Lacan's Écrits Derek Hook, Calum Neill, Stijn Vanheule, 2022-02-15 Reading Lacan's crits is the first extensive set of commentaries on the complete edition of Lacan's crits to be published in English. This third volume provides an indispensable companion piece to some of Lacan's most crucial and notoriously challenging writings from Logical Time to Response to Jean Hyppolite and including The Function and Field of Speech Variations on the Standard Treatment and Presentation on Transference. With the contributions of some of the world's most renowned Lacanian scholars and analysts such as Bernard Burgoyne, Marc De Kesel, and Russell Grigg, this volume encompasses a series of systematic paragraph-by-paragraph commentaries which not only contextualize, explain, and interrogate Lacan's arguments but afford the reader multiple interpretive routes through the complete edition of Lacan's most labyrinthine of texts. As there is no existing set of exhaustive commentaries on Lacan's crits available in English, this volume acts as an essential and incisive reference text for psychoanalysts and psychoanalytic psychotherapists in training and in practice, as well as philosophers, cultural theorists, and literary, social science, and humanities researchers. Considering the significance of crits as a landmark in the history of psychoanalysis, this far-reaching and accessible guide will sustain and continue to animate critical engagement with one of the most challenging intellectual works of the twentieth century.

International Handbook of Mathematical Learning

Difficulties Annemarie Fritz, Vitor Geraldi Haase, Pekka Räsänen, 2019-01-30 This comprehensive volume provides teachers, researchers, and education professionals with cutting-edge knowledge developed in the last decades by the educational, behavioural, and neurosciences, integrating cognitive, developmental, and socioeconomic approaches to deal with the problems children face in learning mathematics. The neurocognitive mechanisms and the cognitive processes underlying acquisition of arithmetic abilities and their significance for education have been the subject of intense research in the last few decades, but the most part of this research has been conducted in non-applied settings, and there's still a deep discrepancy between the level of scientific knowledge and its implementation into actual educational settings. Now it's time to bring the results from the laboratory to the classroom. Apart from bringing the theoretical discussions to educational settings, the volume presents a wide range of methods for early detection of children with risks in mathematics learning and strategies to develop effective interventions based on innovative cognitive test instruments. It also provides insights to translate research knowledge into public policies in order to address socioeconomic issues. And it does so from an international perspective, dedicating a whole section to the cultural diversity of mathematics learning difficulties in different parts of the world. All of this makes the International Handbook of Mathematical Learning Difficulties an essential tool for those involved in the daily struggle to prepare the future generations to succeed in the global knowledge society.

Philosophy for Militants Michael Munro, 2017

No longer imminent, the End is immanent. Ends are ends. Frank Kermode goes on to clarify only when they are not negative, but frankly transfigure the events in which they were immanent. From its imminence to its immanence, not negative, no longer

but transformative how is the End in turn transfigured In what may ending be said then to consist To the end times of apocalypse and eschatology Giorgio Agamben following Gianni Carchia opposes messianism and messianic time To the end of time in a formula the time of the end To the writings of those for whom to philosophize is to learn how to die from Plato to Montaigne and beyond one may oppose in like manner the writings of Spinoza who thinks of death least of all things for nature is Messianic by reason of its eternal and total passing away as Benjamin writes and so in whose pages wisdom transfigured is a meditation on life
