The Man From There:

The Man Who Was There Wright Morris, 2022-08-05 When it first appeared in 1945 this novel disconcerted a good many critics Agee Ward the man who was there of the title ostensibly is the man who is not there a member of the armed forces in World War II he has been reported missing in action Yet as we are shown various views of Agee and how he continues to affect the lives of others among them Grandma Herkimer and Private Reagan who knew him in boyhood Peter Spavic and Mrs Krickbaum who refuse to believe that he is missing Miss Gussie Newcomb his landlady and to her surprise his heir we come to perceive what Agee had in mind when he said that anything really alive just went on and on The Man Who Wasn't There Pat Barker, 2001-04-07 Twelve year old Colin Harper weaves together movies and real life in an attempt to create an understanding of what his father was like and what it means to be a man The Man Who Wasn't There Anil Ananthaswamy, 2016-08-02 In the tradition of Oliver Sacks science journalist Anil Ananthaswamy skillfully inspects the bewildering connections among brain body mind self and society by examining a range of neuropsychological ailments from autism and Alzheimer s to out of body experiences and body integrity identity disorder Award winning science writer Anil Ananthaswamy smartly explores the concept of self by way of several mental conditions that eat away at patients identities showing we learn a lot about being human from people with a fragmented or altered sense of self Ananthaswamy travelled the world to meet those who suffer from maladies of the self interviewing patients psychiatrists philosophers and neuroscientists along the way He charts how the self is affected by Asperger s autism Alzheimer s epilepsy schizophrenia among many other mental conditions revealing how the brain constructs our sense of self Each chapter is anchored with stories of people who experience themselves differently from the norm Readers meet individuals in various stages of Alzheimer s disease where the loss of memory and cognition results in the loss of some aspects of the self We meet a woman who recalls the feeling of her first major encounter with schizophrenia which she describes as an outside force controlling her Ananthaswamy also looks at several less familiar conditions such as Cotard s syndrome in which patients believe they are dead and those with body integrity identity disorder where the patient seeks to have a body part amputated because it doesn't belong to them Moving nimbly back and forth from the individual stories to scientific analysis *The Man Who Wasn't There* is a wholly original exploration of the human self which raises fascinating questions about the mind body connection
