The Marcus Garvey And Universal Negro Improvement Association Papers Volume Ii 27 August 1919 31 August 19:

Race War! Gerald Horne, 2004 A new look at a well covered piece of history the book looks at how racism shaped WW2

Racial Segregation and Eugenical Science Between the Wars Michael L. Blakey, 2025-07-18 This volume examines the rise and decline of racial science and its relationship to the political and social imposition of Jim Crow in the American South a racialized code of laws grounded upon an inherently racist and prejudicial pseudoscience The author argues here that the study of human beings within the emerging 18th and 19th century institutions of Western science was corrupted by the limited social intuitions of its enslaving colonizing and elitist members Western science and White societies plowed forward in continued ideological adherence to a biodeterministic imagination to justify slavery then Jim Crow racial segregation immigration restriction and other deadly and exploitative eugenical solutions of Social Darwinist thought The story is further complexified by the countervailing theories and voices of Black and Jewish intellectuals in the social and biocultural sciences in the 19th and 20th centuries such as Frederick Douglass W E B Du Bois and Montague Cobb These had profound consequences not only for the social sciences but also for the cultural life of Black Americans in the aftermath and afterlife of slavery At the same time even here the author discloses that the racialized dimensions of social science could not be fully exorcised as social science continued to construct soft line racism in that it selectively primitivized darker people and omitted White racism and colonialism from their human story African American social scientists and historians brought White racism and Black modernity to the fore Eugenics had begun to paint marginal White people Jewish and Italian immigrants to the United States as natural inferiors to Nordics or Aryans with devastating consequences in World War II Europe As the War ended the world community began its turn against racism in science and society In constructing this historical and sociological counternarrative the author provides a critical new social history that illuminates a tangled and turgid past for contemporary readers students and researchers with vital insights for anthropology sociology history cultural studies philosophy and American studies

Unmarking Whiteness and the New American Racism Michael L. Blakey, 2025-07-18 This book criticizes recent performative solutions to racism diversity programs at universities for example and White people's fragility or intolerance of mature criticism These ideas are locked in an intellectually gated and defensive conversation that effectively denies the ongoing particular abuses of White supremacy This book instead proposes expensive educational and economic changes including reparations as necessary to achieve real equity Once imputed by the eugenical effects of World War II and the Civil Rights Movement's opposition to White racism the word race was largely stricken from scientific writing But biological determinism remained deeply ensconced in an institution of science that assumed the natural world to be determining making natural science its most authoritative means Authoritative heritability estimates and genetic correlations though spurious continued to imply that obvious racial and class inequalities including their dire health effects were natural

and acceptable White people often attempted to unmark their racial identity and assumed that of the uniquely normal people as though an act of anti racism Frankenberg shows On the contrary it served to deny their skin color privileges while enjoying benefits of ongoing structural racism as the only real complete human beings in the room This book uses an ethnology of anthropology to show White people s equivocal views of other s equality in their formal analyses museum collections and exhibitions and treatment of colleagues in recent times They remained deliberately deaf to critical African diasporic scholarship Thus Unmarking gives an anthropological analysis of the social history of White supremacy and shows what it is like for some to confront it In constructing this historical and sociological counternarrative the author provides a critical new social history that illuminates a tangled and turgid past for contemporary readers students and researchers with vital insights for anthropology sociology history cultural studies philosophy and American studies Anthropology and Slavery at the Dawn of White Supremacy Michael L. Blakey, 2025-07-18 This volume examines biological and cultural data that debunk a primordial basis for racism It tracks the ancient history of all social inequity to agricultural and feudal societies The book then focuses on social and ideological developments in European societies associated with religious justifications for the enslavement of others The European Enlightenment built upon those prejudices with ideas about nature and acceptable natural causes of unequal social status for people newly classified into biological races Nineteenth century anthropology is critiqued by African diasporic scholars who are the first Americans to argue that nurture rather than nature is responsible for human variation The American Civil War brought slavery nearly to an end but racist science continued to grow as eugenics applied to justify otherwise unjustifiable structures of human inequality such as Jim Crow segregation as though they are morally sound In constructing this historical and sociological counternarrative the author provides a critical new social history that illuminates a tangled and turgid past for contemporary readers students and researchers with vital insights for anthropology sociology history cultural studies philosophy and American studies **God, Harlem U.S.A.** Jill Watts, 1992 Unearthing rare scarce and previously unknown original sources Watts spells out a comprehensive even definitive account of Father s controversial life and charismatic ministry In addition to the fascinating biography this is solid social and intellectual history as well American Academy of Religion Colonial Encounters in a Time of Global Conflict, 1914-1918 Santanu Das, Anna Maguire, Daniel Steinbach, 2021-09-28 This volume gathers an international cast of scholars to examine the unprecedented range of colonial encounters during the First World War More than four million men of color and an even greater number of white Europeans and Americans crisscrossed the globe Others in occupied areas behind the warzone or in neutral countries were nonetheless swept into the maelstrom From local encounters in New Zealand Britain and East Africa to army camps and hospitals in France and Mesopotamia from cafes and clubs in Salonika and London to anticolonial networks in Germany the USA and the Dutch East Indies this volume examines the actions and experiences of a varied company of soldiers medics writers photographers and revolutionaries to reconceptualize this conflict as a turning

point in the history of global encounters How did people interact across uneven intersections of nationality race gender class religion and language How did encounters direct and mediated forced and unforced shape issues from cross racial intimacy and identity formation to anti colonial networks civil rights movements and visions of a post war future The twelve chapters delve into spaces and processes of encounter to explore how the conjoined realities of war race and empire were experienced recorded and instrumentalized Temples for Tomorrow Geneviève Fabre, Michel Feith, 2001-09-19 The Harlem

Renaissance is rightly considered to be a moment of creative exuberance and unprecedented explosion Today there is a renewed interest in this movement calling for a re evaluation and a closer scrutiny of the era and of documents that have only recently become available Temples for Tomorrow reconsiders the period between two world wars which confirmed the intuitions of W E B DuBois on the color line and gave birth to the American dilemma later evoked by Gunnar Myrdal Issuing from a generation bearing new hopes and aspirations a new vision takes form and develops around the concept of the New Negro with a goal to recreate an African American identity and claim its legitimate place in the heart of the nation In reality this movement organized into a remarkable institutional network which was to remain the vision of an elite but which gave birth to tensions and differences This collection attempts to assess Harlem's role as a Black Mecca as site of intimate performance of African American life and as focal point in the creation of a diasporic identity in dialogue with the Caribbean and French speaking areas Essays treat the complex interweaving of Primitivism and Modernism of folk culture and elitist aspirations in different artistic media with a view to defining the interaction between music visual arts and literature Also included are known Renaissance intellectuals and writers Even though they had different conceptions of the role of the African American artist in a racially segregated society most participants in the New Negro movement shared a desire to express a new assertiveness in terms of literary creation and identity building **Black Scare / Red Scare** Charisse

Burden-Stelly, 2023-11-14 A radical explication of the ways anti Black racial oppression has infused the US government's anti communist repression In the early twentieth century two panics emerged in the United States The Black Scare was rooted in white Americans fear of Black Nationalism and dread at what social economic and political equality of Black people might entail The Red Scare sparked by communist uprisings abroad and subversion at home established anticapitalism as a force capable of infiltrating and disrupting the American order In Black Scare Red Scare Charisse Burden Stelly meticulously outlines the conjoined nature of these state sanctioned panics revealing how they unfolded together as the United States pursued capitalist domination Antiradical repression she shows is inseparable from anti Black oppression and vice versa Beginning her account in 1917 the year of the Bolshevik Revolution the East St Louis Race Riot and the Espionage Act Burden Stelly traces the long duration of these intertwined and mutually reinforcing phenomena She theorizes two bases of the Black Scare Red Scare US Capitalist Racist Society a racially hierarchical political economy built on exploitative labor relationships and Wall Street Imperialism the violent processes by which businesses and the US government structured

domestic and foreign policies to consolidate capital and racial domination In opposition Radical Blackness embodied the government's fear of both Black insurrection and Red instigation The state's actions and rhetoric therefore characterized Black anticapitalists as foreign alien and undesirable This reactionary response led to an ideology that Burden Stelly calls True Americanism the belief that the best things about America were absolutely not Red and not Black which were interchangeable threats Black Scare Red Scare illuminates the anticommunist nature of the US and its governance but also shines a light on a misunderstood tradition of struggle for Black liberation Burden Stelly highlights the Black anticapitalist organizers working within and alongside the international communist movement and analyzes the ways the Black Scare Red Scare reverberates through ongoing suppression of Black radical activism today Drawing on a range of administrative legal and archival sources Burden Stelly incorporates emancipatory ideas from several disciplines to uncover novel insights into Black political minorities and their legacy

Jim Crow: Voices from a Century of Struggle Part 1 (LOA #376) Tyina L. Steptoe, 2024-04-02 This collection of 80 dramatic firsthand writings by Frederick Douglass Ida B Wells and others brings to life the struggle for racial justice from the Civil War to World War I A vital resource for the teaching of the history of race in America that traces the ascendancy of white supremacy after Reconstruction and the outspoken resistance to it led by Black Americans and their allies W E B Du Bois famously identified the problem of the color line as the defining issue in American life The powerful writings gathered here reveal the many ways Americans Black and white fought against white supremacist efforts to police the color line envisioning a better America in the face of disenfranchisement segregation and widespread lynching mob violence and police brutality Jim Crow Voices from a Century of Struggle Part One brings together speeches pamphlets newspaper and magazine articles public testimony judicial opinions letters and poems and song lyrics more than eighty essential texts in all from the end of Reconstruction in 1876 to the bloody Red Summer of 1919 The volume includes writing by both famous and lesser known individuals including Ida B Wells on the scourge of lynching Richard T Greener's scathing critique of America's White Problem Charles Chesnutt on the nullification of the Fifteenth Amendment Booker T Washington's historic Atlanta address John Marshall Harlan's eloquent and prophetic dissent in Plessy v Ferguson Mary Church Terrell on segregation in the nation's capital and the convict lease system William Monroe Trotter's dramatic White House confrontation with Woodrow Wilson Jeanette Carter's tribute to the men and women who fought back against white mobs in 1919 The volume also presents revealing examples of white supremacist advocacy by Nathaniel Shaler and Benjamin Tillman testimony about the Exoduster migration to Kansas in the 1870s celebrations of pathbreaking Black musicians and stage performers writing about the Wilmington insurrection of 1898 the founding of the NAACP and Black soldiers in World War I and contrasting editorials from the Black and white press on prizefighter Jack Johnson and the outlaw Robert Charles As the teaching of our nation's history especially the history of race in America becomes increasingly contested this book will serve as a vital resource a crucial reminder of where we've been how far we've come and how long the road ahead remains

An Afro-Indigenous History of the United States Kyle T. Mays, 2021-11-16 The first intersectional history of the Black and Native American struggle for freedom in our country that also reframes our understanding of who was Indigenous in early America Beginning with pre Revolutionary America and moving into the movement for Black lives and contemporary Indigenous activism Afro Indigenous historian Kyle T Mays argues that the foundations of the US are rooted in antiblackness and settler colonialism and that these parallel oppressions continue into the present He explores how Black and Indigenous peoples have always resisted and struggled for freedom sometimes together and sometimes apart Whether to end African enslavement and Indigenous removal or eradicate capitalism and colonialism Mays show how the fervor of Black and Indigenous peoples calls for justice have consistently sought to uproot white supremacy Mays uses a wide array of historical activists and pop culture icons sacred texts and foundational texts like the Declaration of Independence and Democracy in America He covers the civil rights movement and freedom struggles of the 1960s and 1970s and explores current debates around the use of Native American imagery and the cultural appropriation of Black culture Mays compels us to rethink both our history as well as contemporary debates and to imagine the powerful possibilities of Afro Indigenous solidarity Includes an 8 page photo insert featuring Kwame Ture with Dennis Banks and Russell Means at the Wounded Knee Trials Angela Davis walking with Oren Lyons after he leaves Wounded Knee SD former South African president Nelson Mandela with Clyde Bellecourt and more
