Life of Constantine Eusebius Pamphilius, 2020-11-05 The life of Constantine was written by Eusebius of Caesarea 260-339 AD in the 4th century in honour of Constantine the Great 272-337 AD However Eusebius died before he could finish the work Nevertheless the book is considered a valuable work both for providing a semi-bibliographic account of Constantine from someone who knew him personally and for providing a rare window into the religious practices of the early Christian church The work also includes Eusebius' own concerns about differences of opinion in church doctrine The work is considered a valuable primary source for understanding how Christianity first started to become the state religion under its perhaps most famous Roman emperor Constantine who later would be declared a saint by both the Catholic and Orthodox churches The source text for this book is Church history Life of Constantine the Great and Oration in Praise of Constantine New York Christian Literature Co Oxford Parker 1890 translated by Ernest Cushing Richardson 1860-1939 edited by Henry Wace 1836-1924 and Philip Schaff 1819-1893 This version of the work includes the original footnotes along with illustrations of Constantine on coins and in artwork

dawn of history like the morning star and his rank and fame among the world's noblest and most highly civilized is still on the tongues of Christians of all denominations. Moreover, even though he is best remembered for his religious reforms and what his mostly Christian admirers described as his spiritual enlightenment, Constantine was also an able and effective ruler in his own right. Rising to power in a period of decline and confusion for the Roman Empire, he gave it a new and unexpected lease on life by repelling the repeated invasions of the Germanic tribes on the Northern and Eastern borders of the Roman domains, even going so far as to re-expand the frontier into parts of Trajan's old conquest of Dacia (modern Romania), which had been abandoned as strategically untenable. However, it can be argued that despite his military successes, the most notable of which occurred fighting for supremacy against other Romans, Constantine may well have set the stage for the ultimate collapse of the Roman Empire as it had existed up until that point. It was Constantine who first decided that Rome, exposed and vulnerable near the gathering masses of barbarians moving into Germania and Gaul, was a strategically unsafe base for the Empire and thus expanded the city of New Rome on the Dardanelles straits, creating what eventually became Constantinople. By moving the political, administrative, and military capital of the Empire from Rome to the East, as well as the Imperial court with all its attendant followers, Constantine laid the groundwork for the eventual schism which saw the two parts of the Roman Empire become two entirely separate entities, go their own way, and eventually collapse piecemeal under repeated waves of invasion.

Life of Constantine Eusebius Of Caesarea, Eusebius of Caesarea, 2023-05

Life of Constantine the Great is a panegyric written in Greek in honor of Constantine the Great by Eusebius of Caesarea in the 4th century AD. It was never completed due to the death of Eusebius in 339.

Life Of Constantine By Eusebius Commented Eusebius Of Caesarea, 2021-04-25

There probably was not in the whole church during the first decade of the fourth century a more learned Christian than Eusebius of Caesarea. Phrases such as the one quoted at the beginning of this chapter, however, have led many historians to claim that Eusebius capitulated to imperial power. In the opinion of these historians, Eusebius was a man of weak character who, when surrounded by the pomp of the Empire, bowed before her and stood to serve the emperor's interests rather than those of Jesus Christ. But before venturing to make this judgment, it is convenient for us to pause to recount the life and work of this wise Christian so as to better understand his reactions and attitudes.
