The Man Who Swam Into History:

The Man Who Swam into History Robert A. Rosenstone, 2010-01-01 The story begins with a grandfather who heroically escaped from Russia by swimming the Pruth River to Romania or did he Then there are stories of another grandfather who kept a lifelong mistress grandmothers who were ignored except in the kitchen migrations legal and illegal from Eastern Europe to Canada to California racketeers on one side of the family and Communists on the other and a West Coast adolescence in the McCarthy years All of these mostly true stories form a Jewish family's history a tale of dislocation and assimilation But in the hands of award winning historian Robert Rosenstone they become much more The fragments of memory so beautifully preserved in *The Man Who Swam into History* add unforgettable human characters to the now familiar story of the Jewish diaspora in the twentieth century This combination memoir short story collection recounts the Rosenstone family's passage from Romania to America Robert Rosenstone tells the story not as a single linear narrative but through tales sequences windows moments and fragments resurrected from the lives of three generations in my two parental families set in five countries on two continents over the period of almost a century This more literary and personal approach allows Rosenstone's relatives to emerge as distinct personalities voices who quarrel and gossip share their dreams and fears and maintain the ties of a loving if eccentric family Among the genre of coming to America tales *The Man Who Swam into History* is a work of unique vision one that both records and reconstructs the past even as it continuously and humorously questions the truth of its own assertions

Losing Site Dr Shelley Hornstein, 2013-06-28 As Ruskin suggests in his *Seven Lamps of Architecture* We may live without architecture and worship without her but we cannot remember without her We remember best when we experience

an event in a place But what happens when we leave that place or that place no longer exists This book addresses the relationship between memory and place and asks how architecture captures and triggers memory It explores how architecture exists as a material object and how it registers as a place that we come to remember beyond the physical site itself It questions what architecture is in the broadest sense assuming that it is not simply buildings Rather architecture is considered to be the mapping of physical mental or emotional space The idea that we are all architects in some measure as we actively organize and select pathways and markers within space is central to this book's premise Each chapter provides a different example of the manifold ways in which the physical place of architecture is curated by the architecture in our mental space our imaginary toolbox when we think of a place and look at a photograph or visit a site and describe it later or send a postcard By connecting architecture with other disciplines such as geography visual culture sociology and urban studies as well as the fine and performing arts this book puts forward the idea that a conversation about architecture is not exclusively about formal isolated buildings but instead must be deepened and broadened as spatialized visualizations and experiences of place

Experiments in Rethinking History Alun Munslow, Robert A. Rosenstone, 2004-08-02 History is a narrative discourse full of unfinished stories This collection of innovative and experimental pieces of historical writing shows there are fascinating and important new ways of thinking and writing about the past

Theoretical Perspectives on Historians' Autobiographies Jaume Aurell, 2015-07-24 E H Carr wrote study the historian before you begin to study the facts This book approaches the life work ideas debates and the context of key 20th and 21st century historians through an analysis of their life writing projects viewed as historiographical sources Merging literary studies on autobiography with theories of history it provides a systematic and detailed analysis of the autobiographies of the most outstanding historians from the classic texts by Giambattista Vico Edward Gibbon and Henry Adams to the Annales historians such as Fernand Braudel Philippe Ariès and Georges Duby to Marxist historians such as Eric Hobsbawm and Annie Kriegel to postmodern historians such as Carolyn Steedman Robert A Rosenstone Carlos Eire Luisa Passerini Elisabeth Roudinesco Gerda Lerner and Sheila Fitzpatrick and to interventional historians such as Geoff Eley Jill Ker Conway Natalie Davis and Gabrielle Spiegel Using a comparative approach to these texts this book identifies six historical autobiographical styles humanistic biographic ego historical monographic postmodern and interventional By privileging historians autobiographies this book proposes a renewed history of historiography one that engages the theoretical evolution of the discipline the way history has been interpreted by historians and the currents of thought and ideologies that have dominated and influenced its writing in the 20th and 21st centuries

Narrative and History Alun Munslow, 2018-09-19 Based on the assumption that reality reference and representation work together this introductory textbook explains and illustrates the various ways in which historians write the past as history For the first time the full range of leading narrative theorists such as Paul Ricoeur Hayden White Frank Ankersmit Seymour Chatman and Gérard Genette have been brought together to explain the narrative

making choices all author historians make when creating historical explanations Combining theory with practice Alun Munslow expands the boundaries of the discipline and charts a new role for unconventional historical forms and modes of expression Clear but comprehensive this is an ideal resource for undergraduate and postgraduate students taking courses on history and theory history and method and historiography *Lake Ronkonkoma in History and Legend, the Princess Curse and Other Stories: a Lifeguard's View* Dr. David S. Ignneri, 2013-07-22 The History and Legends of Lake Ronkonkoma the Princess Curse and Other Stories A Lifeguards View discusses the history and the folklore of Long Islands largest lake It builds a strong case for the Princess legend The author consulted professional opinions of paranormal experts who generally believe curses are real not superstition He also consulted many sources on Lake Ronkonkoma to focus in on the fact that a young male has drowned almost every year and that few females have died in the Lake In fact it remains that possibly only one female lost her life Her official cause of death was kidney failure caused by secondary drowning The volume also chronicles the lifeguard career of the author David S Ignneri His lifeguards at the lake and his other beaches were in general gifted athletes However to lifeguard Lake Ronkonkoma they needed specific training that was not covered in their regular lifeguard preparation At first Ignneri himself did not totally understand the task before him However he sought advice from older lifeguards and read everything he could about Ronkonkoma and formulated a program In his early years he did not believe in the Princess Curse at all and believed it was only superstition His experiences during that time made him re think his views Gradually he realized that some force or entity was causing or helped causing the many deaths David Ignneri began to change his policies at Lake Ronkonkoma on July 5 1965 He totally believes that the spirits told him what to do His goal became to protect and save all of the people all of the time and stop the legend After reading this volume you will have to decide for yourself how much success he had in this endeavor **The Nature of History Reader** Keith Jenkins, Alun Munslow, 2004 The question of what the nature of history is is a key issue for all students of history It is recognized by many that the past and history are different phenomena and that the way the past is actively historicized can be highly problematic and contested **History and Historiography in Greece** Nikos Christofis, 2025-05-01 An updated guide to Greek historiography was long overdue In this comprehensive and temporally wide ranging reassessment History and Historiography in Greece examines the evolution of Greek historical scholarship by reviewing the ideas methods and schools of history shaping the field From how these developments correspond with international trends to their rate of development alongside global shifts in scholarship this volume identifies not only the ideological limitations shaping Greek academia but also the innovations that are breaking new ground In doing so the contributors illuminate how those developments yield new lessons for existing conceptual frameworks within the fields of labor gender diaspora studies and more
