

THE MAKING OF AN INSURRECTION

Parisian Sections and the Gironde

Morris Slavin

INSURRECTION

Parisian Sections and the Gironde

Morris Slavin

The insurrection of 31 May-2 June 1793 that overthrew the Girondins and brought the Montagnards to power was a decisive event in the history of the French Revolution. Morris Slavin's study is the first that discusses the background, the mechanisms, and the immediate results of the uprising, as well as the hidden forces that produced it and the contradictions that were inherent in it from the beginning.

Slavin's approach to the controversy between the Gironde and the Mountain is from below (*à la base*), from the vantage point of the sections of Paris and their extralegal assembly, the *Eclaireur* assembly, and its *Comité des Neuf*. He shows how and why the Montagnards used the insurrectionary organs created by the sans-culottes for their own purposes, and how the Montagnards won them over against their Girondin enemies by granting the sans-culottes economic concessions, at the same time disarming them politically. This revelation of the profound differences between the sans-culottes and the Montagnards on the goals of the insurrection is a major contribution to understanding French revolutionary behavior.

Slavin finds that the rank and file in the pro-Girondin sections were just as self-sacrificing and just as patriotic as the followers of the Mountain. The dispute between the Girondins and the Montagnards was an intraclass contest, not a class struggle.

A Loxley

The Making Of An Insurrection Parisian Sections And The Gironde:

The Making of an Insurrection Morris Slavin, 1986 The insurrection of 31 May 2 June 1793 that overthrew the Girondins and brought the Montagnards to power was a decisive event in the history of the French Revolution Morris Slavin's study is the first that discusses the background the mechanisms and the immediate results of the uprising as well as the hidden forces that produced it and the contradictions that were inherent in it from the beginning Slavin's approach to the controversy between the Gironde and the Mountain is from below d'en bas from the vantage point of the sections of Paris and their extralegal assembly the Eveche assembly and its Comite des Neuf He shows how and why the Montagnards used the insurrectionary organs created by the sans culottes for their own purposes and how the Montagnards won them over against their Girondin enemies by granting the sans culottes economic concessions at the same time disarming them politically This revelation of the profound differences between the sans culottes and the Montagnards on the goals of the insurrection is a major contribution to understanding French revolutionary behavior Slavin finds that the rank and file in the pro Girondin sections were just as self sacrificing and just as patriotic as the followers of the Mountain The dispute between the Girondins and the Montagnards was an intraclass contest not a class struggle

Visions and Revisions of Eighteenth-Century France Christine Adams, Lisa Jane Graham, Jack R. Censer, 2005-08-18 This volume brings together eight essays all but one previously unpublished that offer innovative strategies for studying society and culture in eighteenth century France Divided into three sections the chapters map out current research paths in social cultural and political history The authors engage the most heated subjects of debate in the field today including the changing nature of political life in the age of Enlightenment the role of public opinion in undermining absolutism and the impact of gender on social relationships and political language in the late eighteenth century They demonstrate a marked interest in the lives of ordinary and humble French people finding that exclusion from the main corridors of power fostered cunning and resourcefulness not political indifference or ignorance The articles encompass the Old Regime and the revolutionary era without falling into the teleological trap of using the former as the backdrop for the events of 1789 On the contrary many of the authors consciously avoid this bias by investigating the Old Regime in its own right or by consciously linking the pre and postrevolutionary eras This decision alone marks an important turning of the tide By establishing a dialogue between the Old Regime and the revolution this volume implicitly pays homage to those historians who insist on the structural continuities that underlay the rupture of 1789 Contributors are Cissie Fairchild Christine Adams Orest Ranum Lisa Jane Graham Harvey Chisick John Garrigus Lenard Berlanstein and Jack Censer

The Oxford Handbook of the French Revolution David Andress, 2015 The Oxford Handbook of the French Revolution brings together a sweeping range of expert and innovative contributions to offer engaging and thought provoking insights into the history and historiography of this epochal event Each chapter presents the foremost summations of academic thinking on key topics along with stimulating and provocative interpretations and

suggestions for future research directions Placing core dimensions of the history of the French Revolution in their transnational and global contexts the contributors demonstrate that revolutionary times demand close analysis of sometimes tiny groups of key political actors whether the king and his ministers or the besieged leaders of the Jacobin republic and attention to the deeply local politics of both rural and urban populations Identities of class gender and ethnicity are interrogated but so too are conceptions and practices linked to citizenship community order security and freedom each in their way just as central to revolutionary experiences and equally amenable to critical analysis and reflection This Handbook covers the structural and political contexts that build up to give new views on the classic question of the origins of revolution the different dimensions of personal and social experience that illuminate the political moment of 1789 itself the goals and dilemmas of the period of constitutional monarchy the processes of destabilisation and ongoing conflict that ended that experiment the key issues surrounding the emergence and experience of terror and the short and long term legacies for both good and ill of the revolutionary trauma for France and for global politics

Politics in the Marketplace Katie L. Jarvis, 2019

Politics in the Marketplace integrates politics economics and gender to ask how the Dames des Halles invented notions of citizenship through everyday trade during the French Revolution While analyzing how marketplace actors shaped nascent democracy and capitalism it challenges the interpretation that revolutionary citizenship was inherently masculine from the outset

Karl Marx's Theory of Revolution Vol V Hal Draper, Ernest Haberkern, 2010-01-01

Marx and Engels views on war revolution and the relation between the two evolved over time in response to the turbulent political and military history of the nineteenth century The result has been widespread confusion among historians and in the socialist movement The tendency has been to search for quotes which will buttress the writer's own views and exhibit it as what Marx said This book tries to clear up the confusion and misrepresentation

Choosing Terror Marisa Linton, 2015-06-04

Choosing Terror Virtue Friendship and Authenticity in the French Revolution examines the leaders of the French Revolution Robespierre and his fellow Jacobins and particularly the gradual process whereby many of them came to choose terror These men led the Jacobin Club between 1789 and 1794 and were attempting to establish new democratic politics in France Exploring revolutionary politics through the eyes of these leaders and against a political backdrop of a series of traumatic events wars and betrayals Marisa Linton portrays the Jacobins as complex human beings who were influenced by emotions and personal loyalties as well as by their revolutionary ideology The Jacobin leaders' entire political careers were constrained by their need to be seen by their supporters as men of virtue free from corruption and ambition and concerned only with the public good In the early stages of the Revolution being seen as men of virtue empowered the Jacobin leaders and aided them in their efforts to forge their political careers However with the onset of war there was a growing conviction that political leaders who feigned virtue were the enemy within secretly conspiring with France's external enemies By Year Two the year of the Terror the Jacobin identity had become a destructive force in order to demonstrate their own authenticity they had to be seen to act

virtuously and be prepared if the public good demanded it to denounce and destroy their friends and even to sacrifice their own lives This desperate thinking resulted in the politicians terror one of the most ruthless of all forms of terror during the Revolution Choosing Terror seeks neither to cast blame nor to exonerate but to understand the process whereby such things can happen *Bureaucrats and Bourgeois Society* R. Kingston,2012-10-19 Between 1789 and 1848 clerks modified their occupational practices responding to political scrutiny and state administration reforms Ralph Kingston examines the lives and influence of bureaucrats inside and outside the office as they helped define nineteenth century bourgeois social capital ideals of emulation honour and masculinity The French Revolution and the People David Andress,2006-08-23 The French Revolution of 1789 was the central event of modern history For the first time a major nation fell prey to political and then social revolution with civil war and the Reign of Terror following the execution of Louis XVI in January 1793 Although the Revolution started with the resistance of a minority to absolutist government it soon spread to involve the whole nation including the men and women who made up by far the largest part of it the peasantry as well as towns and craftsmen the poor and those living on the margins of society The French Revolution and the People is a portrait of the common people of France in the towns and in the countryside in Paris and Lyon in the Vendee Brittany Provence Popular grievances and reactions affected the events and outcome of the Revolution at all stages and in turn everyone in France was affected by the Revolution The French Revolution and the People is a vivid story of conflict violence and death but there were winners as well as losers and not all the suffering was in vain as the injustices of the Ancien Regime were thrown off *Remembering Early Modern Revolutions* Edward Vallance,2018-10-08 Remembering Early Modern Revolutions is the first study of memory in relation to the major revolutions of the early modern period Beginning with the English revolutions of the seventeenth century 1642 60 and 1688 9 this book also explores the American French and Haitian revolutions Through addressing these events collectively this volume demonstrates the interconnectedness of these revolutions in the contemporary mind and highlights the importance of invoking the memory of prior revolutions in order both to warn of the dangers of revolution and to legitimate radical political change It also unpicks the different ways in which these events were presented and their memory utilised uncovering the importance of geographical and temporal contexts to the processes of remembering and forgetting Examining both personal and collective remembrance and exploring both private recollection and public commemoration Remembering Early Modern Revolutions uncovers the rich and powerful memory of revolution in the Atlantic world and is ideal for students and teachers of memory in the early modern period Murder in the Rue Marat Thomas Crow,2025-11-04 How an enigmatic masterpiece of the French Revolution became a talisman of the revolutionary spirit in our own time Jacques Louis David s The Death of Marat depicts the painter s friend and fellow revolutionary Jean Paul Marat collapsed in his bath after being fatally stabbed by a female assassin who stands just outside the frame In this fascinating book Thomas Crow traces the radical legacy of a painting that has been called the Piet of the French Revolution

showing how David's masterpiece captures the saga of that violent era in the single figure of Marat and how it reveals itself anew today Crow begins by describing how the painting's enduring power came to the fore during the countercultural tumult of the 1960s discussing how his vocation as a scholar arose out of his own encounter with the work He then takes readers back to 1793 telling the story of the painting's creation through the eyes of David his subject and Marat's charismatic assassin Charlotte Corday Charting the history of its impact across more than two centuries Crow shows how this multilayered portrait surfaced in succeeding waves of political dissent as an enduring talisman of popular insurgency Beautifully illustrated *Murder in the Rue Marat* is an art historian's disarmingly personal account of a painting whose hidden complexities bear witness to the promise and peril of revolution in Marat's time and our own

Decoding **The Making Of An Insurrection Parisian Sections And The Gironde**: Revealing the Captivating Potential of Verbal Expression

In a time characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force.
