The Making Of The Cold War Enemy Culture And Politics In The Military Intellectual Complex:

The Making of the Cold War Enemy Ron Theodore Robin, 2003-01-26 He reveals how the academics intolerance for complexity ultimately reduced the nation s adversaries to borderline psychotics ignored revolutionary social shifts in post World War II Asia and promoted the notion of a maniacal threat facing the United States Cold War Cultures Annette Vowinckel, Marcus M. Payk, Thomas Lindenberger, 2012 The Cold War was not only about the imperial ambitions of the super powers their military strategies and antagonistic ideologies It was also about conflicting worldviews and their correlates in the daily life of the societies involved The term Cold War Culture is often used in a broad sense to describe media influences social practices and symbolic representations as they shape and are shaped by international relations Yet it remains in question whether or to what extent the Cold War Culture model can be applied to European societies both in the East and the West While every European country had to adapt to the constraints imposed by the Cold War individual development was affected by specific conditions as detailed in these chapters This volume offers an important contribution to the international debate on this issue of the Cold War impact on everyday life by providing a better understanding of its history and legacy in Eastern and Western Europe The Cold War Spencer C. Tucker, 2020-10-27 This sweeping reference work covers every aspect of the Cold War from its ignition in the ashes of World War II through the Berlin Wall and the Cuban Missile Crisis to the collapse of the Soviet Union in 1991 The Cold War superpower face off between the Soviet Union and the United States dominated international affairs in the second half of the 20th century and still reverberates around the world today This comprehensive and insightful multivolume set provides authoritative entries on all aspects of this world changing event including wars new military technologies diplomatic initiatives espionage activities important individuals and organizations economic developments societal and cultural events and more This expansive coverage provides readers with the necessary context to understand the many facets of this complex conflict The work begins with a preface and introduction and then offers illuminating introductory essays on the origins and course of the Cold War which are followed by some 1 500 entries on key individuals wars battles weapons systems diplomacy politics economics and art and culture Each entry has cross references and a list of books for further reading The text includes more than 100 key primary source documents a detailed chronology a glossary and a selective bibliography Numerous illustrations and maps are inset throughout to provide additional context to the material **The Cold War** Priscilla Roberts, 2018-12-07 This detailed two volume set tells the story of the Cold War the dominant international event of the second half of the 20th century through a diverse selection of primary source documents One of the most extensive to date this set of primary source documents studies the Cold War comprehensively from its beginning with the emergence of the world s first communist government in Russia in late 1917 to its end in 1991 All of the key events including the Berlin Blockade the Korean War the Cuban Missile Crisis the Vietnam War and the nuclear arms race are discussed in detail The primary sources provide insight into the thinking of all participants

drawing on Western Soviet Asian and Latin American perspectives In *The Cold War Interpreting Conflict through Primary Documents* primary documents are organized chronologically allowing readers to appreciate the ramifications of the Cold War within a clear time frame Extensive interpretive commentary provides in depth background and context for each document This work is an indispensable reference for all readers seeking to become deeply knowledgeable about the Cold War

The Other Cold War Heonik Kwon, 2010-12-06 In this conceptually bold project Heonik Kwon uses anthropology to interrogate the cold war's cultural and historical narratives Adopting a truly panoramic view of local politics and international events he challenges the notion that the cold war was a global struggle fought uniformly around the world and that the end of the war marked a radical universal rupture in modern history Incorporating comparative ethnographic study into a thorough analysis of the period Kwon upends cherished ideas about the global and their hold on contemporary social science His narrative describes the slow decomposition of a complex social and political order involving a number of local and culturally creative processes While the nations of Europe and North America experienced the cold war as a time of long peace postcolonial nations entered a different reality altogether characterized by vicious civil wars and other exceptional forms of violence Arguing that these events should be integrated into any account of the era Kwon captures the first sociocultural portrait of the cold war in all its subtlety and diversity

Environmental Histories of the Cold War J. R. McNeill, Corinna R. Unger, German Historical Institute (Washington, D.C.), 2010-04-30 Explores the links between the Cold War and the global environment ranging from the environmental impacts of nuclear weapons to the political repercussions of environmentalism

The Cold War Konrad H. Jarausch, Christian Ostermann, Andreas Etges, 2017-02-06 The traces of the Cold War are still visible in many places all around the world It is the topic of exhibits and new museums of memorial days and historic sites of documentaries and movies of arts and culture There are historical and political controversies both nationally and internationally about how the history of the Cold War should be told and taught how it should be represented and remembered While much has been written about the political history of the Cold War the analysis of its memory and representation is just beginning Bringing together a wide range of scholars this volume describes and analyzes the cultural history and representation of the Cold War from an international perspective That innovative approach focuses on master narratives of the Cold War places of memory public and private memorialization popular culture and schoolbooks Due to its unique status as a center of Cold War confrontation and competition Cold War memory in Berlin receives a special emphasis With the friendly support of the Wilson Center

Cold War University Matthew Levin, 2013-07-17 As the Cold War between the United States and the Soviet Union escalated in the 1950s and 1960s the federal government directed billions of dollars to American universities to promote higher enrollments studies of foreign languages and cultures and especially scientific research In *Cold War University* Matthew Levin traces the paradox that developed higher education became increasingly enmeshed in the Cold War struggle even as university campuses became centers of opposition to Cold War

policies The partnerships between the federal government and major research universities sparked a campus backlash that provided the foundation Levin argues for much of the student dissent that followed At the University of Wisconsin in Madison one of the hubs of student political activism in the 1950s and 1960s the protests reached their flashpoint with the 1967 demonstrations against campus recruiters from Dow Chemical the manufacturers of napalm Levin documents the development of student political organizations in Madison in the 1950s and the emergence of a mass movement in the decade that followed adding texture to the history of national youth protests of the time He shows how the University of Wisconsin tolerated political dissent even at the height of McCarthyism an era named for Wisconsin's own virulently anti Communist senator and charts the emergence of an intellectual community of students and professors that encouraged new directions in radical politics Some of the events in Madison especially the 1966 draft protests the 1967 sit in against Dow Chemical and the 1970 Sterling Hall bombing have become part of the fabric of The Sixties touchstones in an era that continues to resonate in contemporary culture and politics

Non-Aligned Psychiatry in the Cold War Ana Antić, 2022-01-18 This book explores the relationship between socialist psychiatry and political ideology during the Cold War tracing Yugoslav psy sciences as they experienced multiple internationalisations and globalisations in the post WWII period These unique transnational connections with West East and South remain at the centre of this book The author argues that the psy disciplines provide a window onto the complications of Cold War internationalism offering an opportunity to re think postwar Europe's internal dynamics She tells an alternative pan European narrative of the post 1945 period demonstrating that in the Cold War there existed sites of collaboration and vigorous exchange between the two ideologically opposed camps and places like Yugoslavia provided a meeting point where ideas frameworks and professional and cultural networks from both sides of the Iron Curtain could overlap and transform each other Moreover the book offers the first analysis of East European psychiatrists contacts with and contributions to the decolonizing world exploring their participation in broader political discussions about decolonization anti imperialism and non alignment The Yugoslav brand of East West psychoanalysis and psychotherapy bred a truly unique intellectual framework which enabled psychiatrists to think through a set of political and ideological dilemmas regarding the relationship between individuals and social structures This book offers a thorough reinterpretation of the notion of communist psychiatry as a tool used solely for political oppression and instead emphasises the political interventions of East European psychiatry and psychoanalysis This monograph has partly been funded by the European Research Council ERC under the European Union's Horizon 2020 research and innovation programme ERC Starting Grant DECOLMAD 851871

Globalization and War Tarak Barkawi, 2006 Examining the interconnections between globalization and war Barkawi Centre of International Studies U of Cambridge UK first analyzes how war interconnects and reshapes places and how developments in the nature and utility of military force shape transregional and worldwide contexts utilizing the relations among India the British empire and the Indian Army as illustrative material He then

examines cultural dimensions of war and globalization such as geographic imaginaries of a modern and advance West and a barbarous Orient The themes developed in these chapters are then applied to the War on Terror
