From Box Office to Ballot Box M. Keith Booker, 2007-02-28 Given the complexity and expense of making and distributing a film the process of filmmaking is by its very nature a political process Moreover given the power and persuasiveness of the cinema as a medium film can be a powerful political tool It should thus come as no surprise that film has had a long and extensive engagement with a variety of political topics ranging from the actual mechanics of governance to electoral politics to any number of specific political issues Through a film by film examination of the movies explicitly concerned with American politics and American political issues *From Box Office to Ballot*

Box provides valuable new insights into our culture's perceptions of various political environments and serves as a witness to the cinema's own complex contribution to the media's coverage of and relationship to American politics at large. From Box Office to Ballot Box takes as its subject films exploring the electoral process, the process of governing, and the involvement of the media in both. Separate chapters also deal with films related to specific political issues or phenomena that are particularly relevant to the above three categories, including labor and class, the Cold War, the Vietnam War, and the other recent conflicts in which the media has played such a large role. Specific films discussed include *Citizen Kane*, *All the King's Men*, *The Manchurian Candidate*, *All the Presidents Men*, *The Front*, *M.A.S.H.*, *JFK*, *Nixon*, *Wag the Dog*, *Three Kings*, *Black Hawk Down*, *The Quiet American*, *The Contender*, and many more.

Psycho Thrillers William Indick, 2013-10-18. Mind control, madness, and altered states of reality can make for exciting nights at the movies, which explains the enduring popularity of a film genre that might be called the psycho thriller. Psychiatry and film came of age simultaneously, and characters such as the evil psychiatrist and the pathological killer were often developed in direct reference to the psychological themes that inspired them. For example, the penchants of Hitchcock's famously creepy Norman Bates represented real psychological disorders, and his actions were explained through psychoanalysis. The psycho thriller presents a world where psychology represents a dimension of supernatural and metaphysical wonders. The introduction analyzes what makes a psycho thriller, and subsequent chapters are devoted to each of the archetypal psycho thriller characters: the mad scientist, the psycho killer, the individual with psychic powers, and the

psychiatrist and themes mind control dreams memory and existential issues The concluding chapter lists the top twenty psycho thrillers Stills from classic films in the genre illustrate the text which also includes filmography bibliography and index
