Nested Ecologies Rosalynn A. Vega, 2023-04-11 How functional medicine leverages systems biology and epigenetic science to treat the microbiome and reverse chronic disease Each body is a system within a system an ecology within the larger context of social political economic cultural and environmental factors This is one of the lessons of epigenetics whereby structural inequalities are literally encoded in our genes But our ecological embeddedness extends beyond DNA for each body also teems with trillions of bacteria yeast and fungi all of them imprints of

our individual milieus Nested Ecologies asks what it would mean to take seriously our microbial being given that our internal ecologies are shaped by inequalities embedded in our physical and social environments Further Rosalynn Vega argues that health practices focused on patients unique biology inadvertently reiterate systemic inequities In particular functional medicine which attempts to heal chronic disease by leveraging epigenetic science and treating individual microbiomes reduces illness to problems of lifestyle principally diet while neglecting the inability of poor people to access nutrition Functional medicine thus undermines its own critique of the economics of health care Drawing on novel digital ethnographies and reflecting on her own experience of chronic illness Vega challenges us to rethink not only the determinants of well being but also what it is to be human

Activate Brand Purpose Scott Goodson, Chip Walker, 2021-03-03 SHORTLISTED Business Book Awards 2022 International Business Book category CATEGORY SILVER WINNER Axiom Awards 2022 Business Commentary Category The greatest challenge facing leaders is activating and actioning purpose based brands to the people who matter inside the company and out Recent statistics prove that more than 87% of consumers would purchase a product because a company advocated for an issue they cared about and more than two thirds would refuse to do so if the company supported an issue contrary to their beliefs We

live in an age of activism the conscious consumer is more socially aware than ever before and this is reflected in their buying habits Yet activism on behalf of brands is lagging While many claim to be purpose driven far too often this purpose is relegated to a plaque above the CEO s desk and never goes any further Or worse the purpose is transparently used as a marketing ploy but never acted upon in any real way Activate Brand Purpose shows readers how to transform their brand s purpose into meaningful action by sparking a company wide cultural movement beginning internally and permeating externally Regardless of whether your purpose is lofty and socially conscious or all business focus on galvanizing people and they will respond if you can prove that you care about that purpose and that you re working to realize it rather than simply chasing the next dollar This book contains a clearly explained proven framework that will make this happen **The Final Revolution** George Weigel,2003-09-18 The collapse of communism in central and eastern Europe the Revolution of 1989 was a singularly stunning event in a century already known for the unexpected How did people divided for two generations by an Iron Curtain come so suddenly to dance together atop the Berlin Wall Why did people who had once seemed resigned to their fate suddenly take their future into their own hands Some analysts have explained the Revolution in economic terms arguing that the Warsaw Pact countries could no longer compete with the West But as George Weigel argues in this thought provoking volume people don t put their lives and their children s futures in harm s way simply for better cars refrigerators and TVs Something else something more had to happen behind the iron curtain before the Wall came tumbling down In *The Final Revolution* Weigel argues that that something was a revolution of conscience The human turn to the good to the truly human and ultimately to God was the key to the political Revolution of 1989 Weigel provides an in depth exploration of how the Catholic Church shaped the moral revolution inside the political revolution Drawing on extensive interviews with key leaders of the human rights and resistance movements he opens a unique window into the soul of the Revolution and into the hearts and minds of those who shaped this stirring vindication of the human spirit Weigel also examines the central role played by Pope John Paul II in confronting what V clav Havel called communism s culture of the lie and he suggests what the future role of the Church might be in consolidating democracy in the countries of the old Warsaw Pact The final revolution is not the end of history Weigel concludes It is the human quest for a freedom that truly satisfies the deepest yearnings of the human heart *The Final Revolution* illustrates how that quest changed the face of the twentieth century and redefined world politics in the year of miracles 1989 **The Columbia Anthology of Chinese Folk and Popular Literature** Victor H. Mair,Mark Bender,2011 In *The Columbia Anthology of Chinese Folk and Popular Literature* two of the world s leading sinologists Victor H Mair and Mark Bender capture the breadth of China s oral based literary heritage This collection presents works drawn from the large body of oral literature of many of China s recognized ethnic groups including the Han Yi Miao Tu Daur Tibetan Uyghur and Kazak and the selections include a variety of genres Chapters cover folk stories songs rituals and drama as well as epic traditions and professional storytelling and feature both familiar and little known texts from

the story of the woman warrior Hua Mulan to the love stories of urban storytellers in the Yangtze delta the shaman rituals of the Manchu and a trickster tale of the Daur people from the forests of the northeast The Cannibal Grandmother of the Yi and other strange creatures and characters unsettle accepted notions of Chinese fable and literary form Readers are introduced to antiphonal songs of the Zhuang and the Dong who live among the fantastic limestone hills of the Guangxi Zhuang Autonomous Region work and matchmaking songs of the mountain dwelling She of Fujian province and saltwater songs of the Cantonese speaking boat people of Hong Kong The editors feature the Mongolian epic poems of Geser Khan and Jangar the sad tale of the Qeo family girl from the Tu people of Gansu and Qinghai provinces and local plays known as rice sprouts from Hebei province These fascinating juxtapositions invite comparisons among cultures styles and genres and expert translations preserve the individual character of each thrillingly imaginative work
