**Southern Hyperboles** Michał Choiński, 2020-05-06 In Southern Hyperboles Metafigurative Strategies of Narration Michał Choiński confronts the often paradoxical and excessive elements of southern literature focusing on dominant narrative modes and representation strategies in works produced from the early 1930s to the late 1950s With renewed attention to renderings of the gothic and grotesque Choiński argues that modernist literature from the U S South often deploys the trope of hyperbole which escalates contrasts and disrupts the sense of the normal By focusing on how writers processed the South via narratives of hyperbolic excess Southern Hyperboles explores a mode of comprehension forged from the tensions of a segregated patriarchal society driven by racial and social decorum Moving chronologically Choiński traces distinct manifestations of
