Listening to Stone Hayden Herrera,2015-04-21 Throughout the twentieth century Isamu Noguchi was a vital figure in modern art From interlocking wooden sculptures to massive steel monuments to the elegant Akari lamps Noguchi became a master of what he called the sculpturing of space But his constant struggle as both an artist and a man was to embrace his conflicted identity as the son of a single American woman and a famous yet reclusive Japanese father It s only in art he insisted that it was ever possible for me to find any identity at all In this remarkable biography of the elusive artist Hayden Herrera observes this driving force of Noguchi s creativity as intimately tied to his deep appreciation of nature As a boy in Japan Noguchi would collect wild azaleas and blue mountain flowers for a little garden in front of his home As Herrera writes he also included a rock to give a feeling of weight and permanence It was a sensual appreciation he never abandoned When looking for stones in remote Japanese quarries for his zen like Paris garden forty years later he would spend hours actually listening to the stones scrambling from one to another until he found one that spoke to him Constantly striving to take the essence of nature and distill it Noguchi moved from sculpture to furniture and from playgrounds to sets for his friend the choreographer Martha Graham and back again working in wood iron clay steel aluminum and of course stone Throughout his career Noguchi traveled constantly from New York to Paris to India to Japan forever uprooting himself to reinvigorate what he called the keen edge of originality Wherever he went his needy disposition and boyish charm drew women to him yet he tended to push them away when things began to feel too settled Only through his art now seen as a powerful aesthetic link between the East and the West did Noguchi ever seem to feel that he belonged Combining the personal correspondence of and interviews with Noguchi and those closest to him from artists patrons assistants and lovers Herrera has created an authoritative biography of one of the twentieth century s most important sculptors She locates Noguchi in his friendships with such artists as Buckminster Fuller and Arshile Gorky and in his affairs with women including Frida Kahlo and Anna

Matta Clark With the attention to detail and scholarship that made her biography of Gorky a finalist for the Pulitzer Prize Herrera has written a rich meditation on art in a globalized milieu Listening to Stone is a moving portrait of an artist compulsively driven to reinvent himself as he searched for his own essence of sculpture **Journal of the Society for Armenian Studies** ,1987 **The Insider** Gerald Howard,2025-11-04 A finalist for the 2026 Andrew Carnegie Medal for Excellence in Nonfiction A delightful and majestic reckoning with the ascent of American fiction in the twentieth century through the prism of the under known man who had an astonishing amount to do with it Malcolm Cowley is not a household name today but the American literary canon would look very different without him A prototypical man of letters of his generation Harvard University a volunteer in the French ambulance corps in World War I a rite of passage in Paris after the war he became one of the few truly influential critics of the 1920s and 30s along with his close New Republic colleague Edmund Wilson Cowley s early support of Hemingway Fitzgerald and their set and indeed for framing this group in generational terms in the first place secured his place in literary history Most people are lucky to be part of a single game changing era in their careers for Cowley it happened again and again After emerging from the political fray of the thirties badly damaged he retreated behind the scenes as a tastemaker whose import has awaited Gerald Howard to be brought into full view The process of canon formation is a murky business and Cowley was a prime mover in it for the better part of four decades through the Lost Generation the Beat Generation and the counterculture of the sixties Without him the odds would be much longer that the names William Faulkner Jack Kerouac and Ken Kesey to name just three would have ever echoed In The Insider Gerald Howard gives an intimate accounting of the fever graph of a fascinating and multifaceted career in the literary trade that uses that career to tell a much bigger story of how American literature took the course that it did from the 1920s to the 1960s It s a story of an art form and an industry and a country experiencing wrenching change and the people who made a home in the storm and in no small part shaped it Howard s own career as a literary weathermaker is justly acclaimed and he has brought all his talents of head and heart to bear in crafting this extraordinary book It s a gift to booklovers and a major contribution to the cultural history of this country
