The riveting true account of a remarkable season it is the story of how a group of forgotten college basketball players aided by a pair of refugees from Nazi Germany and a group of daring student activists not only blazed a trail for a new kind of America but helped create one of the most meaningful moments in **Empires of Ideas** William C. Duke University John M. Bryan, 2000-10 Duke University was officially founded in 1924 Until 1950 it was designed primarily by Julian Abele one of the few professional African American architects working in the United States at that time The campus architecture is best known for its medieval style Gothic buildings notably Duke Chapel **Private Higher Education in the South** Melissa Kean, 2008-10-15 After World War II elite private universities in the South faced growing calls for desegregation Though unlike their peer public institutions no federal court ordered these schools to admit black students and no troops arrived to protect access to the schools to suggest that desegregation at these universities took place voluntarily would be misleading In Desegregating Private Higher Education in the South Melissa Kean explores how leaders at five of the region s most prestigious private universities Duke Emory Rice Tulane and Vanderbilt sought to strengthen their national position and reputation while simultaneously answering the increasing pressure to end segregation To join the upper echelon of U S universities these schools required increased federal and northern philanthropic funding Clearly to receive this funding schools had to eliminate segregation and so a rift appeared within the leadership of the schools University presidents generally favored making careful accommodations in their racial policies for the sake of academic improvement but universities boards of trustees the presidents main opponents served as the final decision makers on university policy Board members usually comprised of professional white male alumni reacted strongly to threats against southern white authority and resisted determinedly any outside attempts to impose desegregation. The grassroots civil rights movement created a national crisis of conscience that led many individuals and institutions vital to the universities survival to insist on desegregation. The schools felt enormous pressure to end discrimination as northern foundations withheld funding accrediting bodies and professional academic associations denied membership divinity students and professors chose to study and teach elsewhere and alumni withheld contributions The Brown v Board of Education decision in 1954 gave the desegregation debate a sense of urgency and also inflamed tensions which continued to mount into the early 1960s These tensions and the boards resistance to change created an atmosphere of crisis that badly eroded their cherished role as southern leaders When faced with the choice between institutional viability and segregation Kean explains they gracelessly relented refusing to the end to admit they had been pressured by outside forces Shedding new light on a rare unexamined facet of the civil rights movement Desegregating Private Higher Education in the South fills a gap in the history of the

Turner, 2010 In Sitting In and Speaking Out Jeffrey A Turner examines student movements in the South to grasp the nature of activism in the region during the turbulent 1960s Turner argues that the story of student activism is too often focused on national groups like Students for a Democratic Society and events at schools like Columbia University and the University of California at Berkeley Examining the activism of black and white students he shows that the South responded to national developments but that the response had its own trajectory one that was rooted in race Turner looks at such events as the initial desegregation of campuses integration s long aftermath as students learned to share institutions the Black Power movement and the antiwar movement Escalating protest against the Vietnam War tested southern distinctiveness says Turner The South's tendency toward hawkishness impeded antiwar activism but once that activism arrived it was as in other parts of the country oriented toward events at national and global scales Nevertheless southern student activism retained some of its core characteristics Even in the late 1960s southern protesters demands tended toward reform often eschewing calls to revolution increasingly heard elsewhere Based on primary research at more than twenty public and private institutions in the deep and upper South including historically black schools Sitting In and Speaking Out is a wide ranging and sensitive portrait of southern students Jack Coombs John P.
