant to this topic is necessarily interdisciplinary and does not ignore such delicate issues as altered states of consciousness religion and metaphysics

Shamanism Mariko Namba Walter, Eva Jane Neumann Fridman, 2004-12-15 A guide to worldwide shamanism and shamanistic practices emphasizing historical and current cultural adaptations This two volume reference is the first international survey of shamanistic beliefs from prehistory to the present day In nearly 200 detailed readable entries leading ethnographers psychologists archaeologists historians and scholars of religion and folk literature explain the general principles of shamanism as well as the details of widely varied practices What is it like to be a shaman Entries describe region by region the traits such as sicknesses and dreams that mark a person as a shaman as well as the training undertaken by initiates They detail the costumes music rituals artifacts and drugs that shamans use to achieve altered states of consciousness communicate with spirits travel in the spirit world and retrieve souls Unlike most Western books on shamanism which focus narrowly on the individual's experience of healing and trance Shamanism also examines the function of shamanism in society from social political and historical perspectives and identifies the ancient continuous thread that connects shamanistic beliefs and rituals across cultures and millennia

Freedom Evaggelos Vallianatos, 2025-02-01 In this book Vallianatos paints a picture of freedom in Greek history and civilization Freedom for the Greeks he says has been like breathing air He documents how freedom gave birth to the great achievements of Greek civilization The Greeks repeatedly defeated large invading Persian armies in early fifth century BCE Those heroic victories secured Greek and Western civilization Modern Greeks also won over large Turkish forces in the 1820s thus establishing the independence of Greece In 1940 the Greeks defeated a large Italian army winning the first victory of WWII The result of the triumph of freedom especially in ancient Greece Vallianatos says was an explosion of light Civilization bloomed with the craftsmanship of the Bronze Age 3 100 BCE the poetry of Homer the Olympics democracy Aristotle and his invention of science technology theater the Parthenon gorgeous art and architecture and the cosmic Greek influence of Alexander the Great and the Antikythera computer of genius in the second century BCE These Greek achievements influenced the founders of the American Republic They are still important for clear thinking and inspiration in support of our democracy They guide us to family farming and citizen soldiers always commanded by civilians This book may attract readers the world over Classics scholars students and tourists About 22 000 of them visit the Parthenon every day These Parthenon lovers would be interested in this book which in addition to its global overview of

Greek history includes a chapter explaining why the Parthenon has been the Soul of Greece Vallianatos argues that the Greeks are us They were reason and science as much as piety for the gods The Olympics celebrated Zeus The Athenians built the Parthenon to honor Athena daughter of Zeus The second century BCE Antikythera computer was designed to predict the eclipses of the Sun and the Moon both gods for the Greeks This book brings this intimate dimension of piety for the gods to the surface where it belongs This enables Vallianatos to retell Greek history as it actually happened In contrast many books about the Greeks ignore or malign Greek religion which distort the history and civilization of the Greeks *Endophysics, Time, Quantum And The Subjective - Proceedings Of The Zif Interdisciplinary Research Workshop (With Cd-rom)* Metod Saniga, Rosolino Buccheri, Avshalom C Elitzur, 2005-10-03 Endophysics Time Quantum and the Subjective is the first systematic cross and trans disciplinary appraisal of the endophysical paradigm and its possible role in our understanding of Nature Focusing on three of the most pressing issues of contemporary science the interpretation of quantum theory the nature of time and the problem of consciousness it provides the reader with some forefront research concepts and ideas in these areas such as incessant Big Bang geometrizing of mental space times and a contextual view of quantum mechanics and or a view of the Universe as a self evolving quantum automaton Although primarily aimed at academics this engaging volume can be read by anyone interested in modern physics philosophy psychology and cognitive sciences Freemasonry, Greek Philosophy, the Prince Hall Fraternity and the Egyptian (African) World Connection Keith Moore 32°, 2008-08-29

Freemasonry is a system of learning that has been recognized as a product of western civilization however what is not told is the influences by people of African descent This book describes the contributions to freemasonry from the ancient African civilizations of Egypt Nubia and pre Islamic Arabia It is designed to give the reader a deeper understanding of its origins as well as its connection to world civilizations and world religion all of which has an African presence This book will also look at the universe of African American Masonic organizations from the early 18th century to the 20th century America which ranged from the origins of prince hall freemasonry to Black Nationalist and esoteric religious sects like the Moorish Science Temple of America the UNIA and several other offshoots Contrary to prior accounts African American Freemasonry was concerned with far more than simply acknowledgement and respectability The book will demonstrate that Freemasonry played a critical role in history politics and African American social life I discuss such topics as the impact of Greek philosophy on western civilization the rise of Islam and its impact on the African continent and finally the grandeur and accomplishments of the moors of Spain African people have been at the very core of this rich foundation In addition I discuss the comparisons between the ancient Egyptian civilization and modern day freemasonry I explore its symbolism as well as the esoteric foundations that freemasonry relies so heavily upon Once freemasonry reach the western hemisphere it became a tool for influencing Europe s elite Moreover my research covers the history of the knight s of Europe and the origins of european chivalry and how Arabic poetry played an important role in its establishment Additional topics include Napoleon
